1. CHOX Credit Hire Organisation and Insurer Responsibilities

This section details the roles and responsibilities for the use of CHOX regarding the credit hire and/or credit repair process.

1.1 Claim and Invoice Data

It is the Credit Hire Organisation's responsibility to upload claim and invoice data into CHOX. This will either be from a direct feed from internal systems via a Web Service or via an XML upload feed into the CHOX web browser front end.

It is the Credit Hire Organisation's responsibility to ensure that the data being uploaded into CHOX is of an accurate, complete and consistent nature.

1.2 Claim Acknowledgement

It is the Insurer's responsibility to review all incoming first notifications and assess against details held on internal systems. The Insurer must then decide to acknowledge or reject a claim. A Credit Hire Organisation, cannot upload invoice details against a claim which has been rejected or yet to be acknowledged.

1.3 Monitoring of Hire

It is the Credit Hire Organisation's duty to monitor the progress of a hire/repair. Information obtained from the hire/repair monitoring process is to be entered into CHOX against the claim in question.

1.4 Invoice Approval

It is the responsibility of the Insurer to review all invoices that have either passed the business rules held in CHOX or invoices that have failed fundamental business rules and therefore require review. The Insurer will be required to make a decision on whether to clear the invoice for payment or reject the invoice in question given the information supplied.

1.5 Invoice/Claim Amendment

It is the Credit Hire Organisation's responsibility to make modifications to a claim/invoice with fundamental calculative and data errors. The Credit Hire Organisation is also required to supply additional information to a claim via the means of CHOX upon request by the Insurer.

1.6 Invoice Payment

It is the responsibility of the Insurer to monitor payments required for hire invoices using CHOX once a claim has been cleared for payment. The payment will be logged on the Insurer's internal payments system but a requirement to update CHOX of this payment is in order.

The Credit Hire Organisation is required to monitor CHOX for all claims where an Insurer has logged a payment for the invoice and update the claim in CHOX with notification that the payment has been received.

2. Getting Started

2.1 System Requirements

CHOX can be accessed online and is supported by the following web browsers only:

- Internet Explorer 6 or higher
- Mozilla Firefox 3 or higher
- Safari 3 or higher

2.2 Logging On

- Before you can begin using CHOX, you will need at hand your registered username and password as supplied by the CHOX support team. You will have been sent an e-mail detailing your username and password.
- Using your preferred web browser from the list above, enter the following URL into your browser's address bar: **https://www.idaschox.com**
- Enter your case sensitive username and password into the relevant fields as shown in **Figure 1** below.

Figure 1

2.3 User Roles

There are four user roles for a Credit Hire Organisation within CHOX; each role is specific with appropriate read/write and access privileges. These roles are detailed below with a brief description of each role:

- **Operative** – Access to all work queues and every day Credit Hire Organisation functionality.
- **User Manager** – The CHO Admin role will have access to the administrative functionality within CHOX, offering the ability to create users and assign roles to users.
- **MI Access** – Access to all reports for Insurer and ability to use the 'Search' screen. Role 'MI Access' will not have the ability to action any claims, in affect they will have read only access this includes no access to the 'More Actions' and 'Batch Update' functions.
- **Manager** – Access to all CHO Operative's queues and functionality, however will not have access to "User Management" and "Admin" Tabs.

3. Basics

3.1 CHOX at a Glance

On logging into CHOX you will be presented with the following screen layout:

The screenshot displays the CHOX Claims Handler interface. At the top, the CHOX logo is on the left, and the navigation menu (Home | Settings | Help | Support | About CHOX | Claims Handler, ABC CHO (Log Off)) is on the right. Below the logo, there are tabs for 'Inbox', 'Search', and 'Claim/Invoice Upload'. The 'Inbox' tab is active, showing a list of links for various claim statuses, such as 'Rejected Claims (3)', 'Liability Status Update Notifications (252)', 'Awaiting Litigation Outcome (0)', 'Claims Awaiting Hire Monitoring Information (41)', 'Awaiting Invoice Data (0)', 'Incorrect Invoice Data Calculations (1)', 'Contested Invoices Referred To CHO (14)', 'Penalty Charges To Be Applied (158)', 'Approved Invoices Awaiting Liability Resolution (24)', 'Interim Payments To Be Received (1)', 'Invoices With Final Review (0)', and 'Payments To Be Received (5)'. The 'Task Management' section is on the right, featuring a table with columns: Supplier, Due Date, Task Type, Description, Created, and Created By. The table lists four tasks, all with a due date of 21/06/2011 or 06/09/2011. Below the table, there is a 'Page 1 of 4' indicator and a 'Displaying Tasks 1 - 20 of 80' message. At the bottom, there is a 'Claims (0)' section with a 'Batch Update' dropdown and an 'Export To Excel' button. The footer contains the copyright notice: '©2013 Sherwood Technology Solutions Ltd | Copyright | Privacy Policy | Terms of Service'.

Figure 2

3.2 Navigation

CHOX can be navigated using a mouse to click on menu items and arrows.

3.2.1 Control Toolbar

The 'Control Toolbar' is located in the top right-hand side of the CHOX screen as shown by the red box displayed in Figure 3 below.

This screenshot is identical to Figure 2, but with a red rectangular box highlighting the navigation menu at the top right of the page, which contains the links: 'Home | Settings | Help | Support | About CHOX | Claims Handler, ABC CHO (Log Off)'.

Figure 3

The 'Control Toolbar' allows a user access to the following controls:

3.2.1.1 Home

When the 'Home' shortcut link is clicked the user will be taken to the home screen within CHOX as shown in figure 3 above. The default home screen is the Inbox.

3.2.1.2 Settings

The settings link allows the user to view their registered information and change their password.

3.2.1.3 Help

When the 'Help' shortcut link is clicked a new browser session will open which will contain the CHOX Credit Hire Organisation user guide.

3.2.1.4 Support

When the 'Support' shortcut link is clicked a drop down list will appear enabling the user to submit an online support request through the 'Online Support Form' option or select 'Support Procedure' to open the CHOX support procedure in a separate internet browser tab.

3.2.1.5 About CHOX

When the 'About CHOX' shortcut link is clicked a pop-up window will appear which will contain details relating to the CHOX product including versioning and ownership.

3.2.1.6 Log Off

When the 'Log Off' shortcut link is clicked you will be logged off from your current activity and returned to the CHOX log on screen as shown in Figure 1. Logging off can also be achieved by closing the window or tab of your internet browser.

3.2.2 Inbox

The 'Inbox' tab allows a user to see work queues that are relevant to them. The work queues allow a user to see how many items are outstanding in a particular queue at any given moment and therefore require action.

As shown in

Figure 4 below the work queues are displayed as internet style hypertext links. In order to access a particular work queue, click on the name of the work queue you wish to view.

The filter drop down menu located above the Inbox queues will allow users to filter claims by Insurer or claim type.

3.2.3 Claims Overview Grid

Located below the work queue items as shown in **Figure 5** (indicated by the red box), is a small grid made up of a number of columns referred to as the 'Claims Overview Grid'. The 'Claims Overview Grid' displays all claims that relate to the work queue that is currently selected and therefore all items in the grid are of the same status. The 'Claims Overview Grid' displays a handpicked selection of columns that will allow you to uniquely identify a claim. In order to view the details of a particular claim or action a claim, click on the 'Supplier Reference' field (underlined with blue text, appearing as an internet style hypertext links) for the particular claim.

3.2.4 Bulk Updates to Claims

Claims can be updated to Payment Received via a bulk update by following the below method

- Select the 'Payments To Be Received' work queue.
- The claims will all be displayed in the 'Claims Overview Grid'.
- Select the claims that you wish to update to 'Payment Received' by checking the tick box next to each claim as shown in figure 6 below or alternatively select all claims by checking the tick box that appears along the top row.
- Click on the 'Batch Update' button.
- Select 'Update claim(s) To Payment Received' as show in Figure 6 below.

Figure 8

- To widen search results, search using only one field.
- To minimise search results, search using multiple fields.

Detailed below is a list of the searchable fields with a brief explanation on the results that would be returned if a search was conducted on each:

- **Supplier Reference** - Unique reference for the Credit Hire Organisation (as stored on internal systems) in order to identify a claim. Will display only one result in the 'Claim Overview Grid'.
- **Claim Number** - Unique reference for the Insurer (as stored on internal systems) in order to identify a claim. Will display only one result in the 'Claim Overview Grid'.
- **Invoice Number** – This number refers to the Credit Hire Organisation's internal invoicing number. This search could return a specific claim relating to an invoice payment for a credit hire and/or credit repair or return a specific claim relating to a Claims Handling invoice in the case of Credit Hire Organisations under the Delegated Authority scheme.
- **Show Open Claims Only** – When this box is checked, the search will exclude all claims that have been closed or have been resolved.
- **Supplier VRN** – This search is for the customer/supplier/non-fault party's vehicle registration number. It is possible for more than one claim to exist against a single VRN.
- **Insurer VRN** – This search is for the third party/at-fault party/insurer's vehicle registration number. It is possible for more than one claim to exist against a single VRN.
- **Claim Upload Date From & To** – Date range to include all claims between selected dates where the claim was uploaded into CHOX for the first notification stage of the claim lifecycle.
- **Status Modified Date From & To** – Date range to include all claims between selected dates where the Status changed on CHOX.
- **Invoice Upload Date From & To** - Date range to include all claims between selected dates where the invoice was uploaded into CHOX.
- **Hire Start Date From & To** – Date range to include all claims between selected dates where the hire start of the replacement vehicle commenced.
- **Liability Status:** – The search will return results for all claims in CHOX for the liability status specified.
- **Status** – Search will return results for all claims in CHOX of the specified status. At the top of this list is a status labelled 'ACTIONS FOR HANDLERS', this is not a claim status, selecting this search parameter would produce a list of claims that are classed as outstanding actions for claims handlers and will have either of the following statuses; ClaimUnacknowledgedRouted, ClaimRejectionContested, ClaimPending, ClaimUpdatedByEngineer, InvoiceReferredToClaimsHandler, InvoiceEscalatedToHandler, ContestedInvoiceReferredToInsurer, InvoiceApprovedByBRE, AwaitingInvoicePayment, AwaitingLiabilityResolution.
- **Insurer Name**- The search will return results for all claims in CHOX for the specified Insurer.
- **Insurer Workgroup** – The search will return results for all claims in CHOX for the specified Workgroup.
- **Insurer's Claim Owner** – The search will return results for all claims in CHOX for the specified claim owner.
- **Show Claims With Penalty Charges Only**- Search will return all claims in CHOX that have penalty charges on the invoice.
- **Show claims With Supp. Invoices Only**- Search will return all claims that have a Supplementary Invoice uploaded against them.
- **Claim Type**- This will list the different types of claims that exist in CHOX e.g. GTA, Subscriber, TPI.

