1 CHOX Credit Hire Organisation and Insurer Responsibilities

This section details the roles and responsibilities for all parties regarding the use of CHOX regarding the credit hire and/or credit repair process.

1.1 Claim and Invoice Data

It is the Credit Hire Organisation's responsibility to upload claim and invoice data into CHOX. This will either be from a direct feed from internal systems via a Web Service or via an XML upload feed into the CHOX web browser front end.

It is the Credit Hire Organisation's responsibility to ensure that the data being uploaded into CHOX is of an accurate, complete and consistent nature.

1.2 Claim Acknowledgement

It is the Insurer's responsibility to review all incoming first notifications and assess against details held on internal systems. The Insurer must then decide to acknowledge or reject a claim. A Credit Hire Organisation, cannot upload invoice details against a claim which has been rejected or yet to be acknowledged.

1.3 Monitoring of Hire

It is the Credit Hire Organisation's duty to monitor the progress of a hire/repair. Information obtained from the hire/repair monitoring process is to be entered into CHOX against the claim in question.

1.4 Invoice Approval

It is the responsibility of the Insurer to review all invoices that have either passed the business rules held in CHOX or invoices that have failed fundamental business rules and therefore require review. The Insurer will be required to make a decision on whether to clear the invoice for payment or reject the invoice in question given the information supplied.

1.5 Invoice/Claim Amendment

It is the Credit Hire Organisation's responsibility to make modifications to a claim/invoice with fundamental data errors. The Credit Hire Organisation is also required to supply additional information to a claim via the means of CHOX upon request by the Insurer.

1.6 Invoice Payment

It is the responsibility of the Insurer to monitor payments required for hire invoices using CHOX once a claim has been cleared for payment. The payment will be logged on the Insurer's internal payments system but a requirement to update CHOX of this payment is in order.

The Credit Hire Organisation is required to monitor CHOX for all claims where an Insurer has logged a payment for the invoice and update the claim in CHOX as a notification that the payment has been received.

2 Getting Started

2.1 System Requirements

CHOX can be accessed online and is supported by the following web browsers only:

- Internet Explorer 6 or higher
- Mozilla Firefox 3 or higher
- Safari 3 or higher

2.2 Logging on

- Before you can begin using CHOX, you will need at hand your registered username and password as supplied by the CHOX support team. You will have been sent an e-mail detailing your username and password.
- Using your preferred web browser from the list above, enter the following URL into your browser's address bar: **<https://www.idaschox.com>**
- Enter your case sensitive username and password into the relevant fields as shown on Figure 1 below.

Figure 1

2.3 User Roles

There are twelve user roles for an Insurer within CHOX; each role is specific with appropriate read/write and access privileges. These roles are detailed below with a brief description of each role:

- **FNOL Handler** – The FNOL Handler is responsible for registering claims on internal systems which have not previously been registered, generating a unique Insurer claim number.
- **Claims Router** – Responsible for routing claims to their relevant business area/workgroup.
- **Claim Ownership Manager** – A user with this role is responsible for assigning a claim owner to each claim and ensuring the claim has been assigned to the correct business area/workgroup.
- **Claims Handler** – Responsible for reviewing first notifications and making decisions on whether to accept or reject claims. The Claims Handler is also required to monitor hire updates, review Credit Hire Organisation invoices and decide whether to reject or approve and make payments for said invoices.
- **Specialist Claims Reviewer** – (Motor Engineer). Responsible for reviewing invoices post Business Rules Engine processing and deciding whether to approve or reject invoices. Additional responsibility to review claims at the first notification stage when the claim has been referred for specialist advice by a Claims Handler.

- **Payments Clerk** – Responsible for making payments on Insurer's internal system for claims that have been approved for payment in CHOX.
- **Manager** – Access to the same screens/functionality as the above roles. Also has access to CHOX's reporting module and the CHOX Business Rules Engine management/control function.
- **MI Access** – Access to all reports and ability to use the 'Search' screen. Users with only this permission have read only access on claims so cannot perform any actions
- **Insurer Claims Uploader**- Responsible for uploading Insurer Manual claims against CHOs that are not submitting claims to the Insurer on CHOX.
- **Supervisor** - Responsible for reviewing invoices that reside in the 'Escalated Invoices To Supervisor' queue.
- **User Manager** - Responsible for administering users within CHOX. This user will only be able to view the 'Admin' tab and 'User Management'.
- **Manager Admin** – Access to the 'CHOX Administration' section within CHOX, within the 'Admin' tab.

3. Basics

3.1 CHOX at a Glance

On logging into CHOX you will be presented with the following screen layout (the tabs displayed e.g. Reports, will vary depending on your user role as will the queues in your inbox):

Figure 2

3.2 Navigation

CHOX can be navigated using a mouse to click on menu items and arrows.

3.2.1 Control Toolbar

The 'Control Toolbar' is located in the top right-hand side of the CHOX screen as shown by the red box displayed in Figure 3 below.

Figure 3

The 'Control Toolbar' allows a user access to the following controls:

3.2.1.1 Home

When the 'Home' shortcut link is clicked the user will be taken to the home screen within CHOX, your default home screen will vary dependent on your role.

3.2.1.2 Settings

The settings link allows the user to view their registered information and change their password.

3.2.1.3 Help

When the 'Help' shortcut link is clicked a new browser session will open which will contain the CHOX Insurer user guide.

3.2.1.4 Support

When the 'Support' shortcut link is clicked a drop down list will appear enabling the user to submit an online support request through the 'Online Support Form' option or select 'Support Procedure' to open the CHOX support procedure in a separate internet browser tab.

3.2.1.5 About CHOX

When the 'About CHOX' shortcut link is clicked a pop-up window will appear which will contain details relating to the CHOX product including versioning and ownership.

3.2.1.6 Log Off

When the 'Log Off' shortcut link is clicked you will be logged off from your current activity and returned to the CHOX log on screen as shown in Figure 1.

3.2.2 Dashboard

Some user roles will be able to see the 'Dashboard' screen as shown in Figure 4 below. This Dashboard displays a snapshot of claims in the system to date across a weekly, monthly and cumulative period. Results can be viewed for an individual CHO or across the entire CHO book.

Figure 4

3.2.3 Inbox

The 'Inbox' tab allows a user to see work queues that are relevant to them. The work queues allow a user to see how many items are outstanding in a particular queue at any given moment and therefore require action.

As shown in Figure 5 below the work queues are displayed as internet style hypertext links. In order to access a particular work queue, click on the name of the work queue you wish to view.

There are two dropdown menus allowing you to filter the claims shown in the work queues. The first filter allows you to select a particular CHO's claims, the second allows you to filter further by selecting the claim type.

3.2.4 Claims Overview Grid

Located below the work queue items as shown in figure 6 below (indicated by the red box), is a small grid made up of a number of columns referred to as the 'Claims Overview Grid'. On logging into CHOX the default 'Claims Overview Grid' view is blank and thus no claims are displayed in the 'Claims Overview Grid'.

Figure 6

The 'Claims Overview Grid' displays all claims that relate to the work queue that is currently selected and therefore all items in the grid are of the same status. The 'Claims Overview Grid' displays a handpicked selection of columns that will allow you to uniquely identify a claim. In order to view the details of a particular claim click on the 'Supplier Reference' field (underlined with blue text, appearing as an internet style hypertext link) for the particular claim.

3.2.5 Search

To access the search facility, click on the 'Search' tab which is located next to the 'Inbox' tab as shown by the red box in figure 7 below:

The screenshot shows the CHOX Claims Handler interface. At the top, there is a navigation bar with links: Home, Settings, Help, Support, About CHOX, Claims Handler, ABC Insurer, and a Log Off button. Below this is a tabbed interface with tabs for Inbox, Search (highlighted with a red box), Reports, Dashboard, and Claim/Invoice Upload. The Search tab is active, displaying a form with various search filters. These filters include text input fields for Supplier Reference, Invoice Number, Supplier VRN, Claim Upload Date From, Status Modified Date From, Invoice Upload Date From, Hire Start Date From, Claim Number, Insurer VRN, Claim Upload Date To, Status Modified Date To, Invoice Upload Date To, Hire Start Date To, and dropdown menus for Liability Status, Workgroup, Supplier Name, Status, Claim Owner, and Supplier Claim Owner. There are also checkboxes for 'Show Claims With Penalty Charges Only' and 'Show Claims With Supp. Invoice(s) Only'. At the bottom of the filter section are 'Search' and 'Reset' buttons. Below the filters is a section titled 'Claims (0)' with a 'Batch Update' dropdown and an 'Export To Excel' button. A table header is visible with columns: Supplier Ref, Claim..., Claim No, Insurer..., Invoice..., Status, Tot..., Workgroup, Ins O..., CHO..., St..., Re..., CHO, Insurer, and others. The table body is empty, and a message at the bottom right states 'No claims to display'. The footer contains copyright information: ©2013 Sherwood Technology Solutions Ltd | Copyright | Privacy Policy | Terms of Service.

Figure 7

Figure 7 above represents the extensive search functionality that is available in CHOX. A search can range from a search on a single field to a search across multiple fields.

- To widen search results, search using only one field.
- To minimise search results, search using multiple fields.

Detailed below is a list of the searchable fields with a brief explanation on the results that would be returned if a search was conducted on each:

- **Supplier Reference** - Unique reference for the Credit Hire Organisation (as stored on internal systems) in order to identify a claim. Will display only one result in the 'Claim Overview Grid'.
- **Claim Number** - Unique reference for the Insurer (as stored on internal systems) in order to identify a claim. Will display only one result in the 'Claim Overview Grid'.
- **Invoice Number** – This number refers to the Credit Hire Organisation's internal invoicing number. This search could return a specific claim relating to an invoice payment for a credit hire and/or credit repair or return a specific claim relating to a Claims Handling invoice in the case of Credit Hire Organisations under the Delegated Authority scheme.
- **Show Open Claims Only** – When this box is checked, the search will exclude all claims that have been closed or have been resolved.
- **Supplier VRN** – This search is for the customer/supplier/non-fault party's vehicle registration number. It is possible for more than one claim to exist against a single VRN.
- **Insurer VRN** – This search is for the third party/at-fault party/insurer's vehicle registration number. It is possible for more than one claim to exist against a single VRN.
- **Claim Upload Date From & To** – Date range to include all claims between selected dates where the claim was uploaded into CHOX for the first notification stage of the claim lifecycle.
- **Status Modified Date From & To** – Date range to include all claims between selected dates where the Status changed on CHOX.
- **Invoice Upload Date From & To** - Date range to include all claims between selected dates where the invoice was uploaded into CHOX.

- **Hire Date From & To** – Date range to include all claims between selected dates where the hire start of the replacement vehicle commenced.
- **Liability Status:** – The search will return results for all claims in CHOX for the liability status specified.
- **Status** – Search will return results for all claims in CHOX of the specified status. At the top of this list is a status labelled 'ACTIONS FOR HANDLERS', this is not a claim status, selecting this search parameter would produce a list of claims that are classed as outstanding actions for claims handlers and will have either of the following statuses; ClaimUnacknowledgedRouted, ClaimRejectionContested, ClaimPending, ClaimUpdatedByEngineer, InvoiceReferredToClaimsHandler, InvoiceEscalatedToHandler, ContestedInvoiceReferredToInsurer, InvoiceApprovedByBRE, AwaitingInvoicePayment, AwaitingLiabilityResolution.
- **Workgroup** – The search will return results for all claims in CHOX for the specified Workgroup.
- **Claim Owner** – The search will return results for all claims in CHOX for the specified claim owner.
- **Supplier Name** – Search will return all claims (regardless of their status in the system) for a particular Credit Hire Organisation/Supplier.
- **Supplier Claim Owner** - If the Credit Hire Organisation uses the claim ownership model this search option allows an Insurer to view all claims assigned to a specific claim owner within the Credit Hire Organisation.
- **Show Claims With Penalty Charges Only**- Search will return all claims in CHOX that have penalty charges on the invoice. All claims that have not been paid within 30,60,90 days of invoice upload.
- **Show claims With Supp. Invoices Only**- Search will return all claims that have already have an invoice and items need to be added as a separate invoice..
- **Claim Type**- This will list the different types of claims e.g. GTA, Subscriber, TPI, Ins vs. Ins or Insurer Manual Invoice

To use the CHOX search facility select the relevant search criteria in the form of the supplied drop down menus, date calendar pop-ups or by typing search strings into the relevant field(s). For text entry searches, the inclusion of a '%' symbol anywhere in the entry will act as a wild card character (representing any group of characters or numbers). For example a search on the 'Claim Number' field with '%08%' would return all claims which have '08' in the 'Claim number' and any group of characters either side of the '08'. An example search entry is shown in figure 8 below:

The screenshot displays the CHOX search interface. At the top, there's a navigation bar with links: Home | Settings | Help | Support | About CHOX | Claims Handler, ABC Insurer (Log Off). Below this is a search form with multiple fields for filtering claims. The fields are organized into two columns. The left column includes: Supplier Reference, Invoice Number, Supplier VRN, Claim Upload Date From, Status Modified Date From, Invoice Upload Date From, Hire Start Date From, Liability Status (set to 'ALL'), Workgroup (set to 'ALL'), Supplier Name (set to 'ALL'), Show Claims With Penalty Charges Only (checkbox), and Claim Type (set to 'ALL'). The right column includes: Claim Number, Show Open Claims Only (checkbox), Insurer VRN, Claim Upload Date To, Status Modified Date To, Invoice Upload Date To, Hire Start Date To, Status (set to 'ContestedInvoiceReferredToIns'), Claim Owner (set to 'Handler, Claims'), Supplier Claim Owner (set to 'ALL'), and Show Claims With Supp. Invoice(s) Only (checkbox). Below the form are 'Search' and 'Reset' buttons. The search results are displayed in a table with columns: Supplier Ref, Claim No, Claim No, Insurer, Invoice, Status, Total, Workgroup, Ins O..., CHO, St..., Re..., CHO, Insurer, and a 'Batch Update' dropdown. The table shows one result. At the bottom, there's a pagination bar indicating 'Page 1 of 1' and 'Displaying Claims 1 - 1 of 1'.