To use the CHOX search facility select the relevant search criteria in the form of the supplied drop down menus, date calendar pop-ups or by typing search strings into the relevant field(s). For text

entry searches, the inclusion of a ‘%’ symbol anywhere in the entry will act as a wild card character (representing any group of characters or numbers), for example a search on the ‘Supplier Reference’ field with ‘%CH%’ would return all claims which have ‘CH’ in the ‘Supplier Reference’ and any group of characters either side of the ‘CH’.

Once the search criteria has been entered click on the ‘Search’ button. Results from the entered search criteria are shown in **Figure 9** below:

Figure 9

3.2.6 Claim Summary Pane

When viewing the claim details of a particular claim, you will be presented with the ‘Claim Summary’ pane as shown in Figure 10. The ‘Claim Summary’ pane contains information that is regarded as essential to a user and therefore is displayed at all times regardless of the tab you navigate to.

Figure 10

3.2.7 Action Pane

For certain status, an action window pane will be displayed which will require certain action in order to move the claim to the next status/lifecycle step. The action pane will be located beneath the ‘Claim Summary’ pane when viewing the claim detail as discussed above. The action pane in order to proceed a claim to invoicing stage is shown below in Figure 11 as an example.

Hire Monitoring - Action Required

Please complete the 'Hire Monitoring' tab with required details regarding the hire of the vehicle. When you are ready, please click the 'Proceed' button below.

Please specify how you wish to proceed

Figure 11

3.2.8 Tabs

Upon selecting to view the claim details for a particular claim by clicking on the 'Supplier Reference' number in the 'Claim Overview Grid', the tab view as shown by the red box in 12 below is displayed:

Claim Details | Hire Monitoring | Invoice Details | Attachments | History | Claim Cycle | Notes | Tasks

+Expand All

Customer Details | **Third-Party Details**

Mitigation Statement | **Injury**

Vehicle Damage | **Injury Solicitor**

Incident Details | **Witness Details**

Claim Details

Figure 12

Tabs allow a user to browse through segmented sections of a claims underlying detail allowing more efficient and effective navigation through the extensive set of data held against a claim in CHOX.

3.2.8.1 Expanding/Collapsing Tab Details

By default the information displayed within a tab is collapsed in that the tab section header is shown without the underlying detail as shown in

Figure 3 below. In order to view an individual detail under each of the tab section headers click on the tab section header in question. The red box in

Figure 3 below represents the 'Customer Details' section header.

Claim Details | Hire Monitoring | Invoice Details | Attachments | History | Claim Cycle | Notes | Tasks

Customer Details | **Third-Party Details**

Mitigation Statement | **Injury**

Vehicle Damage | **Injury Solicitor**

Incident Details | **Witness Details**

Claim Details

Figure 13

When you have clicked on a tab section header all underlying details will expand under the tab section header as shown by the red box in **Figure 4** below. Clicking on the tab section header section again will collapse the underlying details returning the user to the view as shown in **Figure 3** above.

Figure 14

3.2.8.2 Expanding/Collapsing all Tab Details

To expand all of the tab section headers at the same time, the user can click on the '+Expand All' link located in the top left corner. This will then open all underlying details for each of the tab section headers. The link for doing this is highlighted in **Figure 5** below.

Figure 15

Once all of the underlying details have been expanded, the user can then perform the opposite action and collapse all of the information. To do this, the user must click on the '-Collapse All' link which has taken the place of the '+Expand All' link in the top left hand corner. The link for performing this action can be seen in **Figure 16** below.

3.2.8.4 Tab Availability

CHOX offers access to tabs depending on the status of the claim and therefore what can and cannot be viewed. If a tab has blue writing as the tab name then the tab can be navigated to, however if the tab has grey writing as the tab name then the tab cannot be navigated to. Based on Figure 20 below, 'Claim Details' tab, 'Hire Monitoring' tab, 'Claim Cycle' tab, 'Attachments' tab, 'Tasks' tab and 'Notes' tab can all be navigated to, but the 'Invoice Details' and 'History' tabs cannot be navigated to.

Figure 20

3.2.8.5 Tabs Explained

An explanation on the content displayed on each tab is offered below.

3.2.8.5.1 Claim Details Tab

The 'Claim Details' tab contains information relating to the general claim details, non-fault party's details, at-fault party's details, witness details, vehicle damage details, incident details, injury details and injury solicitor details.

3.2.8.5.2 Hire Monitoring Tab

The 'Hire Monitoring' tab contains information relating to the monitoring of the hire/repair. During the length of time the customer has the vehicle on hire, it is the Credit Hire Organisation's duty to monitor the progress of the repair/hire, any update/modification that is deemed important/vital/required by the Insurer is noted on this tab as and when the update occurs. The user has the ability to ensure that the update is reviewed/seen by the Insurer if required. The 'Hire Monitoring' tab can be viewed and updated from the moment the claim is uploaded into the system up until the status of the claim changes to 'AwaitingInvoiceData', indicating the vehicle has been off-hired and therefore no further updates can take place.

3.2.8.5.3 Invoice Details Tab

The 'Invoice Details' tab contains a breakdown of the items that make up the total invoice cost including details regarding the vehicle on hire, the length of hire, extras added to the vehicle for the hire, engineer report details, repair costs and any other additional costs that have been incorporated as part of the hire.

3.2.8.5.4 Attachments Tab

The 'Attachments' tab allows a user to attach files to a claim in various file formats such as PDF documents, Microsoft Word documents and common image file formats. Photos, associated documents and payment packs can be attached to a claim using the 'Attachments' tab.

3.2.8.5.5 History Tab

The 'History' tab contains details regarding the results of the Business Rules Engine validation when an invoice has been uploaded into CHOX and any messages as a result of this process are stored. The items detailed on the 'History' tab are displayed in chronological order with the oldest history items being displayed first as shown in Figure 21 below:

Figure 21

3.2.8.5.6 Claim Cycle

The 'Claim Cycle' tab contains details of the status changes of a particular claim. A new entry is added to the list every time the status is changed, including who changed the status of the claim, the new status of the claim and the date/time the status changed. The list is automatically displayed in chronological order with the newest/current status appearing at the bottom as shown in Figure 22 below.

Claim Details	Hire Monitoring	Invoice Details	Attachments	History	Claim Cycle	Notes	Tasks
Modified Date	Modified By	Status					
29/03/2010 14:25:45	Claims Handler (ABC CHO)	InvoiceDataCalculationIncorrect

29/03/2010 11:48:22	Claims Handler (ABC CHO)	ClaimUnacknowledgedUnrouted					

Figure 22

3.2.8.5.7 Notes Tab

The 'Notes' tab is an empty data field which can be used to add comments by both Insurers and Credit Hire Organisations. All notes can be viewed at any stage of the CHOX process by navigating to the 'Notes' tab within a claim. Notes can either be of a private nature and therefore only seen by internal Credit Hire Organisation users or of a public nature and therefore seen by all users who can access the claim, including the insurance organisation that the claim is against. Follow the below steps in order to add a note to a claim:

- View the claim details of the claim in question and navigate to the 'Notes' tab, a screen shot of the 'Notes' tab is shown below in Figure 23.
- Notes can be deleted within 5 minutes by the individual who added the note, by managers or by CHOX Admin. After 5 minutes only CHOX ADMIN will be able to delete the note.

Add New Note

☒ Public Note (Visible By Insurer) ☐ Private Note (Only Visible Internally)

Figure 23

- To add a query or a note, click into the 'Add a new note' field and type the message.
- Select whether the note should be of a private or public nature using the radio buttons as shown in Figure 23.
- Click on the 'Add Note' button.
- All notes that have been entered against a claim by either the Credit Hire Organisation or Insurer will appear on the 'Notes' tab, all notes for each claim are archived by date and are not amendable.
- Private notes are distinguished between public notes by the use of a blue highlight.

3.2.8.5.8 Tasks Tab

The 'Task' tab allows for specific tasks to be added to a claim which can be assigned both internally (for the Credit Hire Organisation) and externally (for the Insurer). This opens up invaluable dialogue in ensuring claims are processed as quickly as possible and all disputes are settled swiftly and efficiently. Tasks can be viewed at any stage of the CHOX process by navigating to the 'Tasks' tab within a claim. Tasks can either be internal and therefore only seen by internal Insurer users or external and therefore seen by the Insurer who the claim is against.

Add New Task

Due Date:

Task Type:

Add Task

☐ External Task ☒ Internal Task

Mark As Complete

☒ Hide Completed Tasks

☐	Due Date	Task Type	Description	Created Date	Created By	Assigned To	Completed By
☐	10/10/2010	Repair Documentation	Please attach the repair documentation for this ...	10/10/2010	ABC Operative (ABC CHO)	CHO	
☐	20/10/2010	Total Loss Pack	Add Total Loss information for the claim	10/10/2010	ABC Operative (ABC CHO)	CHO	

Figure 24

To add a new task from within a claim:

- Click on the 'Tasks' tab from within the claim view.
- Decide on the date that this task should be completed by clicking within the 'Due Date' field and putting in a date. This can also be selected by using the calendar option next to the text box.
- Click on the drop down arrow for 'Task Type' and select a task type from the list provided. If the types listed do not match your criteria, use 'Other'.
- Click in the text box labelled 'Task Description' and write a meaningful description of the task that is to be carried out.
- Decide whether you wish for the task to be internal or external using the radio buttons provided underneath the 'Task Description' box. With creating an external task, the system will automatically assign the task to the correct user at the Insurer automatically.
- Click on the 'Add Task' button.
- The task will now be displayed in the grid.
 - If the task is in the future, it will be displayed in black text.
 - If the task is due today, it will be displayed in orange text.
 - If the due date has past, the task will be displayed in red text.
 - If the 'Hide Completed Tasks' checkbox is not ticked, all completed tasks will appear with grey text.
- To mark a task as complete, you need to select the task from the grid using the tick box to the left of the 'Due Date' column and then click on the 'Mark As Complete' button. It will then disappear from the list of tasks. To find this task again, you can uncheck the 'Hide Completed Tasks' box and all old/completed tasks will appear in Grey in the Task Grid.

4. Data Upload

Please see Appendix B for details on installing the CHOX macro for the generation of the XML file that is required for loading data manually into CHOX.

If you are using the fully-integrated CHOX system via Web Services, the data upload is automatic. If you are not using the fully-integrated CHOX system, you can manually upload data using the 'Claim/Invoice Upload' tab.

4.1 Claim and Invoice Uploads

There is no requirement to specify whether the XML upload is of a '1st claim notification' or 'invoicing' nature, this is something CHOX handles automatically.

In order to upload an XML file please follow these steps:

- Click on the 'Claim/Invoice Upload' tab located in the top left of the screen as shown by the red box in **Figure 5** below.

Figure 25

- Click on the 'Browse...' button as shown in **Figure 6** below.

Figure 26

- Navigate to the location of where the XML file is stored on your PC/network and click 'Open'.
- Click on the 'Upload Claims' button to upload the XML file.
- The XML will be uploaded into CHOX and be visible in the 'Uploaded Files (Today)' section with Status 'Waiting to be Processed' as shown in **Figure 7** below.

©2010 Sherwood Compliance Services Ltd | [Copyright](#) | [Privacy Policy](#) | [Terms of Service](#)

Figure 29

Below details the necessary actions to take in order to handle the relevant 'Process Status' displayed:

- **Uploaded** – No action required, the claim status should read 'ClaimUnacknowledgedUnrouted'
- **Updated** – The claim already exists in the system but on re-upload of the XML file, CHOX looks to see if certain data fields have been updated/modified, if there are updated data fields the CHOX database is updated accordingly.
- **Failed** – There are three reasons why the claim details could not be uploaded into CHOX:
 - Mandatory data field missing
 - Incorrect data type for a particular data field
 - Incorrect data format for a particular data field

Please review the 'Error Message' associated with any failed claims for information on the reason for the failure. The message will detail which of the three failure reasons above apply and to which field(s). Records for a claim that has failed to upload will not be stored on the system. There are three options for the re-submission of a claim that has failed on upload:

- Make a note of the Supplier Reference for all the claims that have failed the upload. Make the necessary amendments on the original bordereau file as per the 'Error Messages', create a new XML file and upload into CHOX.
- Make a note of the Supplier Reference for all the claims that have failed the upload. Open the bordereau file on which the XML was based and copy and paste the lines for claims that have failed onto a fresh bordereau template, make the necessary amendments as per the 'Error Messages', create an XML file based on the new bordereau. Upload the new XML file into CHOX.
- Make a note of the Supplier Reference for all the claims that have failed the upload. Before the next upload of 'new' '1st claim notifications' is done, open the bordereau file on which the XML (with the claim failure(s)) was based and remove the lines for claims that have failed and paste these onto the 'new' '1st claim notification' bordereau, making the necessary changes as per the 'Error Messages'. Create an XML file based on the 'new' bordereau and upload the new XML file into CHOX.

4.2 Invoice Upload

Once the hire has been completed, the Credit Hire Organisation will be required to upload an invoice to support the amount requested for payment to the Insurer.

To upload an invoice, you should follow the same steps as outlined in section 4.1. Once the upload is complete, the results will be shown as in **Figure 306** below.

Figure 306

There are two possible upload statuses as listed in the Process Status column, either Uploaded or Failed. The Error Message column will provide more information on why the invoice failed to upload.

Below details information on each of the two distinct Process Statuses and if appropriate what action to take.

- **Failed** – The invoice has not been uploaded to the system. The row will be highlighted in red to indicate that the invoice has not been accepted, the 'Error Message' column will contain details on why the invoice upload has failed. Please review the 'Error Message' column for details on why the invoice upload has failed. No records for a claim that has failed the upload will be saved on the system. There are three options for the re-submission of an invoice (that has failed on upload) as described in section 4.1.1 above. Common upload failure reasons are if the invoice has already been uploaded into the system, the status of the claim in the system is not at the required state to upload an invoice (an invoice can only be uploaded once the claim has processed through the required cycle and the status of the claim is 'AwaitingInvoiceData'), mandatory data fields missing and incorrect data types/formats.
- **Uploaded** – The claim/invoice data has been uploaded and saved to the system. The 'Claim Status' field will be one of four statuses when a claim/invoice has been successfully uploaded. Information on these statuses is covered in more detail throughout this document but a brief description is offered below:
 - **InvoiceEscalatedToHandler** – Line highlighted in yellow. 'New Invoice' in 'Remark' column, claim will appear in Insurer's work queue for review. One or more of the rules as held in the

Business Rules Engine have failed and the claim/invoice flagged to the Insurer's claims handlers for review.

- InvoiceApprovedByBRE – Line highlighted in green. 'New Invoice' in 'Remark' column, claim will appear in Insurer's work queue to be cleared for payment. All of the rules as held in the Business Rules Engine passed.
- InvoiceDataCalculationIncorrect – Line highlighted in red. Details of why the claim/invoice has been given this status will appear next to the claim in the 'Error Message' column. The claim will appear in the Credit Hire Organisation's work queue for action, with details on what action is required contained on the 'History' tab.

5. Inbox

As discussed previously, your inbox will display all work queues that are relevant to your role in the system. What follows is a list of the work queues as well as a description of which each contains as well as the steps required to remove/process the claims from the queues by way of action.

5.1 Rejected Claims

The 'Rejected Claims' work queue contains a list of claims that have been reviewed by the Insurer following the '1st claim notification' upload but rejected as a valid claim from the Insurer's perspective.

- There are two action routes for 'Rejected Claims':
 - Accept Claim Rejection
 - Contest Claim Rejection
- View the claim details of the claim in question and review the 'Notes' tab section to view any notes or queries added by the Insurer.
- If you are contesting the Insurer's decision to reject the claim then follow these steps:
 - Review the claim details as held on the 'Claim Details' and make any necessary amendments taking into consideration the notes of the Insurer, save changes.
 - Include any additional notes as required, if changes have been made to the claim details it would be recommended to include details of these changes for the benefit of the Insurer.
 - Re-submit the claim by clicking on the 'Contest This Claim' button.
- If you are accepting the Insurer's decision to reject the claim then follow these steps, please note that this will end the life of the claim in CHOX:
 - Make a note as to the reason why you are accepting the claim rejection using the 'Notes' tab.
 - Accept the claim rejection decision by clicking on the 'Accept Rejection Decision' button.
 - If a claim has been assigned to the wrong insurer, the CHO will be able to switch the claim by clicking on the "Switch Claim" button and selecting from the drop down menu the Insurer the claim should be allocated to. This can be seen in Figure 31 below.

5.2 Liability Status Update Information

The 'Liability Status Update Information' queue shows all claims that have had a change to the liability status. This is a notification and does not impact the claims current status. Within the claim view the user can view the update to the liability within the 'Liability Update Notification' panel.

The new or updated liability percentages for both the CHO and Insurer can be viewed in the 'Claim Summary' pane. This is highlighted in Figure 32 below:

Claim Summary

Third Party Insurer	ABC Insurer	Credit Hire Organisation	ABC CHO	Created By	ABC Operative (ABC CHO)
Supplier Reference	CHOX109	Insurer Claim Number	12345687	Created On	06 Sep 2010 13:02

Liability Update Notification

• Liability Status updated to 'Liability Split' On 06/09/2010 13:06 ([Remove note from list](#))

[Remove All](#)

Figure 32

This update notification only acts as a reminder that the liability status has changed. Should the user have a query regarding the change, they should contact the Insurer via telephone and then record any actions taken within the 'Notes' tab. If the user is happy with the change, or simply does not wish to see this in the queue any longer, it can be removed. To remove the notification, simply click on the 'Remove note from list' hyperlink next to the update, or if it's the only update the user could click on the 'Remove All' button.

If this claim had multiple liability updates, they would appear in this queue and can be removed singularly by clicking on the hyperlink, or all updates in one go via the 'Remove All' button.

5.2.1 Liability Statuses Explained

Full Liability Accepted - Indicates that the Third party Insurer is accepting 100% liability for the claim.

Liability In Negotiation - Indicates that liability negotiations are taking place between the Insurer and CHO.

Liability Unknown - Indicates that the Third Party Insurer has insufficient information available to make a comment on liability, for example it is a new claim, there has been no contact from/with Policyholder, or waiting to obtain Policyholder accident report form.

Liability Repudiated - Indicates that the Third Party Insurer is denying all (zero) liability for the claim.

Liability Split - Indicates that liability has been agreed on a split basis with the Insurer and CHO accepting partial liability.

Proceed Without Prejudice - Indicates indemnity is not granted but a decision has been made to make a payment anyway.

5.3 Awaiting Litigation Outcome:

The "Awaiting Litigation Outcome" queue contains claims where there is ongoing litigation.

- Once a positive outcome has been reached click on the 'Revert Status' button as shown in Figure 33 below which will move the claim back into the 'ContestedInvoiceReferredToCHO' status allowing any necessary invoice amendments and the re-submission of the invoice to the Insurer.
- If a negative outcome is reached and the claim will no longer be pursued against the Insurer then click on the 'Close Claim' button.

This claim is in a pending state until a litigation outcome has been reached. If an outcome has been reached then please click on the 'Revert Status' button above which will move the claim back into the 'ContestedInvoiceReferredToCHO' status allowing any necessary invoice amendments and the re-submission of the invoice to the Insurer. If no outcome is to be reached and the claim will no longer be pursued against the Insurer then click on the 'Close Claim' button above.

Figure 33

5.4 Claims Awaiting Hire Monitoring Information

The 'Claims Awaiting Hire Monitoring Information' queue contains a list of claims where the hire is in progress or even completed. All claims in this queue will require entries made on the 'Hire

Monitoring' tab in order to enable the upload of invoice details against a claim. These entries could be sporadic during the hire duration as certain information/details will arise at differing points in time, the 'Hire Monitoring' tab in effect acts as an online log. In order to update the tab perform the following:

- View the claim details of the claim in question and navigate to the 'Hire Monitoring' tab, a screen shot of this tab is shown below in **Figure 4**:

Figure 34

- The Credit Hire Organisation has the ability to update the Insurer of a hire monitoring update by ticking on either one of the 'Update Insurer' checkboxes. An automated notification will be sent to the relevant claims handler/claims handling team.
- There are a number of mandatory fields that need to be entered in the 'Hire Monitoring' tab (required before invoice details can be uploaded against the claim in question). If an 'Original ECD' was provided at the '1st claim notification' upload stage, then that is one of the mandatory checks complete. However if an 'Original ECD' was not supplied, then you must add an ECD with the reason for delay and any supporting information using the fields as shown by the red box in **Figure 3** above. If there has been no delay during the duration of the hire, then the ECD should reflect the 'Repair Completion Date', selecting 'First ECD' from the drop down menu for 'Reason for Delay'.
- Labour information must be added to a claim before an invoice can be uploaded. The Credit Hire Organisation must supply labour hours and/or labour cost for the repair. If neither can be provided, the Credit Hire Organisation must select a reason from the 'Labour Information Non-Provision Reason' drop down box.
- Hire Vehicle Details can be added if known in the 'Hire Vehicle Details' section. This is not mandatory, but should be included if known.
- If any of the above mandatory information is not added, the claim will not progress and the following error message will be displayed in the 'Hire Monitoring – Action Required' action panel.

Figure 35

The following fields are optional with a brief description of the entry expected. You must save changes each time they are made before navigating away from the current page, using the 'Save Changes' button.