Figure 8

Once the search criteria has been entered click on the 'Search' button. Results from the above search criteria are shown in figure 9 below:

The screenshot shows the CHOX search interface. At the top, there's a navigation bar with links: Home | Settings | Help | Support | About CHOX | Admin Insurer, RSA (Log Off). Below this is a tabbed interface with 'Search' selected. The search criteria form includes fields for Supplier Reference, Invoice Number, Supplier VRN, Claim Upload Date From/To, Status Modified Date From/To, Invoice Upload Date From/To, Hire Start Date From/To, Liability Status (dropdown), Workgroup (dropdown), Supplier Name (dropdown), Claim Number, Show Open Claims Only (checkbox), Insurer VRN, Claim Upload Date To, Status Modified Date To, Invoice Upload Date To, Hire Start Date To, Status (dropdown), Claim Owner (dropdown), Supplier Claim Owner (dropdown), Show Claims With Penalty Charges Only (checkbox), and Show Claims With Supp. Invoice(s) Only (checkbox). There are 'Search' and 'Reset' buttons. Below the form, the 'Search Result (1)' section shows a table with columns: Supplier Ref, Claim..., Claim No, Insurer..., Invoice..., Status, Total..., Workgroup, Ins O..., CHO..., St..., Re..., CHO, Insurer, and others. The first row shows data for Supplier Ref 514009, Claim No 20130..., Insurer TF743..., Invoice 17/04..., Status ContestedInvol..., Total £0.00, Workgroup Damage - Birmi..., Ins O... Hand..., CHO 23/..., Re... Magna Acc..., Insurer RSA, and others. At the bottom, there's a footer with copyright information: ©2013 Sherwood Technology Solutions Ltd | Copyright | Privacy Policy | Terms of Service.

Figure 9

3.2.4.1 Claim Summary Pane

When viewing the claim details of a particular claim, you will be presented with the 'Claim Summary' pane as shown in Figure 10. The 'Claim Summary' pane contains information that is regarded as essential to a user and therefore is displayed at all times regardless of the tab you navigate to.

The screenshot shows the 'Claim Summary' pane. It contains the following information:

- Third Party Insurer: **ABC Insurer**
- Supplier Reference: **AIGTA1006**
- Customer: **Mr Andy Samwell**
- Claim Owner: **Claims Handler**
- Liability Status: **Full Liability Accepted**
- Liability Agreed Date: **23/05/2011**
- Credit Hire Organisation: **XYZ CHO**
- Insurer Claim Number: **9878910006**
- Current Status: **ContestedInvoiceReferredToInsurer**
- Workgroup: **Workgroup 2**
- Percentage Liability Agreed (Insurer): **100.00%**
- Indemnity Value: **£0.00**
- Created By: **Admin Chox (XYZ CHO)**
- Created On: **23 May 2011 10:27**
- Customer Contact Date: **01 Mar 2011 13:00**
- Supplier Claim Owner
- Percentage Liability Agreed (CHO): **0.00%**
- Claim Type: **GTA**

At the bottom, there are links: « Back to Search Results, -- More Actions -- (dropdown), and Export Claim To Excel.

Figure 10

3.2.4.2 Action Pane

For certain statuses, an action window pane will be displayed which will require certain action in order to move the claim to the next status/lifecycle step. The action pane will be located beneath the 'Claim Summary' pane when viewing the claim detail as discussed above. The action pane in order to reject an invoice or clear an invoice for payment is shown below in Figure 11 as an example.

BRE Approved Claim - Action Required

 This claim and its related invoice have been cleared by the CHOX approval system. Please review the invoice and claim information supplied, and choose whether to agree the quantum for the invoice, reject the invoice or refer the invoice to an Engineer.

Reason For Rejection:

Supporting Rejection Note:

Please specify how you wish to proceed:

Figure 11

3.2.6 Tabs

Upon selecting to view the claim details for a particular claim by clicking on the 'Supplier Reference' number in the 'Claim Overview Grid', the tab view as shown and indicated by the red box in Figure 12 below is displayed:

Claim Details | Hire Monitoring | Invoice Details | Attachments | History | Claim Cycle | Notes | Tasks

+Expand All

Incident Details	Injury Solicitor
Claim Details	Witness Details

Figure 12

Tabs allow a user to browse through segmented sections of a claims underlying detail allowing more efficient and effective navigation through the extensive set of data held against a claim in CHOX.

3.2.6.1 Expanding/Collapsing Tab Details

By default the information displayed within a tab is collapsed in that the tab section header is shown without the underlying detail as shown in Figure 13 below. In order to view detail under each of the tab section headers you should click on the tab section header in question. The red box in Figure 13 below represents the 'Customer Details' section header.

3.2.6.2 Expanding/Collapsing all Tab Details

To expand all of the tab section headers at the same time, the user can click on the '+Expand All' link located in the top left corner. This will then open all underlying details for each of the tab section headers. The link for doing this is highlighted in Figure 15 below.

Figure 15

Once all of the underlying details have been expanded, the user can then perform the opposite action and collapse all of the information. To do this, the user must click on the '-Collapse All' link which has taken the place of the '+Expand All' link in the top left hand corner. The link for performing this action can be seen in Figure 16 below.

Figure 16

3.2.6.3 Data Read/Write Views and Saving Data

Depending on the status of the claim the details contained within a tab will either be in a read only format or in an editable format. Read only details will be displayed as shown in Figure 17 below, with data for a particular field being displayed next to the field label with no option to modify.

Figure 17

Editable fields will be displayed in the format as shown in Figure 18 below.

Claim Acknowledgement - Action Required

Please enter details of the claim and decide whether to acknowledge the claim, refer the claim to an engineer, refer the claim to an FNOL handler or set the claim to pending. You can enter public notes in the 'Claim Review Notes' box in order to communicate detailed comments you may have for the CHO. Alternatively, if you would like to reject the claim back to the CHO, then select a 'Reason For Rejection'.

Claim Number *	434212dd

Figure 18

The editing of fields will require you to make the changes permanent within the system by clicking on the relevant button that is displayed in and around the editable fields. This button will be either 'Save Changes' or some form of action button i.e. 'Refer To Engineer'. The 'Save Changes' button is shown in Figure 19 below.

Figure 19

3.2.6.4 Tab Availability

CHOX offers access to tabs depending on the status of the claim and therefore what can and cannot be viewed. If a tab has blue writing as the tab name then the tab can be navigated to, however if the tab has grey writing as the tab name then the tab cannot be navigated. Based on Figure 20 below, 'Claim Details' tab, 'Hire Monitoring' tab, 'Claim Cycle' tab, 'Attachments' tab and 'Notes' tab can all be navigated to, but the 'Invoice Details' and 'History' tabs cannot be navigated to.

Figure 20

3.2.6.5 Tabs Explained

An explanation on the content displayed on each tab is offered below.

3.2.6.5.1 Claim Details Tab

The 'Claim Details' tab contains information relating to the general claim details, non-fault party's details, at-fault party's details, witness details, vehicle damage details, incident details, injury details, injury solicitor details and engineer report details.

3.2.6.5.2 Hire Monitoring Tab

The 'Hire Monitoring' tab contains information relating to the monitoring of the hire/repair. During the length of time the customer has the vehicle on hire, it is the Credit Hire Organisation's duty to monitor the progress of the repair/hire, any update/modification that is deemed important/vital/required by the Insurer is noted on this tab as and when the update occurs. The Credit Hire Organisation has the ability to ensure that the update is reviewed/seen by the Insurer if required.

3.2.6.5.3 Invoice Details Tab

The 'Invoice Details' tab contains a breakdown of the items that make up the total invoice cost including details regarding the vehicle on hire, the length of hire, extras added to the vehicle for the hire, engineer report details, repair costs and any other additional costs that have been incorporated as part of the hire.

3.2.6.5.4 Attachments Tab

The 'Attachments' tab allows a user to attach files to a claim in various file formats such as PDF documents, Microsoft Word documents and common image file formats. Photos, associated documents and payment packs can be attached to a claim using the 'Attachments' tab.

To upload a file attachment, follow the below steps:

- Navigate to the 'Attachments' tab as shown in Figure 21 below:

Figure 21

- Click on the 'Browse....' button.
- Navigate to the location of where the file is stored and click 'Open'.
- Select the relevant category of file upload using the drop down menu for the 'Attachment Type' field.
- Enter a description in the 'Description' field, offering a brief description of the file being uploaded
- Click on the 'Add File' button to attach the file.

3.2.6.5.5 History Tab

The 'History' tab contains details regarding the results of the Business Rules Engine validation when an invoice has been uploaded into CHOX and any messages as a result of this process are stored. The items detailed on the 'History' tab are displayed in chronological order with the oldest history items being displayed first as shown in Figure 22 below:

Created On	Created By	Message Text
23/05/2011 10:55	Admin Chox (XYZ CHO)	BRE Rule Failed - Repair Gross is higher than the Estimated Total Repair Amount.
23/05/2011 10:55	Admin Chox (XYZ CHO)	BRE Rule Failed - The Admin Fee billed is incorrect.
23/05/2011 10:55	Admin Chox (XYZ CHO)	BRE Rule Failed - The Customer's Vehicle Registration Number supplied already exists in the system.
14/05/2012 17:09	Admin Chox (XYZ CHO)	BRE Rule Failed - The daily rate billed of £47.57 for the replacement vehicle class S6 exceeds the allowed ABI rate of £43...
09/08/2013 10:32	Admin Chox	BRE Rule Failed - The daily rate billed of £47.57 for the replacement vehicle class S6 exceeds the allowed ABI rate of £43...

Figure 22

3.2.6.5.6 Claim Cycle

The 'Claim Cycle' tab contains details of the status changes of a particular claim. A new entry is added to the list every time the status is changed, including who changed the status of the claim, the new status of the claim and the date/time the status changed. The list is automatically displayed in chronological order with the newest/current status appearing at the bottom as shown in Figure 23 below.

Modified Date	Modified By	Status
09/08/2013 10:32:51	Admin Chox	ContestedInvoiceReferredToInsurer
09/08/2013 10:32:44	Admin Chox	ContestedInvoiceReferredToCHO
09/08/2013 10:31:48	Specialist Claims Reviewer (ABC Insurer)	InvoiceReferredToClaimsHandler

23/05/2011 10:27:05	Admin Chox (XYZ CHO)	ClaimUnacknowledgedUnrouted

Figure 23

3.2.6.5.7 Notes Tab

The 'Notes' tab is an empty data field which can be used to add comments by both Insurers and Credit Hire Organisational. All notes can be viewed at any stage of the CHOX process by navigating to the 'Notes' tab within a claim, however notes should not be used for queries as they will not always be viewed. Notes can either be of a private nature and therefore only seen by internal Insurer users or of a public nature and therefore seen by all users who can access the claim, including the Credit Hire Organisation who submitted the claim.

To add either a public or private note, the user must follow these steps:

- View the claim details of the claim in question and navigate to the 'Notes' tab, a screen shot of the 'Notes' tab is shown below in figure 24.
- Notes can be deleted within 5 minutes by the individual who added the note, by managers or by CHOX Admin. After 5 minutes only CHOX ADMIN will be able to delete the note.