- **Next Review Date** – The date the claim should be reviewed again for hire monitoring purposes. The Credit Hire Organisation can view which claims require review by using the 'Search' tab and selecting the relevant review dates.
- **Name of Repairer** – The name of the garage which is carrying out the repairs on the customer's vehicle.
- **Repair Book In Date** – The date the customer's vehicle entered the garage for repair.
- **Inspection Booked Date** – The date the Engineer's inspection was booked.
- **Inspection Date** – The date the Engineer's inspection took place.
- **Is Total Loss?** – Check to see if the customer's vehicle is a total loss or not following the output from the Engineer's inspection.
- **Repair Completion Date** – The date all repairs were completed on the non-fault customer's vehicle.
- **Name of IME** – The name of the Independent Motor Engineer who conducted the inspection.
- **Labour Rate(Per Hour)** – The labour rate is a value entered for how much is being charged for every hour spent on the repair to a vehicle.
- **Repair Only (no hire)?** - The nature of the claim.
- **Non-Fault Insurer Managing Repair?** - The non-fault Insurer will be managing the repair on behalf of the CHO's customer.

Once the details have been entered and saved on the 'Hire Monitoring' tab, click on the 'Proceed' button that is located on the 'Hire Monitoring - Action Required' window pane, this in effect is telling the system that the hire vehicle has been off-hired. It is then possible to upload an invoice for this claim.

5.5 Awaiting Invoice Data

The 'Awaiting Invoice Data' queue shows all claims where the replacement hire vehicle has been off-hired and the Credit Hire Organisation is therefore ready to upload an invoice against the claim(s). All claims in this queue will have the status 'AwaitingInvoiceData'.

In order to progress a claim at this status, an invoice for the claim in question needs to be uploaded into CHOX. Please refer to section 4.0 for more information on how to upload claims/invoices into CHOX.

5.6 Incorrect Invoice Data Calculations

The 'Incorrect Invoice Data Calculation' work queue contains a list of all invoices that have been rejected due to a fundamental error in the data calculations. An example error is an incorrect VAT calculation on one of the monetary fields. In order to rectify such an error, follow these steps:

- Select each claim in turn from the queue and view the claim details.

- Navigate to the 'History' tab and review the Business Rules Engine's error message(s) in order to investigate the reason behind why the invoice is being rejected. A list of the possible messages and a brief description on each is detailed below:
 - Message: "The Admin Fee billed is incorrect."
Description: The admin fee billed exceeds the allowable limit of either £40 when the Credit Hire Organisation is not managing the repair and £60 when the Credit Hire Organisation is managing the repair. Adjust the admin fee amount to reflect the service provided.
 - Message: "The number of Hire Days billed does not reconcile with the Hire Start and Hire End dates provided."
Description: The number of hire days billed does not match the dates provided in regards to the hire start date and the hire end date and thus the total duration between these two dates. Adjust either the hire start and hire end dates or the number of hire days billed to ensure reconciliation. If the number of hire days is adjusted then ensure that the cost information on the invoice reflects the correct number of hire days.
 - Message: "Hire VAT calculation is incorrect."
Description: The Hire VAT should reflect the VAT charge (check on current VAT rate on invoice upload) on the Hire Net amount.
 - Message: "Hire Gross calculation is incorrect."
Description: The Hire Gross amount is calculated by adding the Hire VAT field to the Hire Net field.
 - Message: "Repair VAT calculation is incorrect."
Description: The Repair VAT should reflect the VAT charge (check on current VAT rate on invoice upload) on the Repair Net amount.
 - Message: "Repair Gross calculation is incorrect."
Description: The Repair Gross amount is calculated by adding the Repair VAT field to the Repair Net field.
 - Message: "Total Net calculation is incorrect."
Description: The Total Net amount is calculated by adding the Storage Recovery Net, Engineer Fee Net, Repair Net and Hire Net fields together.
 - Message: "Total VAT calculation is incorrect."
Description: The Total VAT should reflect the VAT charge (check on current VAT rate on invoice upload) on the Total Net amount.
 - Message: "Total Gross calculation is incorrect."
Description: The Total Gross amount is calculated by adding the Total VAT field to the Total Net field.
 - Message: "Total to Pay calculation is incorrect."
Description: The Total to Pay amount is calculated by using the Total Gross amount and adding the fields Discount (minus figure) and Penalty Charge.
 - Message: "The sum of Claims Handling Invoice Amount and Less Claims Handling Fee does not equate to 0."
Description: The Claims Handling Invoice Amount and the Deduction For Claims Handling Fee amounts when added together should balance and therefore equal 0(zero).
 - Message: "Entries against Claims Handling Invoice Amount and Less Claims Handling Fee are not 0."
Description: This message will appear when a Credit Hire Organisation who is not participating in the Delegated Authority scheme includes entries on the invoice for the fields of Claims Handling Invoice Amount and Less Claims Handling Fee.
 - Message: "Discount calculation is incorrect."
Description: The Discount amount is calculated by applying the current VAT rate (on invoice upload) to the Claims Handling Invoice Amount field.
- Navigate to the 'Invoice Details' tab and amend the invoice details (see 5.7.1 Invoice Re-Calculate) in order to reflect the necessary changes based on the incorrect data calculations as communicated on the 'History' tab, save changes.
- Navigate to the 'Notes' tab and add any additional notes as required.

- Click on the 'Re-submit Claim/Invoice' button which is located on the 'Claim Data - Action Required' window pane in order to re-submit the invoice.

5.7 Contested Invoices Referred To CHO

The 'Contested Invoices Referred To CHO' work queue contains a list of all claims that have been reviewed by the Insurer and a decision has been made to escalate the claim back to the Credit Hire Organisation. Follow the below actions in order to advance the status of the claim:

- Select each claim in turn from the queue and view the claim details.
- Navigate to the 'Notes' tab and review the Insurer's notes/comments for rejecting the claim.
- A decision needs to be made at this stage on whether to close the invoice, resubmit to the insurer or mark the claim for litigation.
- Acceptance of the decision made by the Insurer will require the following steps, please note that this will end the life of the claim in CHO:
 - Add any relevant notes in the 'Supporting Notes (Public) window.
 - On the 'Contested Invoice - Action Required' window pane, click on the 'Close Invoice' button.
- To contest the decision made by the Insurer will require the following actions:
 - The attachment of a payment pack at this stage will significantly enhance the chances of getting the claim approved. The hard copy payment pack will need to be scanned into a PDF format in order for the soft copy to be uploaded into CHO. To attach a payment pack to a claim please follow these steps:

➤ Navigate to the 'Attachments' tab as shown in Figure 36 below:

File Name	Category	Description	Created Date	
testdocument.pdf	Payment Pack	Repair Documentation	27/04/2011 11:34:05	Delete

Figure 36

- Click on the 'Browse...' button.
- Navigate to the location of where the payment pack is stored and click 'Open'.
- Select the 'Payment Pack' from the drop down menu for the 'Category' field.
- If you wish to notify the Insurer of the attachment upload tick the box.
- Enter a description in the 'Description' field, offering a brief description of the file being uploaded
- Click on the 'Add File' button to attach the PDF file.
- N.B. The following file types are supported in CHO; .doc, .docx, .jpeg, .jpg, .pdf, .rtf, .tif, .tiff, .txt, .xls, .xlsx, .xml

- If applicable and based on the notes provided by the Insurer, review the claim details, including invoicing details (see 5.7.1 Invoice Re-Calculate) and make any necessary amendments and save changes.
- Add any relevant supporting notes in the 'Supporting Notes (Public)' window.
- On the 'Contested Invoice - Action Required' window pane, click on the 'Resubmit Invoice' button in order to resubmit the claim into the Business Rules Engine.
- Alternatively, if the claim is to be litigated add any relevant supporting notes in the 'Supporting Notes (Public)' window and click on the 'Move Claim To Litigation Status' in order to move the claim into the 'Awaiting Litigation Outcome' queue.

5.7.1 Invoice Re-Calculate

There are two Claim Statuses that will allow the CHO to edit invoice data and perform the re-calculation of the data.

InvoiceDataCalculationIncorrect - when the invoice has failed some standard rules in CHOX such as VAT figures being calculate incorrectly. Invoices at this status will be in the 'Incorrect Invoice Data Calculations' queue on the 'Inbox' screen in CHOX. See **Figure 7**.

ContestedInvoiceReferredToCHO - when the invoice has been with the insurer for review and they have subsequently rejecting it back to the CHO with reasons for rejection. Invoices at this status will be in the 'Contested Invoices Referred To CHO' queue on the 'Inbox' screen in CHOX. See **Figure 7**.

The screenshot shows the CHOX system interface. At the top, there is a navigation bar with links: Home | Settings | Help | Support | About CHOX | ABC Operative ABC Operative, ABC CHO (Log Off). Below this is the 'Inbox' section with filters for 'Insurer Filter' and 'Claim Type Filter'. A list of claim queues is shown on the left, including 'Rejected Claims (3)', 'Liability Status Update Notifications (252)', 'Awaiting Litigation Outcome (0)', 'Claims Awaiting Hire Monitoring Information (41)', 'Awaiting Invoice Data (0)', 'Incorrect Invoice Data Calculations (1)', 'Contested Invoices Referred To CHO (14)', 'Penalty Charges To Be Applied (158)', 'Approved Invoices Awaiting Liability Resolution (24)', 'Interim Payments To Be Received (1)', 'Invoices With Final Review (0)', and 'Payments To Be Received (5)'. The 'Incorrect Invoice Data Calculations (1)' and 'Contested Invoices Referred To CHO (14)' are highlighted with red boxes. The 'Task Management' section on the right shows a table of tasks with columns: Supplier, Due Date, Task Type, Description, Created, and Created By. The table lists four tasks, all with a due date of 21/06/2011 or 08/09/2011. The bottom section shows 'Claims (0)' with a table of columns: Supplier Ref, Claim, Claim No, Insurer, Invoice, Status, Total, Workgroup, Ins O, Sta, Re, CHO, Insurer, and a 'No claims to display' message.

Figure 37

5.7.2 Viewing the Invoice Details

As mentioned above claims that will allow adjustment of Invoice Details will be in either the 'Incorrect Invoice Data Calculations' or 'Contested Invoices Referred To CHO' queue.

Click on either of the queues above to bring up a list of available claims in the 'Claims Overview Grid'. Select a claim by clicking on its 'Supplier Ref'. Once in the claim navigate to the 'Invoice Details' (1) tab of the claim and click on '+Expand All' (2) to bring up the invoice information. See Figure 8 below.

Figure 38

This will show all the details of the invoice as editable fields as shown in Figure 39 below.

Invoice Detail		Extras	
Supplier Claims Handling #		Miscellaneous Costs *	0.00
Supplier Claim Invoice #	976342	Automatic Fee *	0.00

Figure 39

5.7.3 Manual Input of Data

You can edit the details of an invoice manually by doing your own calculations and entering the information in the relevant fields within CHOX. Once you have completed your changes scroll down to the bottom of the 'Invoice Details' tab and click the button 'Save Changes'.

Figure 40

This will save the changes and bring up the *original* invoice figures in brackets adjacent to the newly entered figures.

Hire Net *	1193.91	(1262.99)
Hire VAT *	208.93	(221.02)
Hire Gross *	1402.84	(1484.02)

Figure 41

5.7.4 Re-Calculate

Alternatively a user can perform automated calculations within CHOX on the invoice data. Enter a new amount into one or many of the fields highlighted in '5.7.6 Editable fields for re-calculation', scroll down to the bottom of the 'Invoice Details' tab and click 'Re-Calculate'. CHOX will automatically work out the new Hire Net, Hire VAT, Hire Gross, Repair VAT, Repair Gross, Engineer Fee VAT, Engineer Fee Gross, Total Loss Fee VAT, Total Loss Fee Gross, Storage Recovery VAT, Storage Recovery Gross, Total Vat, Total Gross, Full Total Requested and Total To Pay amounts.

Figure 42

A pop-up window will inform you of the VAT rates used during the re-calculation.

Figure 43

These are the rates used the last time the invoice was saved or on original upload if this is the first time changes have been made (If you need to adjust VAT amounts please manually enter data into the Invoice Details fields and use the 'Save Changes' button as per section 5.7.3 Manual Input of Data).

You will also see the *original* invoice figures in brackets adjacent to the newly entered figures.

Hire Rate Charged Per Day ? *	55	(39.48)
Hire Net *	510.00	(385.84)
Hire VAT *	89.25	(67.52)
Hire Gross *	599.25	(453.36)
Repair Net *	0.00	
Repair VAT *	0.00	

Figure 44

Once you have finished making changes click the 'Save Changes' button to save.

Re-Calculate	Save Changes	Reset
--------------	--------------	-------

Figure 45

5.7.5 Reset

If you are not happy with any adjustments you have made either manually or using the 'Re-Calculate' button simply click 'Reset' at the bottom of the 'Invoice Details' tab to reset the data. If this was the first time any changes were made to the invoice the original figures will be shown. If one or more previous adjustments were made the data will revert to that at the previous save point.

Re-Calculate	Save Changes	Reset
--------------	--------------	-------

Figure 46

5.7.6 Editable fields for re-calculation

The following fields are available to change for automated re-calculation of the invoice.

Invoice Detail: Hire Rate Charged Per Day, Repair Net, Engineer Fee Net, Total Loss Fee Net, Storage Recovery Net, Claims Handling Invoice Amount, Deduction For Claims Handling Fee, Discount.

Hire Vehicle Details: Replacement Vehicle Class (select from drop down), No. Days Hire (if you change this data please make sure the 'Hire Start (Date)' and 'Hire End (Date)' fields are adjusted to match the days hired).

Extras: CDW Fee, Automatic Fee, Additional Drive Fee, Sat Nav Fee, Estate Fee, Baby Seat Fee, Tow Bars Fee, Non-standard Risk Ins. Premium Fee, Admin Fee, Roof Rack Fee, Dual Control Fee, Delivery Collection Fee.

E.g. If the 'No. Days Hired' is changed and the 'Re-Calculate' button clicked, CHOX will multiply the 'No. Days Hired' by the 'Hire Rate Charged Per Day' and add in any 'Extras' to create a new 'Hire Net' value. A new 'Hire VAT' and 'Hire Gross' will be calculated and then added in with the other fees to create new 'Total Net', 'Total VAT', 'Total Gross', 'Full Total Requested' and 'Total To Pay' amounts.

5.7.7 Re-submitting of adjusted Invoices

Once you are happy with any changes that have been made either manually or by using the Re-Calculate functionality it is time to re-submit the invoice to the Insurer. If the claim is at the status 'InvoiceDataCalculationIncorrect' scroll up and click on the 'Re-Submit Claim/Invoice' button in the 'Claim Data – Action Required' panel.

Figure 47

If the claim is at the status ContestedInvoiceReferredToCHO scroll up and click on the 'Resubmit Invoice' button in the 'Contested Invoice – Action Required' panel (you will need to add some 'Supporting Notes' though!).

Figure 48

5.8 Penalty Charges To Be Applied

The 'Penalty Charges To Be Applied' queue contains all invoices where payment has not been received within the agreed timeframe. The day counter that is used is based on the number of days since the invoice was uploaded into CHOX. Note that in the majority of cases CHOX will be setup to automatically add penalty charges at 30 and 60 days, only pushing the invoice into the Penalty Charges To Be Applied queue on day 90 where commercial penalty charges may apply.

The Credit Hire Organisation has the ability to go into each of these claims and add additional costs to the invoice in line with their penalty charge policy (see **Error! Reference source not found.**⁹ below) by entering the penalty charge amount and clicking the 'Apply' button. If the claim has not been removed from the 'Penalty Charges To Be Applied' queue, the Credit Hire Organisation can change the penalty amount by going back into the claim and putting in a new value and clicking the 'Apply' button.

A new total amount to pay is automatically calculated, taking into account the amount entered for the penalty charge.

The Credit Hire Organisation can remove the claim from the 'Penalty Charges to be Applied' queue by checking the 'Remove From Queue' tick box and clicking on the 'Apply' button. If and when a penalty charge has been added, it is advisable to remove a claim from the 'Penalty Charges To Be Applied' queue so that only claims with penalty charges not yet applied remain in the queue for action.

Apply Penalty Charge

 Payment for this invoice is overdue. The number of days since the invoice was created is 724. A penalty charge may be applicable to this invoice.

Total Gross	£2,168.40		
Interim Payment	N/A		
Hire Gross	£ 1391.40	Repair Gross	£ 780.00
Hire Penalty Percentage	--- Please Select ---	Repair Penalty Percentage	--- Please Select ---
Hire Penalty Amount	£ 0.00	Repair Penalty Amount	£ 0.00
Full Total Requested (After Penalty Charge)	£2168.40		

☐ Remove From Queue

Figure 49

5.9 Approved Invoices Awaiting Liability Resolution

This queue allows you to see which invoices the Insurer is happy to pay once liability has been agreed. At this point you cannot make an action against these claims (except to add on a penalty charge if the invoice passes a penalty milestone) but you can use this as a reminder to add more information to help the Insurer to make a decision on liability stance.

5.10 Interim Payments To Be Received

CHOX allows the Insurer to raise an interim (or part) payment against an invoice. This allows for the invoice to be settled in part, with the remainder of the value being settled at a later date.

The Interim payment is made against the total invoice value. It is the responsibility of the Credit Hire Organisation to let the Insurer know when this payment has been received.

Once the interim payment has been received you must go into the claim in question and navigate to the 'Update Interim Payment' action panel on the claim, as shown in **Figure** below:

Update Interim Payment

 A total interim amount of £500.00 has been paid. Enter the total amount received and click the 'Interim Payment Received' button. Alternatively, clicking the 'Interim Payment Accepted Full & Final' button will accept the total interim amount paid as a final payment and move the claim to the 'PaymentReceived' status.

Interim Payment Received £ 500.00

Figure 50

The amount of the interim is shown next to the button, and can't be edited. This amount can also be seen under the Invoice tab under the 'Invoice Detail' section:

Full Total Requested	£2490.96
Total To Pay	£2490.96
Interim Payment	£500.00 (Not Yet Received)
Note that the interim payment has NOT been deducted from the 'Total To Pay'	
Excess Amount Collected From Policyholder	£0.00
VAT Amount Collected From Policyholder	£0.00
Date Invoiced	21 Jun 2011
Invoice Uploaded Date	21 Jun 2011 (802 days)

Figure 51

Once the 'Interim Payment Received' button has been pressed, the interim payment will be displayed with '(Payment Received)' on the invoice detail as shown in Figure 52 below:

Full Total Requested	£2490.96
Total To Pay	£2490.96
Interim Payment	£500.00 (Received)
Note that the interim payment has NOT been deducted from the 'Total To Pay'	
Excess Amount Collected From Policyholder	£0.00
VAT Amount Collected From Policyholder	£0.00
Date Invoiced	21 Jun 2011
Invoice Uploaded Date	21 Jun 2011 (802 days)

Figure 52

Please Note: The interim payment is not deducted from the 'Total To Pay' and therefore when the remaining amount is paid, it will be different to amount requested by the amount of the interim payment.

In addition you have the ability to accept the Interim Payment as the Full & Final payment against this claim. By clicking the 'Interim Payment Accepted Full & Final' you are notifying the Insurer that you view this claim as complete with the Interim Payment accepted as the full amount you will receive on the claim.

This claim has been escalated to a Supervisor because the invoice was uploaded 802 days ago.

Update Interim Payment

A total interim amount of £1000.00 has been paid (£500.00 so far received). Enter the new total amount received and click the 'Interim Payment Received' button. Alternatively, clicking the 'Interim Payment Accepted Full & Final' button will accept the total interim amount paid as a final payment and move the claim to the 'PaymentReceived' status.

Interim Payment Received £ 500.00 [Interim Payment Received](#) [Interim Payment Accepted Full & Final](#)

Figure 53

5.11 Invoices With Final Review

This 'Invoices With Final Review' queue is made up of invoices from the 'Awaiting Liability Resolution' queue where a final review has been taken on the invoice by way of the 'More Actions' dropdown. Invoices can be closed using the 'Close Claim' option if a final negative agreement has been reached. Alternatively, if a positive agreement has been reached the Insurer can update the Liability Stance which will allow them to release payment. In this scenario no update will be required from the CHO.

5.12 Payments to be Received

The 'Payments to be Received' queue shows claims that have the status of 'InvoicePaymentLogged'. This is a status set by the Insurer and indicates that they have posted/made payment for an invoice. Once the Credit Hire Organisation has received the payment, it is their responsibility to go into each claim and click on the 'Payment Received' button (Figure 54) to log that payment has been received.

If payment has been received but not the total amount - Please click on the 'Payment Received But Not Full Amount' button, and enter the amount received, this will return the claim to the Insurer for review.

If payment still has not been received then the CHO will have to click on "Payment Not Received" button. This is will return the claim to 'AwaitingInvoicePayment' status.

Update Payment Logged

Please click on the 'Full Payment Received' button when full payment for the invoice has been received from the Insurer.
 Please click on the 'Payment Received But Not Full Amount' button if the Insurer has made a payment but there is a balance outstanding on the invoice, this will return the claim to the Insurer for review and the amount received recorded on the invoice.
 If the payment has not been received then clicking on the 'Payment Not Received' button will return the claim to the Insurer for review.

Please specify how you wish to proceed

Figure 54

CHOX has a bulk update facility in order to update multiple claims simultaneously to the status 'Payment Received', hereby removing the need to open each claim individually and click on the 'Payment Received' button. Follow the steps below in order to bulk update claims when payment has been received from the Insurer:

- Select the claims where payment has been received and therefore need updating by checking the tick box next to each claim (Figure 55) or alternatively select all claims by checking the tick box located next to the 'Supplier Ref' column.

Figure 56

5.13 Closing a Claim

Once the claim has been marked as 'PaymentReceived', the CHO has ended the life of the claim. The claim is then effectively closed and the claims handler is not required to do anything else.