Created	Created By	Message
09/08/2013 10:33	Admin Insurer (ABC Insurer)	Insurer Claims Handler changed from 'Handler Eight' to 'Claims Handler'
09/08/2013 10:32	Admin Chox	Supporting Notes: test
09/08/2013 10:32	Admin Chox	Supporting Rejection Notes: test
09/08/2013 10:32	Admin Chox	Reason For Rejection: Other
14/05/2012 18:47	Admin Insurer (ABC Insurer)	Claim owner changed from 'N/A' to 'Andy Cooper'
23/05/2011 10:40	Admin Insurer (ABC Insurer)	Liability status changed to 'Full Liability Accepted'

Figure 24

- Click in the text box labelled 'Add a new note' and write the statement or question.
- Decide whether you wish for the message to be public (visible to the CHO) or private (visible internally only) by selecting the relevant radio button beneath the text box.
- Click on the 'Add Note' button.
- If a public note has been added, it will be displayed in the list with a white background. If a private note has been added, it will be displayed with a blue background.
- All notes that have been entered against a claim by either the Insurer or Credit Hire Organisation will appear on the 'Notes' tab and all notes for each claim are archived by date and are not amendable once saved.

3.2.6.5.8 Task Tab

The 'Task' tab allows for specific tasks to be added to a claim which can be assigned both internally (for the Insurer) and externally (for the Credit Hire Organisation). This opens up invaluable dialogue in ensuring claims are processed as quickly as possible and all disputes are settled swiftly and efficiently. Tasks can be viewed at any stage of the CHOX process by navigating to the 'Tasks' tab within a claim. Tasks can either be internal and therefore only seen by internal Insurer users or External and therefore seen by the Credit Hire Organisation who submitted the claim.

Claim Details **Hire Monitoring** **Invoice Details** **Attachments** **History** **Claim Cycle** **Notes** **Tasks**

Add New Task

Due Date:

Task Type:

☐ External Task ☒ Internal Task

☒ Hide Completed Tasks

Due Date	Task Type	Description	Created Date	Created By	Assigned To	Completed By
09/08/2013	Witness Statement(s)	We really need to have the Witness Statement ...	09/08/2013	Claims Handler (ABC Insu...	Claim Handler	
10/08/2013	Engineer Inspection	Please attach Engineers report so we can pro...	09/08/2013	Claims Handler (ABC Insu...	CHO	

Figure 25

To add a new task from within a claim:

- Click on the 'Tasks' tab from within the claim view.
- Decide on the date that this task should be completed by clicking within the 'Due Date' field and putting in a date. This can also be selected by using the calendar option next to the text box.
- Click on the drop down arrow for 'Task Type' and select a task type from the list provided. If the types listed do not match your criteria, use 'Other'.
- Click in the text box labelled 'Task Description' and write a meaningful description of the task that is to be carried out.
- Decide whether you wish for the task to be internal or external using the radio buttons provided underneath the 'Task Description' box.
 - For an internal task, you must select the role within the organisation who will be assigned the task using the drop down list next to the External/Internal radio buttons. The default for this is 'Claims Handler'.
 - For an external task, you will not be able to select the role and the task will be assigned to the correct Claims Handler at the Credit Hire Organisation automatically.
- Click on the 'Add Task' button.
- The task will now be displayed in the grid.
- If the task is in the future, it will be displayed in black text.
- If the task is due today, it will be displayed in orange text.
- If the due date has past, the task will be displayed in red text.
- If the 'Hide Completed Tasks' checkbox is not ticked, all completed tasks will appear with grey text.
- To mark a task as complete, you need to select the task from the grid using the tick box to the left of the 'Due Date' column and then click on the 'Mark As Complete' button. It will then disappear from the list of tasks.
 - To find this task again, you can uncheck the 'Hide Completed Tasks' box and all old/completed tasks will appear in Grey in the Task Grid.

4 Inbox

As discussed previously, your inbox will display all work queues that are relevant to your role in the system. What follows is a list of the work queues as well as a description of which each contains and the action required to remove the claims from the queues by way of action. In brackets against each work queue is the role(s) that will have access to the relevant work queue.

4.1 New Claims to be Routed (Claims Router, Insurer Admin)

The 'New Claims to be routed' work queue contains a list of new first notifications that have been uploaded by the Credit Hire Organisation. The new claims need to be routed to the relevant business areas/claims handling teams within the Insurer.

CHOX has an auto-routing function, which looks at the data submitted by the Credit Hire Organisation and attempts to route the claim to the correct workgroup within the Insurer automatically. If the claim cannot be automatically routed, the claim will need to be manually routed to the correct workgroup by following these steps:

- Select each claim in turn from the queue and view the claim details.
- Review the claim details held on CHOX against details stored on internal systems to work out which workgroup the claim needs to be routed to.
- Using the 'Workgroup' drop down menu located on the 'Claim Routing – Action Required' window pane, select a 'Workgroup' to route the claim to.
- Click on the button labelled 'Assign Workgroup' to route the claim.
- If the claim is to be rejected back to the Credit Hire Organisation, select a rejection reason using the 'Reason for Rejection' drop down menu and click on the button labelled 'Reject Claim'.

Claims can also be routed via a bulk update by following the below method:

- Select the 'New Claims to be Routed' work queue.
- The claims will all be displayed in the 'Claims Overview Grid'.
- Select the claims that you wish to route by checking the tick box next to each claim as shown in Figure 26 below or alternatively select all claims by checking the tick box that appears along the top row.

Queue: New Claims To Be Routed (186)

Figure 27

- Select the relevant workgroup from the 'Workgroup' drop down list to route the claim(s) as shown in figure 28 below.

Route Claim(s)
ClaimUnacknowledgedUnassigned
ABC CHO

Please select the 'Workgroup' in order to route the claim(s) to the relevant handling team.

Workgroup
--- Please Select ---

Ok
Close

Figure 28

- Once the correct workgroup has been selected, click on the 'Ok' button
- The claim status will now be 'ClaimUnacknowledgedUnassigned'.

4.2 New Claims to be Assigned (Claim Ownership Manager, Insurer Admin)

The 'New Claims to be Assigned' work queue contains all claims that have been routed through to the correct workgroup and are awaiting to be assigned a claim owner. Claims in this queue need to be reviewed and a decision made on which claim owner will manage the claim during its lifetime in the system.

- Select each claim in turn from the queue and view the claim details.
- Review the details held on the internal system if needed to decide which handler should be assigned the claim.

- Select the workgroup that the handler is assigned to using the 'Workgroup' drop down menu; once selected using the 'Claim Owner' drop down menu select the handler you wish to assign the claim to.
- Once the correct handler has been selected, click on the 'Assign Owner' button.
- The claim status will change from 'ClaimUnacknowledgedUnassigned' to 'ClaimUnacknowledgedRouted'.
- If the claim has not been registered on internal systems, then the 'Refer to FNOL' button should be used in order to route the claim to the FNOL team who will register the claim and add the claim number to CHOX, passing the claim back into the 'New Claims to be Assigned' work queue, where the above steps should be followed. Please note that the FNOL team that receives the claim for registration will be dependent on the workgroup that has been selected, if the workgroup selected is incorrect, select the relevant workgroup before clicking on the 'Refer to FNOL' button.
- If the claim is to be rejected back to the Credit Hire Organisation, select a rejection reason using the 'Reason for Rejection' drop down menu and click on the button labelled 'Reject Claim'.

Additionally claims can be assigned an owner via a bulk update following the below method:

- Select the 'New Claims to be Assigned' work queue.
- The claims will all be displayed in the 'Claims Overview Grid'.
- Select the claims that you wish to route by checking the tick box next to each claim or alternatively select all claims by checking the tick box that appears along the top row.
- Click on the 'Batch Update' button.
- Select 'Assign Claim(s) Owner'. The following pop-up window will appear:

Figure 29

- Select the workgroup that the handler is assigned to using the 'Workgroup' drop down menu; once selected using the 'Claim Owner' drop down menu select the handler you wish to assign the claim to.
- Once the correct handler has been selected, click on the 'Ok' button.
- The claim status will now be 'ClaimUnacknowledgedRouted'.

4.3 Claims to be Registered (FNOL Handler, Insurer Admin)

The 'New Claims to be Registered' work queue contains all claims that have yet to be registered on the Insurer's internal system. This is required so that the correct claim number can be put onto the claim within CHOX for tracking/referencing purposes.

- Select each claim in turn from the queue and view the claim details.
- Review the details held on the internal system by looking the claim up using the data available in CHOX – Third Party VRN and/or Third Party Policy Number should be sufficient in order to locate the policyholder on internal systems.
- If the claim is not yet registered on internal systems, register the claim using the data available in CHOX and if applicable contact the policyholder. Once the claim has been registered, add the uniquely generated claim number using the 'Claim Number' field within CHOX.

- If the claim is already registered, then add the claim number using the 'Claim Number' field within CHOX.
- Add any supporting notes in the 'FNOL Review Note (If applicable)' field if required. If the claim cannot be registered please indicate this in the 'FNOL Review Note (if applicable)' field.
- Click on the 'Return Claim' button in order to pass the claim back to the relevant team/individual.

4.4 Claims Awaiting Acknowledgement (Claims Handler, Insurer Admin)

The 'Claims Awaiting Acknowledgement' work queue contains a list of new claims that need to be reviewed and a decision made on whether to acknowledge or reject the new claims.

- Select each claim in turn from the queue and view the claim details.
- Review the claim details held on CHOX against details stored on internal systems.
- A decision needs to be made at this stage on whether to acknowledge the claim, refer the claim to an Engineer, refer the claim to FNOL, make the decision later by pending the claim or reject the new claim back to the Credit Hire Organisation.
- Before making the appropriate decision enter any additional notes that are applicable and likely to benefit the Credit Hire Organisation or act as a general case note by way of the 'Notes' tab. Please note that notes can be of a private (seen only by internal staff) or public nature (seen by all users of the Credit Hire Organisation and internal staff).
- Whichever decision is reached, a 'Liability Status' must be selected before processing the claim and clicking on one of the buttons.
- If you are rejecting the claim, select a rejection reason using the 'Reason for Rejection' drop down menu and click on the 'Reject button'. Rejection reasons are as follow: 'Indemnity Issues', 'Not Our Policyholder', 'Other', 'Out Of Scope'.
- If you are acknowledging the claim, click on the 'Acknowledge' button (this is not declaration that you are accepting the final hire amount submitted at the invoicing stage by the Credit Hire Organisation).
- If you want to make the decision later, click on the 'Claim Pending' button.
- If you cannot find details of the claim on the internal system, you may wish to send the claim to FNOL for registering. To do so, click on the 'Refer to FNOL' button.
- If you are referring the claim for specialist review, click on the 'Refer To Engineer' button.

4.5 Re-Submitted Claims Awaiting Acknowledgement (Claims Handler, Insurer Admin)

The 'Re-Submitted Claims Awaiting Acknowledgement' work queue contains a list of claims that have previously been rejected to the Credit Hire Organisation by the Insurer. The Credit Hire Organisation has reviewed the claim rejection and has made the decision to contest the claim rejection, with supporting notes accompanied.

- Select each claim in turn from the queue and view the claim details.
- Review the Credit Hire Organisation's notes as to why they are contesting the claim rejection, this may detail that amendments have been made to the claim detail.
- If applicable based on the Credit Hire Organisation's notes, review the claim details held on CHOX against details stored on internal systems.
- Once again, a decision needs to be made at this stage on whether to acknowledge the claim, refer the claim to an Engineer, refer the claim to FNOL, set the claim to claim pending, or reject the claim.
- Before making the appropriate decision enter any additional notes that are applicable and likely to benefit the Credit Hire Organisation or act as a general case note by way of the 'Notes' tab. Please note that notes can be of a private (seen only by internal staff) or public nature (seen by all users of the Credit Hire Organisation and internal staff).
- If you are rejecting the claim again, select a rejection reason using the 'Reason for Rejection' drop down menu, add a note to detail the rejection information and click on the 'Reject' button. Rejection

reasons are follow: Indemnity Issues, Not Our Policyholder, Other, Out Of Scope- add a note to detail the rejection information and click on the 'Reject' button.

- If you are acknowledging the claim, click on the 'Acknowledge' button (this is not declaration that you are accepting the final hire amount submitted at the invoicing stage by the Credit Hire Organisation).
- If you want to make the decision later, click on the 'Claim Pending' button.
- If you cannot find details of the claim on the internal system, you may wish to send the claim to FNOL for registering. To do so, click on the 'Refer to FNOL' button.
- If you are referring the claim for specialist review, click on the 'Refer To Engineer' button.