Throughout the life of the claim, however, the user may wish to close the claim prematurely, before it reaches 'PaymentReceived'. This could be for a number of reasons; including the claim being sent to an incorrect Insurer or that the customer has admitted liability for the accident.

To close a claim at any stage, the user must click on the claim in question from the 'Claims Overview Grid' to open up the claim view.

From the 'Claim Summary' pane you can then select the 'Close Claim' button from the bottom right hand corner (highlighted in red in **Figure 7** below)

CHOX Home | Settings | Help | Support | About CHOX | **ABC Operative ABC Operative, ABC CHO** (Log Off)

Claim Summary

Third Party Insurer ABC Insurer	Credit Hire Organisation ABC CHO	Created By Admin CHO (ABC CHO)
Supplier Reference 7373737	Insurer Claim Number Claim1234	Created On 21 Jun 2011 11:38
Customer Mr Dirk Flandrey	Current Status AwaitingInvoicePayment	Customer Contact Date 01 May 2011 17:00
Insurer Claim Owner Handler One	Workgroup Workgroup 2	Claim Owner

Close Claim

« Back to Search Results | -- More Actions -- | Export Claim To Excel

Figure 57

The user is then given a warning message and asked to confirm the reason for closing the claim from a dropdown list. Select the relevant reason followed by 'Close Claim'.

5.14 Re-Opening a Claim

Once a claim has been closed, it will cease to appear in any of the queues in your Inbox, however the claim is still searchable via the 'Search' tab. This claim could have been closed in error, or more information has become available to aid in getting the claim processed.

To re-open a claim the user must open up the claim in question by finding it in via the 'Search' tab (ensure the 'Show Open Claims Only' box is un-ticked) and then navigating to the 'Claim Summary' pane.

The claim can then be re-opened by clicking on the 'Re-Open Claim' button located in the bottom right corner as shown in Figure 8 below.

The screenshot shows the CHOX web interface. At the top, there is a navigation bar with links: Home | Settings | Help | Support | About CHOX | ABC Operative ABC Operative, ABC CHO (Log Off). Below this is the 'Claim Summary' pane. It contains a table of claim details:

Third Party Insurer: ABC Insurer	Credit Hire Organisation: ABC CHO	Created By: Admin CHO (ABC CHO)
Supplier Reference: 7373737	Insurer Claim Number: Claim1234	Created On: 21 Jun 2011 11:38
Customer: Mr Dirk Flandrey	Current Status: ClaimClosed	Customer Contact Date: 01 May 2011 17:00
Insurer Claim Owner: Handler One	Workgroup: Workgroup 2	Claim Owner:
Liability Status: Full Liability Accepted	Percentage Liability Agreed (Insurer): 100.00%	Percentage Liability Agreed (CHO): 0.00%
Liability Agreed Date: 21/06/2011	Indemnity Value: £0.00	Claim Type: GTA

At the bottom right of the claim details, there are two buttons: 'Switch Claim' and 'Re-Open Claim'. The 'Re-Open Claim' button is highlighted with a red rectangle. At the bottom left of the pane, there is a link: « Back to Search Results. At the bottom right, there is a link: Export Claim To Excel.

Figure 58

The user is then given a warning message and asked to confirm that they wish to re-open the closed claim. You can select 'OK' to re-open the claim and 'Cancel' to return to the claim and leave it closed.

5.15 Reverting Claim Status

The ability to revert a claim status is available for claims within the 'Awaiting Invoice Data' and 'Awaiting Liability Outcome' queues. This functionality allows the user to change the status of the claim.

For claims the 'Awaiting Invoice Data' queue, claims will be reverted from 'AwaitingInvoiceData' back to 'AwaitingCarHireInfo'.

For claims in the 'Awaiting Liability Outcome' queue, claims will be reverted from 'Awaiting Liability Outcome' to 'ContestedInvoiceReferredToCHO' status allowing any necessary invoice amendments and the re-submission of the invoice to the Insurer. If no outcome is to be reached and the claim will no longer be pursued against the Insurer then click on the 'Close Claim' button above.

To revert a claim status, click on a queue and select the claim in question. The user then has the ability to change the status of the claim by clicking on the 'Revert Status' button located next to the 'Close Claim' button in the bottom right hand corner on the 'Claim Summary' pane as highlighted in Figure 9 below.

Claim Summary		
Third Party Insurer: ABC Insurer	Credit Hire Organisation: ABC CHO	Created By: Admin CHO (ABC CHO)

Figure 59

The user will then get a warning message and will be asked to confirm the change of status. They can then select OK to change the status to 'AwaitingCarHireInfo', or Cancel to leave the claim at 'AwaitingInvoiceData'.

5.16 Assign Claim Ownership

Claims can be assigned to a claim owner at any stage of the claim's life in the system, as long as claim ownership is enabled for the Credit Hire Organisation in question. There are two different ways to assign ownership of the claim; in a batch of multiple claims, or individually.

5.16.1 Batch Update

To batch update a number of claims with a claim owner, firstly have the list of claims in the 'Claims Overview Grid' either by selecting the appropriate queue, or by performing a search using the 'Search' screen. Select the claims where you wish to assign or update claim ownership by checking the tick box next to each claim (Figure) or alternatively select all claims by checking the tick located next to the 'Supplier Ref' column.

Claims													
Batch Update ▾

Select the claim owner you wish to assign the claims to using the 'Claim Owner' drop down menu as displayed in the 'Assign Claim(s) Owner' pop-up window shown below in Figure 2.

Figure 62

Once selected, click the 'Ok' button to complete the ownership process, or click on the 'Close' button to cancel the changes and return to the 'Claims Overview Grid'.

5.16.2 Individual Claim Ownership Update

CHOX also allows for claim ownership to be assigned on a claim by claim basis. To assign a new claim owner to an individual claim, open the claim in question, you will see a drop down menu within the 'Claim Summary' pane called 'More Actions' as shown in Figure 63 below.

Figure 63

Using the 'More Actions' drop down menu, select 'Update Claim Owner' as shown in Figure 63 above. This will open a new, previously hidden action panel where the claim owner can be selected as shown in Figure 63 below.

Claim Summary		
Third Party Insurer ABC Insurer	Credit Hire Organisation ABC CHO	Created By ABC Operative (ABC CHO)
Supplier Reference CHOX1009	Insurer Claim Number ABCCN1009	Created On 26 Apr 2011 15:20
Customer MR Simon Sandford	Current Status AwaitingInvoiceData	Customer Contact Date 10 Jan 2011 00:00

Update Claim Owner - Action Required

 Update the Claim Owner by using the drop down menus provided below.

Claim Owner : ▼

[Assign Owner](#)

Figure 64

From here, select the claim owner from the 'Claim Owner' drop down menu and click on the 'Assign Owner' button to complete the assignment. Please note that this action panel will become hidden after the 'Assign Owner' button has been clicked. If an incorrect owner has been selected, then simply repeat the process to choose another claim owner.

5.17 Exporting a claim to Excel

CHOX provides the ability to export all of the claim details for a particular claim into an Excel report, which can then be used for audit and other purposes.

To export a single claim into Excel the user must open the claim they wish to export details for and navigate to the 'Claim Summary' pane. From the 'Claim Summary' pane, the user must click on the 'Export Claim To Excel' hyperlink as highlighted in Figure 65 below.

Claim Summary

Figure 65

To open the Microsoft Excel report click on the 'Open' button and to save the Microsoft Excel report click on the 'Save' button and choose a location of where to save the report and click on the 'Save' button.

6. Task Management

As discussed, CHOX allows for specific tasks to be added to a claim which can be assigned both internally (for the Credit Hire Organisation) and externally (for the Insurer). Tasks can also be raised without being attached to a claim, acting as a diary function within the system. This opens up invaluable dialogue in ensuring claims are processed as quickly as possible and all actions/tasks are actioned swiftly and efficiently.

The screenshot displays the CHOX Task Management interface. The top navigation bar includes links for Home, Settings, Help, Support, About CHOX, and user information (ABC Operative, ABC CHO). The main content area is divided into two sections. The left section, titled 'Inbox', contains a list of tasks with filters for 'Insurer Filter' and 'Claim Type Filter'. The right section, titled 'Task Management', contains a table of tasks. The table has columns for 'Supplier', 'Due Date', 'Task Type', 'Description', 'Created', and 'Created By'. The tasks listed are for 'Repair Docum...' with due dates of 21/08/2011 and 06/09/2011. The interface also includes a 'Claims (0)' section at the bottom.

Supplier	Due Date	Task Type	Description	Created	Created By

ABCCHO...	06/09/2011	Repair Docum...	It is advisable to upload the repair...	06/09/2011	system CHOX

Figure 66

6.1 The Task Management Grid

Below is an explanation of each area of the Task Management Grid:

6.1.1 Supplier Ref

This shows the Credit Hire Organisations reference number, which was submitted when the claim was uploaded into the system. If the task is not linked to a specific claim, then this will be blank.

6.1.2 Due Date

This is the date that the task should be completed by. The system automatically flags when the due date is approaching using a colour coding for quick reference.

- Black text means that the task is in the future and more than one day away.
- Orange text means that the task is due today.
- Red text means that the due date for this task has passed.

6.1.3 Task Type

This is a list of different types of tasks that could be raised within the system. This includes, but is not limited to; requesting payment pack, witness statements, client allegations or appointing an engineer, for example. There is an 'Other' option, should the type of task not be available from the pre-defined list.

6.1.4 Description

This is a free text section which is added on task creation. This allows you to add some extra information about the task to compliment the task type.

6.1.5 Created Date

This is the date that the task was raised within the system.

6.1.6 Created By

This is the user who raised the task. It gives both their full name and what organisation they work for, so it is easy to tell whether it was raised to you internally, or whether it was by the Insurer and therefore external.

6.2 Adding New Tasks

The screenshot displays the CHOX system interface. At the top, the CHOX logo is on the left, and navigation links (Home, Settings, Help, Support, About CHOX, ABC Operative, ABC Operative, ABC CHO) and a user profile (Log Off) are on the right. Below the navigation bar, there are tabs for 'Inbox', 'Search', and 'Claim/Invoice Upload'. The 'Inbox' tab is active, showing a list of filters on the left: 'Insurer Filter: --- ALL ---', 'Claim Type Filter: --- ALL ---', and a list of claim categories with counts (e.g., 'Rejected Claims (3)', 'Liability Status Update Notifications (252)'). The main area is titled 'Task Management' and contains a table of tasks. The 'Add New Task' button is highlighted with a red box. The task table has columns: 'Supplier', 'Due Date', 'Task Type', 'Description', 'Created', and 'Created By'. Below the task table, there is a 'Claims (0)' section with a 'Batch Update' dropdown and an 'Export To Excel' button. The bottom of the interface shows a footer with copyright information: '©2013 Sherwood Technology Solutions Ltd | Copyright | Privacy Policy | Terms of Service'.

Figure 67

Tasks can be added to the system by clicking on the 'Add New Tasks' button from the Task Management area of CHOX. This will bring up the following 'Add New Task' Box:

Figure 68

At this stage, information needs to be added in order to create a task. Below is each of the fields explained and their interdependencies:

6.2.1 Due Date

This is the date that you wish the task to be completed by. This cannot be a date in the past. It is essential that the due date for any task is reasonable and allows the person responsible to have time to complete.

6.2.2 Visibility

The visibility of a task is very important. Tasks can either be Private, Internal or External. Below is an explanation of each:

- Private Task – When a task is set to Private, it will only be seen by you and will not appear in other user's task management grid. It is not mandatory to link a task to a claim and therefore supply a 'Supplier Reference' when the task is Private.
- Internal Task – An internal task means that the task will only be seen by users from within your organisation. If the task is linked to a claim and the claim has an owner, then the owner of that claim will be the only user that sees the task on their task management grid on the 'Inbox' screen. If the claim does not have an owner then all 'CHO Operative' roles will see the task on their task management grid.
- External Task – An external task should be selected to raise a task for the Insurer to complete. It must be linked to a claim and the system will automatically assign it to the correct user within the Insurer.

6.2.3 Task Type

This is a predefined list of tasks that could be assigned to the claim. If the type of task you require isn't in the list, then you can use the option for 'Other'.

6.2.4 Description

This is a free text area, which allows you to add further information to help aid the user who will need to complete the task.

6.2.5 Link To Claim?

This is a check box, which allows you to specify whether this is a task which should be linked to a particular claim. Linking to a claim is mandatory if it is an external task.

6.2.6 Supplier Reference

This option is only available if the task is to be linked to a claim (see 6.2.5 above). You must give a valid supplier reference number, so that the task can be assigned to that claim.

7. Report Extracts

There are a number of opportunities for information to be exported out of CHOX and into a Microsoft Excel spreadsheet.

7.1 Inbox Report Extracts

It is possible to export details of all the claims that appear in the 'Claims Overview Grid' for your inbox. To run this export, you must:

- Navigate to the work queue that you wish to run a Microsoft Excel report extract for.
- Click on the 'Export To Excel' button located at the bottom right hand corner of the 'Claims Overview Grid' as shown by the red box in Figure 9 below.

The screenshot shows the CHOX system interface. At the top, there is a navigation bar with links: Home | Settings | Help | Support | About CHOX | ABC Operative ABC Operative, ABC CHO (Log Off). Below this is a header with 'Inbox', 'Search', and 'Claim/Invoice Upload'. The main content area is divided into two sections. The left section, titled 'Rejected Claims (3)', lists various claim types with counts: Liability Status Update Notifications (252), Awaiting Litigation Outcome (0), Claims Awaiting Hire Monitoring Information (40), Awaiting Invoice Data (2), Incorrect Invoice Data Calculations (1), Contested Invoices Referred To CHO (14), Penalty Charges To Be Applied (157), Approved Invoices Awaiting Liability Resolution (24), Interim Payments To Be Received (0), Invoices With Final Review (0), and Payments To Be Received (5). The right section, titled 'Task Management', contains a table with columns: Supplier, Due Date, Task Type, Description, Created, and Created By. The table lists several tasks, including 'Repair Docum...' and 'Please supply the repair documen...'. At the bottom of the 'Task Management' section, there is a 'Queue: Awaiting Invoice Data (2)' section. This section has a 'Batch Update' dropdown and an 'Export To Excel' button, which is highlighted with a red box. Below this is a table with columns: Supplier Ref, Claim Type, Claim..., Insur..., Invol..., Status, T..., Workgroup, L..., Status Modified Date, R..., CHO, Insurer, and ... The table lists two claims: '7373737' and 'ABCCHO1...'. At the bottom of the page, there is a footer with the text: ©2013 Sherwood Technology Solutions Ltd | Copyright | Privacy Policy | Terms of Service.

Figure 69

- A pop-up screen will appear asking you whether you would like to save or open the file.
- To open the Microsoft Excel report click on the 'Open' button.
- To save the Microsoft Excel report follow these steps:
 - Click on the 'Save' button.

- Choose a location of where to save the report and click on the 'Save' button.

7.2 Search Screen Extracts

If you need to export a more meaningful list of claims from the system, then the use of the 'Search' function is required:

- As discussed in section 3.2.4 perform the search criteria you desire.
- A list of claims that meet the search criteria will be displayed in the 'Claims Overview Grid'.
- The list of claims can then be exported by clicking on the 'Export To Excel' button located in the bottom right-hand corner of the 'Claims Overview Grid'.
- Perform the necessary steps to open or save the Microsoft Excel spreadsheet as detailed in section 6.1 above.

8. Help and Support

- Your home page includes a link to this user guide in the top right-hand corner of the screen labelled 'Help' as shown in Figure 70 below.

Figure 70

- Your home page includes a link to the CHOX Support Procedure, including hours of operation, contact details and the support protocol and the CHOX Online Support Form. Hovering the mouse cursor over the 'Support' link as shown in Figure below will enable both of these options.

Figure 71

- Clicking on the 'Online Support Form' option will launch the Online Support Form in a separate window as shown in Figure below.

•

The screenshot shows the 'Online Support Form' window. It has a title bar with 'CHOX' and a navigation bar with 'Home | Settings | Help | Support | About CHOX | ABC Operative, ABC CHO (Log Off)'. The form contains five input fields: 'Supplier Reference', 'Phone *', 'Email *', 'Subject *', and 'Message *'. The 'Message *' field is a large text area. At the bottom, there are 'Submit' and 'close' buttons.

Figure 72

- There are five fields which require an entry:
 - **Supplier Reference** – This is the Credit Hire Organisation's claim reference number and the Supplier Reference as held in the system that the support request relates to.
 - **Phone** - So we can reach you, please include an extension number if applicable.
 - **Email** - As above.
 - **Subject** – A short description of the support request.
 - **Message** – A detailed message regarding the support request so that the CHOX support team can follow up the request in the most efficient and effective manner. Contact details should be included as part of this message.

Appendix A – Claim Status Explained

A claim will always have a specific status throughout its life in CHOX. The behaviour of the claim and thus the behaviour of the user experience are directly affected by the status of the claim.

There are two areas in the system that allow you to see the status of a claim at any given point in time. The first is on the 'Claims Overview Grid' as shown by the red box in Figure 73 below.

Claims													
Batch Update ▾													
☐	Supplier Ref	Claim No	Insurer's Policy No	Insurer's VRN	Status	Workgroup	Ins Owner	CHO Owner	Last Modified	Review Date	CHO	Insurer	Viewing

Export Claim To Excel

Figure 74

There are a number of statuses for a claim, below is a list of all possible statuses with a brief description of each.

- **AwaitingCarHireInfo** – It is the Credit Hire Organisation's duty when the status is 'AwaitingCarHireInfo' to update the required fields on the 'Hire Monitoring' tab throughout the duration of the hire. Invoice details cannot be uploaded against a claim until the required fields have entries against them.
- **AwaitingInvoiceData** – This status indicates that the Credit Hire Organisation has entered the required fields on the 'Hire Monitoring' tab and thus the Credit Hire Organisation can upload invoice details against the claim, indicating that the hire vehicle has been off-hired.
- **AwaitingInvoicePayment** – This status indicates that the Insurer has made the decision to approve the claim/invoice for payment. The Insurer has an action to make a payment against the claim using the Insurer's internal payment system; once this payment has been made the Insurer is required to update the status in CHOX. The Insurer should enter notes against the claim for the Credit Hire Organisation's benefit regarding any important payment information.
- **AwaitingLiabilityResolution** – This status indicates that the Insurer has cleared the claim for payment and approved the claim on a quantum basis, however liability is yet to be agreed, the claim will sit in the status, effectively acting as a holding queue until the point liability is agreed/resolved/repudiated between the Credit Hire Organisation and Insurer.

- **AwaitingLitigationOutcome**–This status indicates that the CHO has made the decision to move this claim is in a pending state until a litigation outcome has been reached.
- **ClaimClosed** – This status indicates that the Credit Hire Organisation has removed the claim from CHO; this is the end of the claim’s life in the system.
- **ClaimPending** – This status indicates that the Insurer is awaiting further information in order to make a decision on whether to acknowledge or reject the claim, in most instances the Insurer is awaiting further information from their policyholder, the at-fault driver.
- **ClaimReferredToEngineer** – This status indicates that the claim has been sent to the Insurer’s motor engineers to review the claim/invoice details and make appropriate recommendations/actions. The motor engineer will make any notes on the ‘Notes’ tab for the purposes of the Credit Hire Organisation and/or the claims handler or for when the Insurer is reviewing the claim at the invoicing stage of the claim lifecycle.
- **ClaimReferredToFNOL** – If the at-fault driver has not registered the claim with their Insurer, the claim is referred to the first notification of loss (FNOL) team to register the claim. Once the claim has been registered the claim is sent to the relevant claims handling team/claims handler for review.
- **ClaimRejected** – This status requires action by the Credit Hire Organisation as to the Insurer’s decision to reject the claim in question. The Credit Hire Organisation will need to either accept the Insurer’s decision to reject the claim or contest the Insurer’s decision to reject the claim. Supporting notes should be added regardless of the decision reached. The Credit Hire Organisation has the ability to amend the details held on the ‘Claim Details’ tab before contesting the Insurer’s decision, notes should be added to the claim to inform the Insurer of any changes made.
- **ClaimRejectionAccepted** – This status indicates the end of the life of the claim in question as the Credit Hire Organisation has accepted the Insurer’s decision to reject the claim, no further action is required by either the Insurer or the Credit Hire Organisation, and relevant notes should be added by the Credit Hire Organisation.
- **ClaimRejectionContested** – This status indicates that the Credit Hire Organisation has contested the Insurer’s decision to reject the claim. The Insurer will have an action to review the contested claim and any supporting notes that may have been added and make a decision again on whether to acknowledge or reject the claim providing supporting notes/comments where applicable.
- **ClaimUnacknowledgedUnassigned** – This status only applies to those Insurers that are using claim ownership. Once a claim has been routed to the correct workgroup, it needs to be assigned to a claims handler. The Insurer will allocate a claim to the relevant claim owner, changing the status to ClaimUnacknowledgedRouted.
- **ClaimUnacknowledgedUnrouted** – This status refers to all new claims that have been uploaded into CHO at the first notification stage and are yet to be routed to the relevant claims handling team within the Insurer.
- **ClaimUnacknowledgedRouted** – This status refers to claims that have been routed to the relevant claims handling team/claims handler within the Insurer. The Insurer has an action at this stage to review the claim details against details registered on internal systems and make a decision on whether to acknowledge or reject the claim, adding any notes as required and/or details regarding the claim acceptance/rejection, specifically details regarding liability and indemnity.
- **ClaimUpdatedByEngineer** – This status indicates that an Insurer’s motor engineer has reviewed the claim details, added any relevant notes and sent the claim to the relevant claims handler(s) to follow up/action the claim.
- **ContestedInvoiceReferredToCHO** – This status indicates that the Insurer has escalated the claim to the Credit Hire Organisation with supporting notes on why this decision has been made. The Credit Hire Organisation is required to review any Insurer notes, and make a decision on whether to accept the claim/invoice rejection or contest the claim/invoice rejection. If the Credit Hire Organisation makes the decision to accept the claim/invoice rejection then supporting notes should be made. If the Credit Hire Organisation makes the decision to contest the claim/invoice rejection then the Credit Hire Organisation needs to make any necessary changes to the claim/invoice details and/or attach a payment pack/file if required and/or add a note to the claim and then re-submit the claim into the Business Rules Engine.