4.6 Claim Pending (Claims Handler, Insurer Admin)

The 'Claim Pending' queue contains all claims where the claim has been marked as pending in order to wait before making a decision on whether to acknowledge the claim or not. The status of claims in this queue is 'ClaimPending'. The Insurer may wish to mark the claim as pending as the claim has been reviewed, with further information expected so the claim wants to be separated from the 'Claim Awaiting Acknowledgement' queue so that there is no duplication of claim reviews.

- Select each claim in turn from the queue and view the claim details.
- Review the claim details held on CHOX against details stored on internal systems.
- A decision needs to be made at this stage on whether to acknowledge the claim, refer the claim to an Engineer or reject the claim.
- Before making the appropriate decision , check the 'Notes' tab for information added from previous reviews and review the 'Attachments' tab for any supporting documentation that may have been provided.
- Enter any additional notes that are applicable and likely to benefit the Credit Hire Organisation or act as a general case note by way of the 'Notes' tab. Please note that notes can be of a private (seen only by internal staff) or public nature (seen by all users of the Credit Hire Organisation and internal staff).
- If you are rejecting the claim again, select a rejection reason using the 'Reason for Rejection' drop down menu and click on the 'Reject' button.
- If you are acknowledging the claim, click on the 'Acknowledge' button (this is not declaration that you are accepting the final hire amount submitted at the invoicing stage by the Credit Hire Organisation).
- If you are referring the claim for specialist review, click on the 'Refer To Engineer' button.

4.7 Claim Referred To Engineer (Specialist Claims Reviewer, Insurer Admin)

The 'Claims Referred To Engineer' work queue contains a list of claims that have been uploaded by the Credit Hire Organisation, reviewed by a handler and flagged for specialist review.

- Select each claim in turn from the queue and view the claim details.
- Navigate to the 'Notes' tab and review notes as to why the claim has been referred.
- Review the claim details and make notes in the 'Claim Review Notes' field that you wish to keep private from the Credit Hire Organisation.
- If applicable, navigate to the 'Notes' tab and add public notes for the benefit of the Credit Hire Organisation.
- Once you have completed the review process, click on the 'Acknowledge' button to progress the claim without updating the handler/team, or use the 'Update Claims Handler' button to notify a handler/team of the note/action made.

4.8 Claim Updated by Engineer (Claims Handler, Insurer Admin)

Once a claim has been updated by an Engineer, it will appear in the handler's 'Claims Updated by Engineer' queue. The handler will then need to review the notes added by the Engineer and decide at this point whether to reject, acknowledge, refer or await a decision on the claim.

- Select each claim in turn from the queue and view the claim details.
- Navigate to the 'Notes' tab to see what notes have been made by the Engineer.
- A decision needs to be made at this stage on whether to acknowledge the claim, refer the claim back to an Engineer, make the decision later by pending the claim or reject the claim.
- Before making the appropriate decision enter any additional notes that are applicable and likely to benefit the Credit Hire Organisation or act as a general case note by way of the 'Notes' tab. Please note that notes can be of a private (seen only by internal staff) or public nature (seen by all users of the Credit Hire Organisation and internal staff).
- If you are rejecting the claim again, select a rejection reason using the 'Reason for Rejection' drop down menu and click on the 'Reject' button.
- If you are acknowledging the claim, click on the 'Acknowledge' button (this is not declaration that you are accepting the final hire amount submitted at the invoicing stage by the Credit Hire Organisation).
- If you are referring the claim for specialist review again, click on the 'Refer To Engineer' button.
- If you want to make the decision later, click on the 'Claim Pending' button.

4.9 Hire Update Notifications/Warnings (Claims Handler, Insurer Admin)

The 'Hire Update Notifications/Warnings' work queue contains a list of all claims that have had 'fundamental' changes regarding the monitoring of the repair/hire and/or estimated date of completion regarding the vehicle repair. These claims come through into a user's queue as soon as the update is made by the Credit Hire Organisation.

The claims will sit in this queue until one of two things happen. Either, the handler reviews the claim and removes all of the update notifications or the claim is progressed by the Credit Hire Organisation to the status 'AwaitingInvoiceData'.

- Select each claim in turn from the queue and view the claim details.
- The yellow warning box contained within the 'Hire Update/Warning Notification' action panel as shown below in figure 30 displays what type of hire update has occurred against the claim in question.

Figure 30

- Navigate to the 'Hire Monitoring' tab and review the changes made and if applicable the reason why this update has occurred.
- A decision needs to be made as to whether to follow the update up with the Credit Hire Organisation or the repairer. This action is conducted outside of the CHOX system but the Insurer should include any relevant notes to the claim in question using the 'Notes' tab for review purposes at the invoicing stage, these notes should be of a private nature.
- The lifecycle of the claim continues as normal regardless of the Insurer's action, but will enable swift investigation/action to take place.

4.10 Escalated Invoices to Handler (Claims Handler, Insurer Admin)

The 'Escalated Invoices to Handler' work queue contains a list of invoices that have been uploaded by the Credit Hire Organisation and have subsequently failed one or more of the handler type rules/tests as applied in the Business Rules Engine. The handler will need to review the 'History' tab for details on why the claim has failed the business rules and decide on whether to progress the claim for payment, refer the claim to an Engineer or reject the claim back to the Credit Hire Organisation.

- Select each claim in turn from the queue and view the claim details.
- Navigate to the 'History' tab and review which of the business rules have failed.
- Based on the reason(s) for the invoice failure from the Business Rules Engine as detailed on the 'History' tab review the claim and invoice details and any supporting notes detailed on the 'Notes' tab, as well as reviewing any relevant attachments that the Credit Hire Organisation may have supplied.
- A decision needs to be made to reject the invoice, clear the invoice for payment or refer the claim to an Engineer.
- To reject the invoice follow the below steps:
 - Navigate to the 'Notes' tab and add any additional notes as required. If you require sight of the payment pack then you should include this request on the notes tab.
 - On the 'Invoice Escalated To Claim Handler - Action Required' window pane, select the reason for the invoice rejection using the pre-populated 'Reason for Rejection' drop down menu and then click on the 'Reject Invoice' button.
- To accept the invoice follow the below steps:
 - Navigate to the 'Notes' tab and add any notes that may prove useful when making the payment for the claim.
 - On the 'Invoice Escalated To Claims Handler - Action Required' window pane, click on the 'Clear For Payment' button to clear the invoice for payment.
- To refer the invoice to an Engineer, follow the below steps:
 - Navigate to the 'Notes' tab and add any notes for the Engineer to support the referral.
 - On the 'Invoice Escalated To Claims Handler- Action Required' window pane, click on the 'Refer To Engineer' button.

4.11 Invoice Referred by Claims Handler (Specialist Claims Reviewer, Insurer Admin)

When an Invoice has been referred by a handler to an Engineer, it will appear in the 'Invoice Referred by Claims Handler' work queue, with the status 'InvoiceReferredToEngineer'. The Engineer will need to review the 'History' and 'Notes' tabs for details on why the invoice has been referred to them and decide on whether to refer the invoice back to the handler or reject the invoice back to the Credit Hire Organisation.

- Select each claim in turn from the queue and view the claim details.
- Navigate to the 'History' tab and check to see whether any of the applied business rules have failed.
- Navigate to the 'Notes' tab and check to see what information has been added by the handler to support the referral.
- A decision needs to be made to reject the invoice or send the invoice back to the handler.
- To reject the invoice follow the below steps:
 - Navigate to the 'Notes' tab and add any additional notes as required. If you require sight of the payment pack then you should include this request on the notes tab.
 - On the 'Referred Invoice - Action Required' window pane, select the reason for the invoice rejection using the pre-populated 'Reason for Rejection' drop down menu and then click on the 'Reject Invoice' button.
- To refer the invoice back to a handler, follow the below steps:

- Navigate to the 'Notes' tab and add any notes for handler as appropriate.
- On the 'Referred Invoice - Action Required' window pane, click on the 'Refer To Claims Handler' button to send the claim back to a handler.

4.12 Invoice Referred by Engineer (Claims Handler, Insurer Admin)

Once an Engineer has reviewed an invoice and sent it to a handler for review, the status will be 'InvoiceReferredToClaimsHandler' and will appear in the handler's 'Invoices Referred By Engineer' work queue. The handler needs to decide on whether to progress the invoice for payment, refer the invoice back to the Engineer or reject the invoice back to the Credit Hire Organisation.

- Select each claim in turn from the queue and view the claim details.
- Navigate to the 'History' tab and check to see whether any of the applied business rules have failed.
- Navigate to the 'Notes' tab and review any notes added by the Engineer regarding this claim/invoice.
- A decision needs to be made to reject the invoice, clear the invoice for payment or refer the invoice back to an Engineer.
- To reject the invoice follow the below steps:
 - On the 'Invoice Referred By Engineer- Action Required' window pane, select the reason for the invoice rejection using the pre-populated 'Reason for Rejection' drop down menu, add a 'Supporting Rejection Note' and then click on the 'Reject Invoice' button.
- To accept the invoice follow the below steps:
 - Navigate to the 'Notes' tab and add any notes that may prove useful when making the payment for the claim.
 - On the 'Invoice Referred By Engineer- Action Required' window pane, click on the 'Clear for payment' button to clear the invoice for payment.
- To refer the invoice back to an Engineer, follow the below steps:
 - Navigate to the 'Notes' tab and add any notes for the Engineer as appropriate.
 - On the 'Invoice Referred By Engineer- Action Required' window pane, click on the 'Refer To Engineer' button to send the claim/invoice back to an Engineer for further review.

4.13 Contested Invoices Referred To Insurer (Claims Handler, Insurer Admin)

The 'Contested Invoices Referred To Insurer' work queue contains a list of claims that have previously been rejected back to the Credit Hire Organisation by the Insurer. The Credit Hire Organisation has contested the claim/invoice rejection, the claim/invoice may have been amended, a payments pack may have been attached or notes added to the claim.

- Select each claim in turn from the queue and view the claim details.
- Navigate to the 'History' tab and check to see whether any of the applied business rules have failed.
- Navigate to the 'Notes' tab and review notes as to why the Credit Hire Organisation is contesting the claim/invoice rejection.
- Based on the reason(s) for the claim/invoice failure from the Business Rules Engine (if applicable) as detailed on the 'History' tab and the notes supplied by the Credit Hire Organisation, review the claim and invoice details held in CHOX. Review any relevant attachments that the Credit Hire Organisation may have supplied.
- A decision needs to be made to reject the invoice, agree quantum or refer the invoice to an Engineer.
- To reject the invoice follow the below steps:
 - On the 'Contested Invoice - Action Required' window pane, select the reason for the invoice rejection using the pre-populated 'Reason for Rejection' drop down menu, add a relevant 'Supporting Rejection Note' and then click on the 'Reject Invoice' button.

- To accept the invoice follow the below steps:
 - Navigate to the 'Notes' tab and add any notes that may prove useful when making the payment for the claim.
 - On the 'Contested Invoice - Action Required' window pane, click on the 'Agree Quantum' button to approve the invoice values (you will approve the payment later as liability may first have to be agreed).
 - To refer the invoice to an Engineer, follow the below steps:
 - Navigate to the 'Notes' tab and add any notes for the Engineer as appropriate.
- On the 'Contested Invoice - Action Required' window pane, click on the 'Refer To Engineer' button to send the claim/invoice to an Engineer for review.

4.14 Invoices Approved By BRE (Claims Handler, Insurer Admin)

The 'Invoices Approved By BRE' work queue contains a list of claims/invoices that have been uploaded by the Credit Hire Organisation and have subsequently passed all of the tests applied in the Business Rules Engine.

- Select each claim in turn from the queue and view the claim details.
- Navigate to the 'Notes' tab and review to see if there are any significant notes logged against the claim since its origin in CHOX.
- A decision needs to be made to reject the invoice, clear the invoice for payment or refer the invoice for review by an Engineer.
- To reject the invoice follow the below steps:
 - On the 'BRE Approved Claim - Action Required' window pane, select the reason for the invoice rejection using the pre-populated 'Reason for Rejection' drop down menu add a relevant 'Supporting Rejection Note' and then click on the 'Reject Invoice' button.
- To clear the invoice for payment follow the below steps:
 - Navigate to the 'Notes' tab and add any notes that may prove useful when making the payment for the claim.
 - On the 'BRE Approved Claim - Action Required' window pane, click on the 'Agree Quantum' button to approve the invoice values (you will approve the payment later as liability may first have to be agreed).
- To refer the invoice to an Engineer, follow the below steps:
 - Navigate to the 'Notes' tab and add any notes for the Engineer as appropriate.
 - On the 'BRE Approved Claim - Action Required' window pane, click on the 'Refer To Engineer' button to send the claim/invoice to an Engineer for review.

4.15 Approved Invoices Awaiting Liability Resolution

This queue contains Invoices that have been approved however there is still dispute on Liability. Once liability has been agreed, you should select a liability status and click on the 'Update Liability' button.

- Select each claim in turn from the queue and view the claim details.
- A decision needs to be made at this stage on whether to "update liability".
- Before making the appropriate decision, check the 'Notes' tab for information added from previous reviews and review the 'Attachments' tab for any supporting documentation that may have been provided.
- Enter any additional notes that are applicable and likely to benefit the Credit Hire Organisation or act as a general case note by way of the 'Notes' tab. Please note that notes can be of a private nature (seen only by internal staff).

Figure 34

4.16 Escalated Invoices To Supervisor

This queue contains invoices that have either been contested back to the CHO several times or a certain amount of time has passed since invoice upload (configured by CHO Admin on request). This role will usually be assigned to a user with Manager access, thus allowing them to review these claims and consult with the claim handler if necessary.

4.17 Invoices With Final Review

This 'Invoices With Final Review' queue is made up of invoices from the 'Awaiting Liability Resolution' queue where a final review has been taken on the invoice by way of the 'More Actions' dropdown. Invoices can be closed by the CHO if a final negative agreement has been reached. Alternatively, if a positive agreement has been reached the Insurer can update the Liability Stance which will allow payment to be released.

4.18 Approved Invoices Awaiting Payment (Payments Clerk, Claims Handler, Insurer Admin)

The 'Approved Invoices Awaiting Payment' work queue contains a list of claims/invoices that have been reviewed and approved for payment and therefore require payment on the Insurer's internal payment system. The Insurer is required to update CHOX when the payment has been logged on the internal payment system.

- There are two ways to make payments for claims held in CHOX.
- The claim by claim method is as follows:
 - Select each claim in turn from the 'Approved Invoices Awaiting Payment' work queue and view the claim details.
 - Navigate to the 'Notes' tab and review any relevant payment notes that may have been added during the life of the claim in the system.
 - Open your internal payments system and perform a search against the Claim Number in question.
 - Log the payment for the claim in question using the data held on the 'Invoice Details' tab within CHOX.
 - Once the payment has been made on the internal payment system, switch back to CHOX and click on the 'Invoice Payment Logged' button that is located on the 'Invoice ready for payment - Action Required' window pane when viewing the claim detail for the claim in question
 - Once 'Invoice Payment Logged' Button is pressed you can edit payment details or cancel the payment logging. This is shown in the Figure below (Figure 35).
 - Add any supporting notes regarding the payment using the 'Notes' tab.

 Please confirm that the below payment details are correct. If you need to modify the payment details you can do so by clicking on the 'Edit' button. Please note that the figures take into account the agreed liability %.

Penalty Charge

Have penalty charges been paid?: ☒ Yes ☐ No

Payment Details

Hire Gross Paid:	1318.80
Repair Gross Paid:	0.00
Engineer Fee Gross Paid:	60.00
Total Loss Fee Gross Paid:	0.00
Storage Recovery Gross Paid:	122.21
Hire Penalty Charges Paid:	263.76
Repair Penalty Charges Paid:	0.00
Total To Pay:	1764.77
Interim Payments Made:	1501.01
Final Payment:	263.76

Figure 35

Additionally claims can be processed via a bulk update following the below method:

- Click on the hyperlink/queue for 'Approved Invoices Awaiting Payment' (1).
- Tick the box to the left of the 'Supplier Ref' column for all of the claims you want to update (2) (this will turn the selected row(s) blue).
- Click on the 'Batch Update' drop down menu (3).
- Select 'Update Claim(s) To Invoice Payment Logged' (4).

- Once selected, a pop-up message will be displayed (shown in figure 38). To continue, click on the 'OK' button and to cancel, click on the 'Cancel' button.
- This will move all the selected claims to the status 'InvoicePaymentLogged'.

Figure 38

4.19 Manual Invoices Approved By BRE

This queue contains claims uploaded by the Insurer and that have passed the BRE rules.

- If applicable please modify the invoice details to reflect any adjustments made to the invoice following any negotiations made outside of the CHOX process/system.
- Once the payment has been made please click on the 'Insurer Invoice Paid' button.
- If the invoice has been contested with the CHO then click on the 'Invoice Contested With CHO' button to move the claim to a holding status until an agreement has been reached.

Figure 39

4.20 Manual Invoices Rejected By BRE

This queue contains claims uploaded by the Insurer and that have failed the BRE rules.

- If applicable please modify the invoice details to reflect any adjustments made to the invoice following any negotiations made outside of the CHOX process/system.
- Once the payment has been made please click on the 'Insurer Invoice Paid' button.
- If the invoice has been contested with the CHO then click on the 'Invoice Contested With CHO' button to move the claim to a holding status until an agreement has been reached.

4.21 Manual Invoices Contested With CHO

This queue contains claims uploaded by the Insurer and that have been contested to the CHO *outside of the CHOX system*. If applicable please modify the invoice details to reflect any adjustments made to the invoice following any negotiations made outside of the CHOX process/system. Once the payment has been made please click on the 'Insurer Invoice Paid' button.

5 Task Management

As discussed, CHOX allows for specific tasks to be added to a claim which can be assigned both internally (for the Insurer) and externally (for the Credit Hire Organisation). Tasks can also be raised without being attached to a claim, acting as a diary function within the system. This opens up invaluable dialogue in ensuring claims are processed as quickly as possible and all actions/tasks are actioned swiftly and efficiently.

The screenshot displays the CHOX web application interface. The top navigation bar includes links for Home, Settings, Help, Support, About CHOX, and Claims Handler, ABC Insurer (Log Off). The left sidebar contains a list of filters and links for various claim stages, such as 'New Claims To Be Routed (186)', 'Claims Awaiting Acknowledgement (16)', and 'Manual Invoices Contested With CHO (1)'. The main content area features a 'Task Management' section with a table of tasks. The table has columns for Supplier, Due Date, Task Type, Description, Created, and Created By. The tasks listed include '2448639' (Invoice/Payment), 'AIGTA1' (Witness Statement), and '28/08/2013' (Other). A red box highlights the Task Management grid. Below the task grid, there is a 'Queue: Manual Invoices Contested With CHO (1)' section with a table of claims. The footer of the page shows the copyright information: ©2013 Sherwood Technology Solutions Ltd | Copyright | Privacy Policy | Terms of Service.

Below is an explanation of each area of the Task Management Grid:

5.1.1 Supplier Ref

This shows the Credit Hire Organisations reference number, which was submitted when the claim was uploaded into the system. If the task is not linked to a specific claim, then this will be blank.

5.1.2 Due Date

This is the date that the task should be completed by. The system automatically flags when the due date is approaching using a colour coding for quick reference.

- Black text means that the task is in the future and more than one day away.
- Orange text means that the task is due today.
- Red text means that the due date for this task has passed.

5.1.3 Task Type

This is a list of different types of tasks that could be raised within the system. This includes, but is not limited to; requesting payment pack, witness statements, client allegations or appointing an engineer, for example. There is an 'Other' option, should the type of task not be available from the pre-defined list.

5.1.4 Description

This is a free text section which is added on task creation. This allows you to add some extra information about the task to compliment the task type.

5.1.5 Created Date

This is the date that the task was raised within the system.

5.1.6 Created By

This is the user who raised the task. It gives both their full name and what organisation they work for, so it is easy to tell whether it was raised to you internally, or whether it was by the Credit Hire Organisation and therefore external.

5.2 Adding New Tasks

The screenshot displays the CHOX system interface. At the top, there is a navigation bar with links: Home | Settings | Help | Support | About CHOX | Claims Handler, ABC Insurer (Log Off). Below this is a sub-header with tabs: Inbox, Search, Reports, Dashboard, Claim/Invoice Upload. The main content area is divided into two sections. On the left, there is a 'CHO Filter' dropdown set to 'ALL' and a 'Claim Type Filter' dropdown set to 'ALL'. Below these are several links for filtering tasks, such as 'New Claims To Be Routed (186)', 'New Claims To Be Assigned (65)', 'Claims Awaiting Acknowledgement (16)', 'Re-Submitted Claims Awaiting Acknowledgement (0)', 'Claims Pending (0)', 'Claims Updated By Engineer (4)', 'Hire Update Notifications/Warnings (0)', 'Claims Awaiting Hire Monitoring Information (0)', 'Awaiting Invoice Data (0)', 'Invoices To Be Assigned (0)', 'Escalated Invoices To Handler (0)', 'Invoice Referred By Engineer (0)', 'Contested Invoices Referred To Insurer (1)', 'Invoices Approved By BRE (0)', 'Approved Invoices Awaiting Liability Resolution (1)', 'Invoices With Final Review (0)', 'Approved Invoices Awaiting Payment (0)', 'Manual Invoices Approved By BRE (92)', 'Manual Invoices Rejected By BRE (87)', and 'Manual Invoices Contested With CHO (1)'. On the right, the 'Task Management' section is visible. It has a sub-header with buttons: Mark As Complete, Add New Task (highlighted with a red box), Show Completed Tasks, and Show All Tasks. Below this is a table with columns: Supplier, Due Date, Task Type, Description, Created, and Created By. The table contains three rows of task data. At the bottom of the screenshot, there is a 'Queue: Manual Invoices Contested With CHO (1)' section with a 'Batch Update' dropdown and an 'Export To Excel' button. Below this is a table with columns: Supplier Ref, Claim, Claim No, Insurer, Invoice, Status, Total, Workgroup, Ins O, CHO, St, Re, CHO, Insurer, and a final column. The table contains one row of data. At the very bottom, there is a footer with copyright information: ©2013 Sherwood Technology Solutions Ltd | Copyright | Privacy Policy | Terms of Service.

Figure 41

Tasks can be added to the system by clicking on the 'Add New Tasks' button from the Task Management area of CHOX. This will bring up the following 'Add New Task' Box:

The screenshot shows a 'Add New Task' window with the following fields and controls:

- Due Date:** A text input field with a calendar icon on the right.
- Visibility:** A dropdown menu currently showing 'Private'.
- Task Type:** A dropdown menu showing 'Please select a task type...'.
- Description:** A large text area for entering the task details.
- Link To Claim?:** A checkbox that is checked.
- Supplier Reference:** A text input field.
- Buttons:** 'Create' and 'Cancel' buttons at the bottom right.

Figure 42

At this stage, information needs to be added in order to create a task. Below is each of the fields explained and their interdependencies:

5.2.1 Due Date

This is the date that you wish the task to be completed by. This cannot be a date in the past. It is essential that the due date for any task is reasonable and allows the person responsible to have time to complete.

5.2.2 Visibility

The visibility of a task is very important. Tasks can either be Private, Internal or External. Below is an explanation of each:

- **Private Task** – When a task is set to Private, it will only be seen by yourself and will not appear in other user's task grid. It is not mandatory to link a task to a claim and therefore supply a 'Supplier Reference' when the task is Private.
- **Internal Task** – An internal task means that this will be assigned to a specific role within the organisation. If the task is linked to a claim and claim ownership is being used and the 'Claims Handler' role is selected, then the task will go to the claim owner of that claim and only them, otherwise (if claim ownership is not being used) all users with the 'Claims Handler' role will see the task. If a task is not linked to a claim, then the task will go to all users who meet the role type selected.
- **External Task** – An external task should be selected to raise a task for the Credit Hire Organisation to complete. It must be linked to a claim and the system will automatically assign it to the correct user within their organisation.

5.2.3 Visibility Role

This is a field which is hidden until 'Internal Task' is selected from the 'Visibility' option. This allows you to select the most appropriate role internally for the task to be assigned.

5.2.4 Task Type

This is a predefined list of tasks that could be assigned to the claim. If the type of task you require isn't in the list, then you can use the option for 'Other'.

5.2.5 Description

This is a free text area, which allows you to add further information to help aid the user who will need to complete the task.

5.2.6 Link To Claim?

This is a check box, which allows you to specify whether this is a task which should be linked to a particular claim. Linking to a claim is mandatory if it is an external task.

5.2.7 Supplier Reference

This option is only available if the task is to be linked to a claim (see 5.2.6 above). You must give a valid supplier reference number, so that the task can be assigned to that claim.

6. More Actions

Depending on the role of the user and the status of a claim, a 'More Actions' drop down menu will be available to a user in order to allow them certain functionality that is relevant to them. The 'More Actions' drop down menu is located below the 'Claim Summary' pane as shown in figure 43 below.