- **ContestedInvoiceReferredToInsurer** – This status indicates that the Credit Hire Organisation has received a claim previously in the state of 'ContestedInvoiceReferredToCHO' made any necessary amendments and re-submitted the claim into the Business Rules Engine and now it is back with the Insurer for review. The Insurer will review any new notes from the Business Rules Engine as well as the historic notes from previous Business Rule Engine tests, and if applicable Credit Hire Organisation's notes and/or the attached payment pack/file will be reviewed. The Insurer is required to make a decision on whether to approve the invoice or escalate the claim/invoice back to the Credit Hire Organisation.
- **InvoiceApprovedByBRE** – This indicates that all of the details regarding the invoice and the claim pass through the Business Rules Engine and there are no flags on the claim prompting the Insurer to manually review the claim. The Insurer is still required to approve the invoice for payment or to reject the claim/invoice back to the Credit Hire Organisation.
- **InvoiceDataCalculationIncorrect** - This status indicates that the Credit Hire Organisation has made fundamental calculation errors in the invoice data uploaded. The Credit Hire Organisation will be presented with details via the 'Remark' column on the XML upload screen and on the 'History' tab. The Credit Hire Organisation will need to make the necessary amendments to the 'Invoice Details' tab and re-submit the claim.
- **InvoiceEscalated** – This status indicates that there are certain details within the submitted claim/invoice that the Insurer's motor engineers would like to review before making a decision on whether to reject the claim/invoice or refer the claim/invoice to a handler. The Credit Hire Organisation is not required and cannot make any changes to the claim during this status.
- **InvoiceEscalatedToHandler** - This status indicates that there are certain details within the submitted claim/invoice that the Insurer's claims handlers would like to review before making a decision on whether to approve or reject the claim/invoice for payment. The Credit Hire Organisation is not required and cannot make any changes to the claim during this status.
- **InvoicePaymentLogged** – This status indicates that the Insurer has made a payment against the claim on the Insurer's internal payments system. The Credit Hire Organisation should review any notes against the claim for any relevant payment information. The Credit Hire Organisation is required to raise physical invoices for claims of this status for the amounts held on CHOX.
- **InvoiceRejectionAccepted** - This status indicates the end of the life of the claim in question as the Credit Hire Organisation has accepted the Insurer's decision to reject the claim/invoice, no further action is required by either the Insurer or the Credit Hire Organisation, and relevant notes should be added by the Credit Hire Organisation.
- **InvoiceUnassigned** - This status indicates Invoices that have failed some of the BRE and that require review. This also requires for an owner to be assigned to the invoice.
- **InvoiceReferredToClaimsHandler** – This status indicates that an Insurer's motor engineer has reviewed the claim/invoice details, added any relevant notes and sent the claim to the relevant claims handler(s) to follow up/action the claim/invoice.
- **InvoiceReferredToEngineer** – This status indicates that the claim has been sent to the Insurer's motor engineers by an Insurer's claims handler to review the claim/invoice details and make appropriate recommendations/actions.
- **PaymentReceived** – Once the payment has been received by the Credit Hire Organisation from the Insurer, there is a requirement for the status of the claim in question in CHOX to be updated to reflect this. This allows both the Insurer and the Credit Hire Organisation to see that the claim does not have an outstanding payment and the case is settled, indicating the end of the life of the claim in question; no further action is required within CHOX by either the Insurer or the Credit Hire Organisation.
- **SubscriberClaimRejected** - This status indicates Subscriber claims that have been rejected by the Insurer.

Appendix B – Installing CHOX Macro In Microsoft Excel

B.i CHOX Microsoft Excel Add-In

This section describes the steps necessary to setup the CHOX Microsoft Excel Add-In which can be used to create XML in the correct format for Credit Hire Organisations to import data into the system.

The installation of Add-Ins for Microsoft Excel 2003 and 2007 are different, below are step by step instructions on how to install the CHOX Add-In for each of these versions, if any problems are encountered during the setup please contact CHOX support.

B.i.i Installing the Add-In (Microsoft Excel 2003)

To install the Excel Add-In please ensure you have the latest version of the CHOX XML macro and then follow the steps below:

- Save the 'iDAS_CHOX.xla' file to your PC/network. The file can be saved in any location desired, but the default location for Microsoft Excel Add-Ins is 'C:\Documents and Settings\[User name]\Application Data\Microsoft\AddIns' so the suggestion is to save it in this location.
- Open Excel and select 'Add-Ins...' from the 'Tools' menu.
- On the opening 'Add-Ins' dialogue window, click the 'Browse...' button.
- Navigate to the location of the iDAS_CHOX.xla file and select it.
- When prompted, click 'Yes' to copy 'iDAS_CHOX.xla to the Add-Ins folder for [User name]?'
- Ensure that 'CHOX' is listed under 'Add-Ins available' and its checkbox is checked.
- Click 'Ok' to close the 'Add-Ins' dialogue window.

B.i.ii To Add A New Toolbar (Microsoft Excel 2003)

The best way to use the Add-In is to add a toolbar button that will run the code when clicked. You may either add a button to an existing toolbar or create a new toolbar to hold the button.

- In Excel, right-click anywhere in the toolbar area, and on the pop-up menu left click on the 'Customize...' option.
- On the 'Customize' dialogue screen that opens, make sure the 'Toolbars' tab is selected and click the 'New...' button.
- Give your new toolbar a meaningful name (for example 'Macro Buttons'), click 'Ok' then click 'Close' to close the 'Customize' screen.
- Your new toolbar will appear on the screen. Left click and drag the tool bar to the top and position your new toolbar as desired.

B.i.iii To Add A New Toolbar Button (Microsoft Excel 2003)

- In Excel, right-click anywhere in the toolbar area and on the pop-up menu select the 'Customize...' option.
- On the 'Customize' dialogue window that opens, make sure the 'Commands' tab is selected, scroll down the 'Categories:' list and select 'Macros' by left clicking on the word.
- In the 'Commands:' pane left-click and drag 'Custom Button' and drop it where you wish the new button to be created. It is suggested that you add this to your newly created tool bar, however it can be added to any of the existing tool bars if desired.
- With the new button still selected, click the 'Modify Selection' button beneath the 'Categories' list and a new pop-up menu will be displayed.
- Give the button a meaningful name (for example 'CHOX XML') by typing in the 'Name' box. You may also change the image on the button by using 'Change Button Image'. Alternatively you may change the button to show its name rather than an image by selecting the 'Text Only (Always)' option.
- Finally, to associate the button with the code in the Add-In select 'Assign Macro...' and the 'Assign Macro' window will be displayed.
- Due to the code being held in the Add-In it won't be listed for selection, so type CHOX in the 'Macro Name' box and then click the 'Ok' button, and then 'Close' to close the 'Customize' screen.

B.i.iv Installing the Add-In (Microsoft Excel 2007)

To install the Excel Add-In please ensure you have the latest version of the CHOX XML macro and then follow the steps below:

- Save the 'iDAS_CHOX.xla' file to your PC/network. The file can be saved in any location desired, but the default location for Microsoft Excel Add-Ins is 'C:\Documents and Settings\[User name]\Application Data\Microsoft\AddIns' so the suggestion is to save it in this location.
- Open Microsoft Excel 2007 and follow the steps below:
 - Left click on the Window Icon located in the top left hand corner of Microsoft Excel 2007 as shown in figure 74 below.
 - From the drop down menu left click on the 'Excel Options' button located in the bottom right hand corner, to the left of the 'Exit Excel' button as shown in 85 below.

Figure 85

- Clicking on the Excel Options button, the Excel Options screen will appear. The following steps should be taken:
 - Left click on Add-Ins, the Add-Ins menu window will now appear as shown in Figure below.
 - Navigate to the bottom of the screen and find the 'Manage' drop down menu.
- Left click on the downward arrow and left click on 'Excel Add ins' to select this from the list.
- Left click on the 'Go...' button.

Figure 86

- The Add Ins popup browser will now be displayed as shown in Figure 86 below. The Add-Ins popup browser is where the user can select which Add-Ins they wish to add to their version of Excel. The CHO macro will not be present on this list. To find the Macro, carry out the following steps:
 - Click on the 'Browse..' button

Figure 87

- The browse window will appear. Navigate to where the iDAS_CHO.xla file is stored on your PC/network. Please note that once the macro is added, it should not be moved from its current stored location.

- Left click on the file once to select it.
- Then click on the 'Open' button.
- This will add the macro to the Add-Ins list and will automatically select it, by putting a tick in the check box next to it as shown in **Figure 8** below.

Figure 88

- Click on the 'OK' button to save the CHOX macro to the selected Add-In.

B.i.v To Add A New Toolbar Button (Microsoft Excel 2007)

The CHOX XML macro has now been added to the list of Add-Ins, a macro button now needs to be added to the Microsoft Excel toolbar which acts as a shortcut for running the macro. To install this shortcut button, follow the following steps:

- Left click on the Window Icon located in the top left hand corner of Microsoft Excel 2007.
- From the drop down menu left click on the 'Excel Options' button located in the bottom right hand corner, to the left of the 'Exit Excel' button.
- From the Excel Options screen, left click on 'Customize' from the left hand menu and this will open the Customize screen in the right hand panel of the window as shown in **Figure 89** below.
- From the 'Choose commands from:' drop down box, select 'Macros'

Figure 89

- This will bring up a list of available macros in the window below. As **Figure 90** below shows, there is only the CHOX macro available in the list.
- Left click on the macro name 'CHOX'.
- Click on the 'Add >>' button to add the macro.

Figure 90

- The default button icon (organisational tree icon) is assigned to the macro. The shortcut button icon can be modified by following the below steps:
 - Left clicking on the 'Modify...' button.
 - A list of available shortcut buttons is displayed in the 'Modify Button' window as shown in Figure below.

Figure 91

- Select the desired shortcut button by left clicking on the relevant icon.
 - Left click on the 'OK' button.
 - You will be returned to the Customize screen, click on the 'OK' button.
- The shortcut button will now appear in the control panel in Microsoft Excel and is ready for use.