The 'Claim Summary' pane displays the following information:

Third Party Insurer: ABC Insurer	Credit Hire Organisation: ABC CHO	Created By: Claims Handler (ABC CHO)
Supplier Reference: CHOX112240	Insurer Claim Number: 993354	Created On: 26 May 2010 16:09
Customer: Mr James Jackson	Current Status: ClaimUnacknowledgedRouted	Customer Contact Date: 01 Jan 2008 00:00
Claim Owner: Claims Handler	Workgroup: Workgroup 1	Supplier Claim Owner
Liability Status	Percentage Liability Agreed (Insurer): 0%	Percentage Liability Agreed (CHO): 0%
Liability Agreed Date	Indemnity Value: £0.00	

At the bottom of the pane, there is a link '[Back to Search Results](#)', a dropdown menu labeled '-- More Actions --' (highlighted with a red box), and a link '[Export Claim To Excel](#)'.

Figure 43

There are several different actions that can be performed within the 'More Actions' drop down menu, as stated above this is dependent on the role of the user and the status of the claim.

6.1 Update Workgroup/Claim Owner (Insurer Admin, Claim Ownership Manager)

Updating the claim ownership allows the Claim Ownership Manager to remove the current owner and re-assign the claim to another handler, even if the handler is assigned to a different workgroup. This can be achieved by using the screen as shown in figure 44 below.

The 'Update Workgroup/Claim Owner - Action Required' screen contains the following elements:

- An information icon and a text box stating: "Update the Workgroup or Claim Owner by using the drop down menus provided below, selecting a Workgroup will determine which Claims Handlers are displayed in the Claim Owner drop down menu."
- A 'Workgroup' dropdown menu currently set to 'Workgroup 1'.
- A 'Claim Owner' dropdown menu currently set to 'Handler Claims'.
- An 'Update' button.

Figure 44

6.2 Re-Assign Workgroup (Insurer Admin, Claim Ownership Manager)

CHOX uses an automatic routing system (assigning the claim to a workgroup) for when a claim is uploaded by a Credit Hire Organisation as described in section 4.1. It is possible that a claim could be assigned to the incorrect workgroup through this automatic routing or indeed a user could manually assign a claim to a workgroup incorrectly. If it is discovered that a claim should have gone to a

different workgroup, a Claim Ownership Manager will be able to use the 'More Actions' drop down menu and select 'Re-Assign Workgroup'. Once this option has been selected from the drop down menu the following screen will appear and the Claim Ownership Manager will then be able to re-assign the claim to the correct workgroup from the list of available workgroups.

Figure 45

6.3 Update Insurer Claim Number (Insurer Admin, Claims Handler)

If a claim has been assigned an incorrect claim number, CHOX allows for a Claims Handler to update the claim number within CHOX.

To update the claim number, click on the 'More Actions' drop down menu and select 'Update Insurer Claim Number'. The screen as shown in figure 46 below will be displayed.

Figure 46

The user can then edit the claim number from within the 'Claim Number' field and save the changes by clicking on 'Update Claim Number' button.

6.4 Flag Claim For Review At Invoice Stage:

The handler can review the claim before it is invoiced. By clicking the "Flag Claim For Review At Invoice Stage" Button, this will flag the invoice for review regardless of the Business Rules Engine outcome. As shown in the figure below. (Figure 47)

Claim Summary		
Third Party Insurer: ABC Insurer	Credit Hire Organisation: XYZ CHO	Created By: Admin Chox (XYZ CHO)

Figure 47

6.5 Update Liability (Insurer Admin, Claims Handler)

By clicking on the 'Update Liability' option from the 'More Actions' drop down menu, an action panel will appear below, allowing you to update liability for the claim in question.

- Select the new liability status from the 'Liability Status' drop down menu (1).
- Change the 'Liability Percentage Agreed' fields if required (the sum of both fields must not exceed 100%) (2).
- Add any relevant notes in the 'Claim Review Notes' text box (3).
- Click on the 'Update Liability' button to save the new liability status (4).

6.6 Make Interim Payment (Insurer Admin, Claims Handler)

Once the Invoice has been submitted, you have the ability to make an interim payment towards the total value of the invoice. This can be found by clicking on the 'Make Interim Payment' option from

the 'More Actions' drop down menu. When selected, an action panel will appear below, allowing you to add an amount that will be paid prior to full settlement being made.

The screenshot displays the CHOX Claims Handler interface. At the top, the CHOX logo is on the left, and a navigation bar contains links: Home | Settings | Help | Support | About CHOX | Claims Handler, ABC Insurer (Log Off). Below this is the 'Claim Summary' section, which is a table with three columns. The first column lists details about the third party insurer (ABC Insurer), supplier reference (AIGTA1006), customer (Mr Andy Samwell), claim owner (Claims Handler), liability status (Full Liability Accepted), and liability agreed date (23/05/2011). The second column lists details about the credit hire organisation (XYZ CHO), insurer claim number (9878910006), current status (ContestedInvoiceReferredToInsurer), workgroup (Workgroup 2), percentage liability agreed (100.00%), and indemnity value (£0.00). The third column lists details about the claim creation (Admin Chox, 23 May 2011 10:27), customer contact date (01 Mar 2011 13:00), supplier claim owner, percentage liability agreed (CHO) (0.00%), and claim type (GTA). Below the summary table are three links: « Back to Search Results, a dropdown menu for 'Make Interim Payment', and 'Export Claim To Excel'. Below these links is the 'Make Interim Payment' form, which includes a text box for 'Interim Payment Amount' with a red asterisk, a £ symbol, and a 'Confirm Interim Payment' button.

Make Interim Payment

Interim Payment Amount * £ Confirm Interim Payment

Figure 49

- Click in the 'Interim Payment Amount' text box as shown above (1).
- Put in the value of the interim payment that is to be made without the £ sign. For example 100.
- Click on the 'Make Interim Payment' button (2).
- This amount will now appear on the 'Invoice' tab for this claim, as shown below (3).
- Notice that this is currently marked as '(Not Yet Received)'. The CHO must register on the system that they have received this amount, and then this marker will disappear.

7 Miscellaneous Features

7.1 Revert Status Button

When the claim is of a certain status, a button labelled 'Revert Status' will become available located on the 'Claim Summary' pane as shown in figure 51 below.

CHOX			Home Settings Help Support About CHOX Claims Handler, ABC Insurer (Log Off)
Claim Summary			
Third Party Insurer	ABC Insurer	Credit Hire Organisation	CCL Vehicle Rentals Ltd
Supplier Reference	233090521	Insurer Claim Number	HV100104036E
Customer	MRS Mary Byron	Current Status	InvoicePaymentLogged
Claim Owner	Claims Handler	Workgroup	Workgroup 2
Liability Status	Full Liability Accepted	Percentage Liability Agreed (Insurer)	100.00%
Liability Agreed Date	28/08/2013	Indemnity Value	£0.00
Created By	Claims Handler (CCL Vehicle Rentals Ltd)	Created On	27 Jul 2010 15:39
Customer Contact Date	06 Mar 2010 13:40	Supplier Claim Owner	
Percentage Liability Agreed (CHO)	0.00%	Claim Type	GTA
			Revert Status
Back to Search Results -- More Actions -- Export Claim To Excel			

Figure 51

When this button is clicked, the status of the claim will change back to the previous status, if we were to take the example above for figure 41, the current status of the claim is 'InvoiceReferredToEngineer', clicking on the 'Revert Status' button will take the claim back to the previous status, in this case 'InvoiceEscalatedToHandler'.

7.2 Export Claim To Excel Hyperlink

When you open the details of a claim, you will see that there is a hyperlink labelled 'Export Claim To Excel', when this hyperlink is clicked, all of the details of the claim you currently have open will be exported into a Microsoft Excel file, to open the Microsoft Excel report click on the 'Open' button and to save the Microsoft Excel report click on the 'Save' button and choose a location of where to save the report and click on the 'Save' button.

7.3 Back To Search Results Hyperlink

When you open the details of a claim, you will see that there is a hyperlink labelled 'Back To Search Results', when this hyperlink is clicked you will be taken back to the screen/menu you were on before you opened the claim. For example, if you performed a search and opened a claim from the list of search results, clicking on the 'Back To Search Results' hyperlink would take you back to the search results on the 'Search' screen.

8. Inbox Report Extracts

It is possible to export details of all the claims that appear in the 'Claims Overview Grid' for your inbox. To run this export, you must:

- Navigate to the work queue that you wish to run a Microsoft Excel report extract for.
- Click on the 'Export To Excel' button located at the bottom right hand corner of the 'Claims Overview Grid' as shown by the red box in figure 52 below.

The screenshot displays the CHOX Claims Handler interface. The top navigation bar includes 'Inbox', 'Search', 'Reports', 'Dashboard', and 'Claim/Invoice Upload'. The left sidebar lists various claim filters and counts, such as 'New Claims To Be Routed (186)', 'New Claims To Be Assigned (65)', and 'Claims Awaiting Acknowledgement (16)'. The main area is titled 'Task Management' and contains a table of tasks. The 'Export To Excel' button is highlighted with a red box in the top right corner of the task management section. Below the task table, there is a 'Claims (0)' section with a 'Batch Update' dropdown and an 'Export To Excel' button. The bottom of the page shows a 'Page 1 of 1' indicator and a 'No claims to display' message.

Figure 52

- A pop-up screen will appear asking you whether you would like to save or open the file.
- To open the Microsoft Excel report click on the 'Open' button.
- To save the Microsoft Excel report follow these steps:
 - Click on the 'Save' button.
 - Choose a location of where to save the report and click on the 'Save' button.

8.1 Search Screen Extracts

If you need to export a more meaningful list of claims from the system, then the use of the 'Search' function is required:

- As discussed in section 3.2.5 perform the search criteria you desire.
- A list of claims that meet the search criteria will be displayed in the 'Claims Overview Grid'.
- The list of claims can then be exported by clicking on the 'Export To Excel' button located in the bottom right-hand corner of the 'Claims Overview Grid'.
- Perform the necessary steps to open or save the Microsoft Excel spreadsheet as detailed in section 8 above.

9 Reports

CHOX has an in built reporting module that allows a user to review performance against a specific Credit Hire Organisation, group of Credit Hire Organisation's, across specific dates and other parameters that are of interest. The reporting module can be accessed via the 'Reports' tab, a

selection of 'out of the box' reports are provided as shown in figure 53 below, the list of reports displayed will vary according to the role of the user.

Figure 53

To access a report, click on the report name that you wish to run. Clicking on each report will display a brief summary of what the report is set out to achieve in the right hand window pane of the 'Reports' tab as shown in figure 54 below. Below this brief summary are the report parameters which allow the report in question to meet your specific requirements. Clicking on the 'Generate Report' button will run the report.

Figure 54

The report output is generated using Microsoft Excel; choose either to open the file directly in Microsoft Excel, or save the file to your PC/network, where it can then be accessed at a later date.

10 Help and Support

10.1 Help Link

Your home page includes a link to this user guide in the top right-hand corner of the screen labelled 'Help' as shown in figure 55 below.

Figure 55

10.2 Support Link

Your home page includes a link to the CHOX Support Procedure, including hours of operation, contact details and the support protocol and the CHOX Online Support Form. Hovering the mouse cursor over the 'Support' link as shown in figure 56 below will enable both of these options.

Figure 56

Clicking on the 'Online Support Form' option will launch the Online Support Form in a separate window as shown in figure 57 below. There are three fields which require an entry:

- **Supplier Reference** – This is the Credit Hire Organisation's claim reference number and the Supplier Reference as held in the system that the support request relates to.
- **Subject** – A short description of the support request.
- **Message** – A detailed message regarding the support request so that the CHOX support team can follow up the request in the most efficient and effective manner. Contact details should be included as part of this message.

The screenshot shows the 'Online Support Form' interface. It has a light blue background. At the top left, it says 'Online Support Form'. Below this, there are three input fields: 'Supplier Reference' (a single-line text box), 'Subject' (a single-line text box with a red asterisk), and 'Message' (a multi-line text area with a red asterisk). At the bottom right, there is a 'Submit' button.

Figure 57

11 Administration

The administration function is only available to users who have the right privileges and are registered in the system with Insurer Managers for the 'CHOX Administration' area or User Manager for the 'User Management' section. Of course a single user could be responsible for both areas so would have both roles assigned. This role based security allows only those users that require administrative rights access to password information, control users within the Organisation and their respective privileges as well as management of the business rules held within CHOX.

The CHOX administration function can be accessed by clicking on the 'Admin' tab. Clicking on the 'Admin' tab will display the 'Admin Panel' as shown in Figure 58 below.

Figure 58

The user is presented with two menu options, 'CHOX Administration' or 'User Management'.

The 'CHOX Administration' section allows the user to add Workgroups, manage the business rules and the mapping of these to Credit Hire Organisations and also the control of Hire Net and Repair Net ceilings for specific vehicle classes. The 'User Management' section allows the user to add new users, assign roles to users, modify user details and assign users to Workgroups. Both the 'CHOX Administration' and 'User Management' sections of the 'Admin Panel' are described in more detail below.

11.1 CHOX Administration Section

Clicking on the 'CHOX Administration' hyperlink, will display a number of further tab options in the right hand window pane as shown in figure 59 below.

Figure 59

11.1.1 Workgroups Tab

The 'Workgroups' tab is the first tab within the 'CHOX Administration' section. Workgroups are used to separate claims out to different parts of the business, this separation could be driven by geographical sites, business areas/lines or simply different teams within the Organisation. Workgroups are designed to ensure that claims go to the correct handlers as quickly as possible. Workgroups that are added will appear in the list of available Workgroups in order to route claims as described in section 4.1.

11.1.1.1 Adding a new Workgroup

To add a new Workgroup, follow these steps:

- Click in the 'Workgroup' text box and give the new Workgroup a name.
- Click in the 'Site' text box and give the Workgroup a site or location.
- Click in the 'Team' text box and give the Workgroup a team name.
- Click on the 'Add' button.
- This will add the Workgroup to the current list of existing Workgroups.

11.1.1.2 Edit an existing Workgroup

The user has the ability to make a Workgroup active or inactive and also remove the Workgroup completely from the system.

To make a Workgroup active/inactive:

- Click on the Yes/No hyperlink located in the 'Active' column which corresponds to Workgroup that you would like to make active/inactive.
- If you wish to make the Workgroup active, click on the 'No' hyperlink and this will automatically change the hyperlink to be 'Yes'.
- If you wish to make the Workgroup inactive, click on the 'Yes' hyperlink and this will automatically change the hyperlink to be 'No'.

Removing a Workgroup from the system completely is an available option. Please note, if there is a claim assigned to the Workgroup you are trying to remove, you will not be able to remove the Workgroup.

To remove the workgroup:

- Click on the 'Remove' hyperlink from the 'Action' column for the Workgroup you wish to remove.
- The system will remove the Workgroup and will notify the user that the Workgroup has been deleted successfully.

11.1.2 BRE Band Tab

The Business Rules Engine is a set of predefined rules that are automatically applied when an invoice is submitted into the system by a Credit Hire Organisation, the validation of the invoice will generate one of four results as described in section 8, which will in turn affect where the claim/invoice is routed to.

Tolerances against the majority of the rules are available which allow an Insurer to more effectively manage the Credit Hire Organisations who are submitted invoices into the system. The rules and tolerances are fully customisable per Credit Hire Organisation or a set of bands can be created where the Insurer can assign Credit Hire Organisation's to a band.

The 'BRE Band' tab is the second tab in the 'CHOX Administration' section and will display the current BRE Bands set up (if any) in a table as shown in figure 60.

Admin Panel

[CHOX Administration](#)
[User Management](#)

Insurer Name: ABC Insurer

Workgroups **BRE Band** BRE Band Mapping Vehicle Class Ceilings Discounts

The BRE tolerances/variable values are controlled here as well as which rules are turned on/off for the particular BRE Band being created/modified. BRE Bands can be created specific to each CHO, or CHOs can be grouped into a single BRE Band and therefore share the same tolerances/variables as well as which rules are executed when the CHO submits an invoice.

[Add New Band](#)

Insurer	Band	Created By	Created Date
ABC Insurer	Good CHOs	Chox, Admin	29/03/2010 11:15

Figure 60

The user has the ability to add a new BRE Band by clicking on the 'Add New Band' button or edit an existing BRE Band by clicking on the hyperlink in the 'Band' column of the table.

11.1.2.1 Adding a new BRE Band

To get started on adding a new BRE Band, the user must click on the 'Add New Band' button as located in right hand corner of the 'BRE Band' tab.

This will bring up the following form, which must be completed by the user. This form contains the name of the BRE Band, the tolerance values for the business rules and the ability to switch on/off each of the rules available in CHOX.

Admin Panel

[CHOX Administration](#)

Figure 61

Mandatory fields

The BRE Band tab needs to be completed in full in order to save the new BRE Band. Entries are required against each of the fields indicated by a red asterisk (*) next to the text label of the relevant field.

Grey text boxes are non-editable and are populated automatically using values entered against the corresponding white editable field. The editable field for the tolerance in question will be displayed above any of the non-editable corresponding fields. For example the editable field of 'Take Mobile Vehicle To Garage Variable (Days)' as shown in figure 62 below will be displayed above any other field labelled in the same way and these fields that follow will be greyed out as shown in figure 63 below.

Take Mobile Vehicle To Garage Variable (Days) * 1

Figure 62

Take Mobile Vehicle To Garage Variable (Days) 1

Figure 63

Some fields are non-editable and are greyed out because they represent the total tolerance allowed for a specific rule based on the addition of all the tolerances that contribute to the business rule in question.

Additional Invoice Validations Section

Located at the bottom of the 'BRE Band' tab is the 'Additional Invoice Validations' section, this section displays all of the business rules performed as part of the validation exercise when a Credit Hire Organisation uploads an invoice, along with a tick box against each rule in order to control whether the rule is on or off. Each rule has a description underneath of what validation check is performed and should only be selected (tick box checked) if it is desired that this check is carried out when an invoice is uploaded.

Saving Changes

Once all of the boxes have been populated, the user can save the new BRE Band by clicking on the 'Save Changes' button located at the top of the screen. The user can also choose to discard any changes by clicking on the 'Cancel' button at any time or the 'Delete' button.

11.1.3 BRE Band Mapping Tab

Once a BRE Band has been created, a Credit Hire Organisation needs to be assigned to the newly created BRE Band through the interface shown in figure 64 below, please note that more than one Credit Hire Organisation can be assigned to one BRE Band.

Workgroups | BRE Band | BRE Band Mapping | **Vehicle Class Ceilings**

The maximum ceiling limits for both the Hire Net and Repair Net for the specific vehicle classes is managed here. If a CHO submits an invoice where the Hire Net or Repair Net value(s) exceed the values held in the below table for the specific vehicle class in question, (non-fault vehicle's vehicle class) then the rule will fail.

Vehicle Class Ceiling

Vehicle Class -- Please Select --

Hire Net Ceiling 0.00

Repair Net Ceiling 0.00

[Add New Vehicle Class](#)

Vehicle Class	Hire Net Ceiling	Repair Net Ceiling
---------------	------------------	--------------------

Figure 69

The required vehicle class information needs to be inputted in the fields as indicated by the red box in figure 69 above. Below is a brief description on each of these fields:

Vehicle Class – This is a list of all the vehicle classes available within CHOX. Selecting a vehicle class from the list will mean that the 'Hire Net Ceiling' and 'Repair Net Ceiling' values entered will be attributed to the selected vehicle class.

Hire Net Ceiling – The maximum Hire Net value allowed for an invoice with the selected vehicle class (vehicle class of non-fault party).

Repair Net Ceiling – The maximum Repair Net allowed for an invoice with the selected vehicle class (vehicle class of non-fault party).

Once these fields have been populated, click on the 'Add New Vehicle Class' button. The vehicle class entry along with the values entered will be displayed in the 'Vehicle Class Ceiling' table as shown in figure 70 below.

Repair Net Ceiling: 1500

[Ok](#) [Close](#)

Figure 71

Edit the current values, clicking on the 'Ok' button to save the changes and clicking on the 'Cancel' button to discard changes made.

A vehicle class ceiling can be removed by clicking on the 'Remove' hyperlink next to the relevant vehicle class that is to be removed.

11.2 Administration: User Management Section

Clicking on 'User Management' hyperlink from the 'Admin Panel' section, will display a list of all registered CHOX users within your Organisation as displayed below in Figure 72.

Figure 72

This 'User Management' table allows you to view details about each of the registered users, with the ability to modify these settings or include additional details. Below details what each of the columns represent and other functions available on this screen:

- **User Name** – This is the user's Username and is to be used when logging into CHOX. The User Name also acts as a hyperlink that will take you to the specific user's details screen.
- **Name** – The full name of the user (first and last names).
- **Email** – This is the user's email address and is used when sending out any communications by the CHOX Support Team.
- **Organisation** – This is automatically pre-populated to be the name of the Organisation to which the user is registered against.
- **Active** – This is an active status setting, which can be modified on a per user basis. If you do not want a particular user to have the ability to log into CHOX, you can click on the 'Yes' hyperlink highlighted in blue on the user's corresponding line, changing the hyperlink to 'No', in effect making the user inactive on the CHOX system. Clicking on the 'No' hyperlink will reverse the process and make the user active on the system. Each time you click on this hyperlink, a warning box will be displayed, requiring you to accept or cancel the request as shown in figure 73 below.

Figure 73

- **Role** – Displays which role(s) the user has been assigned. The role assigned will affect which work queues are visible, which tabs are visible as well as dictating the read/write access the user has throughout the claim lifecycle.
- **Password Expired?** – The Insurer Manager role has the ability to force a user to change their password when they next log in to the system. Clicking on the 'No' hyperlink in the 'Has Password Expired?' column will change the hyperlink to 'Yes', next time the user logs into the system they will be forced to change their password. Before the password can be set to expired, the system asks you to confirm that you wish to perform this action. This can be seen below in Figure 74.

Figure 74

Clicking on the 'Yes' hyperlink will reverse the process and set the value of the hyperlink to 'No'.

- **User Roles (Drop Down Box)** – By clicking on the downward arrow in the drop down box, the Insurer Manager can filter the list of registered users by their role, with the default view being all roles.
- **Add New User (Button)** – The 'Add New User' button should be used when there is a requirement to add a new user, more details on this can be found in section
- **Hide Inactive Users**– By clicking on this button, all inactive users will be hidden from the user list

11.2.1 Adding a New User

To add a new user, click on the 'Add New user' button, the 'User Detail' tab will appear as shown in figure 75 below.

Figure 75

11.2.1.1 User Management: User Detail Tab

In order to set up new users, the Insurer Manager is required to fill in the above form with information about the individual being registered. Any field that has a red asterisk (*) next to it indicates a mandatory field and therefore cannot be left blank. Below is a brief explanation of each field that appears on this form:

- **Organisation Type** – This will always be pre-defined as Insurer Organisation Users.
- **Username** - This will be the username that the user will use for logging into the CHOX.
- **Email** – This is the user's email address.
- **First Name** – The first name of the user that is being registered.
- **Last Name** – The surname of the user that is being registered.
- **Password** – This is the password the user will use to log onto CHOX. Passwords are case sensitive, must be at least 6 characters, must contain at least one lower case letter, one upper case letter, and one number. If the password does not meet this criteria, you will be prompted to re-enter the password.
- **Re-enter password** – This must be the same password that is entered into the Password box above. This is a security check to ensure that the password chosen is the desired one.
- **Active (Tick Box)** – The 'Active' tick box can be either checked or left unchecked. By checking the box, you make this user's account live enabling the user instant access to the CHOX system. If the 'Active' tick box is left unchecked then the user will not be able to log in to the system using these credentials.
- **Save Changes (Button)** – The 'Save Changes' button should be clicked once all of the mandatory fields have been completed. If the user setup is successful you will be notified of such. If for any reason there has been an error, a useful error message will be displayed indicating what changes need to be made in order to create the user.
- **Cancel (Button)** – The cancel button will abandon any changes made and will take you back to the 'User Management' overview screen.

11.2.1.2 User Management: Change Password Tab

Once a new user has been added and the 'Save Changes' button has been pressed (see 12.2.1 Adding a New User for more information) the user tabs will be active, as shown in Figure 76 below:

The screenshot shows the 'Admin Panel' on the left with links for 'CHOX Administration' and 'User Management'. The main area is titled 'User Name: handler2 (Handler Two)' and contains four tabs: 'User Detail', 'Change Password', 'User Roles', and 'Workgroups'. The 'User Detail' tab is selected and highlighted with a red box. Below the tabs, the form displays the following information:

- Organisation Type: Insurer Organisation Users
- Company Name: ABC Insurer
- User Name*: handler2
- Email*: handler2@abc.com
- First Name*: Handler
- Last Name*: Two
- Contact Telephone: (empty field)
- Active: ☒

At the bottom of the form are two buttons: 'Save Changes' and 'Cancel'.

Figure 76

Clicking on the 'Change Password' tab will bring up the following screen, as shown below in figure 77:

Figure 77

- **Password** – This is the password the user will use to log onto CHOX. Passwords are case sensitive, must be at least 6 characters, must contain at least one lower case letter, one upper case letter, and one number. If the password does not meet this criteria, you will be prompted to re-enter the password.
- **Re-enter password** – This must be the same password that is entered into the Password box above. This is a security check to ensure that the password chosen is the desired one.

11.2.1.3 User Management: User Roles Tab

Clicking on the 'User Roles' tab will bring up the following screen, as shown below in figure 78.

Role	Created By	Created Date
Insurer Claim Handler	Insurer Admin	21/04/2010 14:48:50

Figure 78

Below is a brief explanation of the 'User Role' tab:

- **Add New Role Drop Down Menu** – This has a list of the roles available for this user.
- **Add New Role (Button)** – Once the role has been chosen from the drop down menu, the Insurer Manager must click on the 'Add New Role' button to add the User to that role group. This will then be seen in the table underneath, as shown in figure 79 below.

Role	Created By	Created Date	
Insurer Claim Handler	Insurer Admin	21/04/2010 14:48:50	Remove

Figure 79

User Roles table/grid descriptions:

- **Role** – The 'Role' column shows what roles are assigned to the user.
- **Created By** – This is the Insurer Manager who has assigned the role to the user.
- **Created Date** – The time and date that this role was assigned to the user.
- **Remove** – The 'Remove' text is a hyperlink that enables the Insurer Manager the ability to remove a role that has been assigned to a user. When this hyperlink is clicked, you will be asked to confirm whether you wish to remove the role assignment for the user in question as shown in figure 80 below.

Figure 80

11.2.1.4 User Management: Workgroups Tab

The 'Workgroups' tab is only enabled when a user has been assigned the role Claims Handler and/or Claims Ownership Manager. The 'Workgroups' tab allows the Insurer Manager to assign users to Workgroups within which they work. Clicking on the 'Workgroups' tab will display the screen as shown in figure 81 below.

Figure 81

- **Add New Workgroup Drop Down Menu** – This has a list of the Workgroups available, this list will be based on the Workgroups that have been setup using the 'Workgroups' tab as described in section 12.1.1.1.
- **Add New Workgroup (Button)** – Once the Workgroup has been chosen from the drop down menu, the Insurer Manager must click on the 'Add New Workgroup' button to add the User to that Workgroup. This will then be seen in the table underneath, as shown in figure 82 below.

Figure 82

Workgroups table/grid descriptions:

- **Workgroup** – Name of the Workgroup assigned to the user.
- **Created By** – This is the Insurer Manager who has assigned the Workgroup to the user.
- **Created Date** – The time and date that this Workgroup was assigned to the user.
- **Remove** – The 'Remove' text is a hyperlink that enables the Insurer Manager the ability to remove a Workgroup that has been assigned to a user. When this hyperlink is clicked, you will be asked to confirm whether you wish to remove the Workgroup assignment for the user in question as shown by figure 83 below.

Figure 83

11.2.1.5 User Management: Editing an Existing User

Once a user has been created, you can click on the user's email hyperlink underneath the column headed 'Email' on the 'User Management' overview screen (figure 84 below) and change certain details relating to the individual user as described in the section 12.2.1.1.

Appendix A – Claim Status Explained

A claim will always have a specific status throughout its life in CHOX. The behaviour of the claim and thus the behaviour of the user experience are directly affected by the status of the claim.

There are two areas in the system that allows you to see the status of a claim at any given point in time. The first is on the 'Claims Overview Grid' as shown by the red box in figure 85 below.

Figure 86

There are a number of statuses for a claim, below is a list of all possible statuses with a brief description of each.

- **AwaitingCarHireInfo** – It is the Credit Hire Organisation's duty when the status is 'AwaitingCarHireInfo' to update the required fields on the 'Hire Monitoring' tab throughout the duration of the hire. Invoice details cannot be uploaded against a claim until the required fields have entries against them.
- **AwaitingInvoiceData** – This status indicates that the Credit Hire Organisation has entered the required fields on the 'Hire Monitoring' tab and thus the Credit Hire Organisation can upload invoice details against the claim, indicating that the hire vehicle has been off-hired.
- **AwaitingInvoicePayment** – This status indicates that the Insurer has made the decision to approve the claim/invoice for payment. The Insurer has an action to make a payment against the claim using the Insurer's internal payment system; once this payment has been made the Insurer is required to update the status in CHOX. The Insurer should enter notes against the claim for the Credit Hire Organisation's benefit regarding any important payment information.
- **AwaitingLiabilityResolution** – This status indicates that the Insurer has cleared the claim for payment and approved the claim on a quantum basis, however liability is yet to be agreed, the claim will sit in the status, effectively acting as a holding queue until the point liability is agreed/resolved/repudiated between the Credit Hire Organisation and Insurer.
- **AwaitingLitigationOutcome** – This status indicates that the CHO has made the decision to move this claim is in a pending state until a litigation outcome has been reached.
- **ClaimClosed** – This status indicates that the Credit Hire Organisation has removed the claim from CHOX; this is the end of the claim's life in the system.

- **ClaimPending** – This status indicates that the Insurer is awaiting further information in order to make a decision on whether to acknowledge or reject the claim, in most instances the Insurer is awaiting further information from their policyholder, the at-fault driver.
- **ClaimReferredToEngineer** – This status indicates that the claim has been sent to the Insurer's motor engineers to review the claim/invoice details and make appropriate recommendations/actions. The motor engineer will make any notes on the 'Notes' tab for the purposes of the Credit Hire Organisation and/or the claims handler or for when the Insurer is reviewing the claim at the invoicing stage of the claim lifecycle.
- **ClaimReferredToFNOL** – If the at-fault driver has not registered the claim with their Insurer, the claim is referred to the first notification of loss (FNOL) team to register the claim. Once the claim has been registered the claim is sent to the relevant claims handling team/claims handler for review.
- **ClaimRejected** – This status requires action by the Credit Hire Organisation as to the Insurer's decision to reject the claim in question. The Credit Hire Organisation will need to either accept the Insurer's decision to reject the claim or contest the Insurer's decision to reject the claim. Supporting notes should be added regardless of the decision reached. The Credit Hire Organisation has the ability to amend the details held on the 'Claim Details' tab before contesting the Insurer's decision, notes should be added to the claim to inform the Insurer of any changes made.
- **ClaimRejectionAccepted** – This status indicates the end of the life of the claim in question as the Credit Hire Organisation has accepted the Insurer's decision to reject the claim, no further action is required by either the Insurer or the Credit Hire Organisation, and relevant notes should be added by the Credit Hire Organisation.
- **ClaimRejectionContested** – This status indicates that the Credit Hire Organisation has contested the Insurer's decision to reject the claim. The Insurer will have an action to review the contested claim and any supporting notes that may have been added and make a decision again on whether to acknowledge or reject the claim providing supporting notes/comments where applicable.
- **ClaimUnacknowledgedUnassigned** – This status only applies to those Insurers that are using claim ownership. Once a claim has been routed to the correct workgroup, it needs to be assigned to a claims handler. The Insurer will allocate a claim to the relevant claim owner, changing the status to ClaimUnacknowledgedRouted.
- **ClaimUnacknowledgedUnrouted** – This status refers to all new claims that have been uploaded into CHOX at the first notification stage and are yet to be routed to the relevant claims handling team within the Insurer.
- **ClaimUnacknowledgedRouted** – This status refers to claims that have been routed to the relevant claims handling team/claims handler within the Insurer. The Insurer has an action at this stage to review the claim details against details registered on internal systems and make a decision on whether to acknowledge or reject the claim, adding any notes as required and/or details regarding the claim acceptance/rejection, specifically details regarding liability and indemnity.
- **ClaimUpdatedByEngineer** – This status indicates that an Insurer's motor engineer has reviewed the claim details, added any relevant notes and sent the claim to the relevant claims handler(s) to follow up/action the claim.
- **ContestedInvoiceReferredToCHO** – This status indicates that the Insurer has escalated the claim to the Credit Hire Organisation with supporting notes on why this decision has been made. The Credit Hire Organisation is required to review any Insurer notes, and make a decision on whether to accept the claim/invoice rejection or contest the claim/invoice rejection. If the Credit Hire Organisation makes the decision to accept the claim/invoice rejection then supporting notes should be made. If the Credit Hire Organisation makes the decision to contest the claim/invoice rejection then the Credit Hire Organisation needs to make any necessary changes to the claim/invoice details and/or attach a payment pack/file if required and/or add a note to the claim and then re-submit the claim into the Business Rules Engine.
- **ContestedInvoiceReferredToInsurer** – This status indicates that the Credit Hire Organisation has received a claim previously in the state of 'ContestedInvoiceReferredToCHO' made any necessary amendments and re-submitted the claim into the Business Rules Engine and now it is back with

the Insurer for review. The Insurer will review any new notes from the Business Rules Engine as well as the historic notes from previous Business Rule Engine tests, and if applicable Credit Hire Organisation's notes and/or the attached payment pack/file will be reviewed. The Insurer is required to make a decision on whether to approve the invoice or escalate the claim/invoice back to the Credit Hire Organisation.

- **InvoiceApprovedByBRE** – This indicates that all of the details regarding the invoice and the claim pass through the Business Rules Engine and there are no flags on the claim prompting the Insurer to manually review the claim. The Insurer is still required to approve the invoice for payment or to reject the claim/invoice back to the Credit Hire Organisation.
- **InvoiceDataCalculationIncorrect**- This status indicates that the Credit Hire Organisation has made fundamental calculation errors in the invoice data uploaded. The Credit Hire Organisation will be presented with details via the 'Remark' column on the XML upload screen and on the 'History' tab. The Credit Hire Organisation will need to make the necessary amendments to the 'Invoice Details' tab and re-submit the claim.
- **InvoiceEscalated** – This status indicates that there are certain details within the submitted claim/invoice that the Insurer's motor engineers would like to review before making a decision on whether to reject the claim/invoice or refer the claim/invoice to a handler. The Credit Hire Organisation is not required and cannot make any changes to the claim during this status.
- **InvoiceEscalatedToHandler** - This status indicates that there are certain details within the submitted claim/invoice that the Insurer's claims handlers would like to review before making a decision on whether to approve or reject the claim/invoice for payment. The Credit Hire Organisation is not required and cannot make any changes to the claim during this status.
- **InvoicePaymentLogged** – This status indicates that the Insurer has made a payment against the claim on the Insurer's internal payments system. The Credit Hire Organisation should review any notes against the claim for any relevant payment information. The Credit Hire Organisation is required to raise physical invoices for claims of this status for the amounts held on CHOX.
- **InvoiceRejectionAccepted** - This status indicates the end of the life of the claim in question as the Credit Hire Organisation has accepted the Insurer's decision to reject the claim/invoice, no further action is required by either the Insurer or the Credit Hire Organisation, and relevant notes should be added by the Credit Hire Organisation.
- **InvoiceUnassigned**: This status indicates Invoices that require assigning to a handler and that have failed some of the BRE and that require review.
- **InvoiceReferredToClaimsHandler** – This status indicates that an Insurer's motor engineer has reviewed the claim/invoice details, added any relevant notes and sent the claim to the relevant claims handler(s) to follow up/action the claim/invoice.
- **InvoiceReferredToEngineer** – This status indicates that the claim has been sent to the Insurer's motor engineers by an Insurer's claims handler to review the claim/invoice details and make appropriate recommendations/actions.
- **PaymentReceived** – Once the payment has been received by the Credit Hire Organisation from the Insurer, there is a requirement for the status of the claim in question in CHOX to be updated to reflect this. This allows both the Insurer and the Credit Hire Organisation to see that the claim does not have an outstanding payment and the case is settled, indicating the end of the life of the claim in question; no further action is required within CHOX by either the Insurer or the Credit Hire Organisation.
- **ManualInvoiceBREApproved**- This indicates that all of the details regarding the Manual invoice and the claim pass through the Business Rules Engine and there are no flags on the claim prompting the Insurer to manually review the claim. The Insurer is still required to approve the invoice for payment or to reject the claim/invoice back to the Credit Hire Organisation.
- **ManualInvoiceBRERejected** - This status indicates that certain details within the submitted invoice have failed the Insurer's motor engineers and require a review before making a decision on whether to reject the invoice. The Insurer will need to modify the invoice details to reflect any adjustments made to the invoice following any negotiations made outside of the CHOX process/system.

- **ManualInvoiceContested** – This status indicates that the Insurer has escalated the claim to the CHO. The Insurer would need to modify the invoice details to reflect any adjustments made to the invoice following any negotiations made outside of the CHOX process/system. Once a decision on payment has been made, The Insurer should click on the 'Insurer Invoice Paid' button.
- **ManualInvoicePaid** – This status indicates Manual Invoices that the Insurer has marked as Paid.
- **ManualInvoiceUnassigned** - This Status indicates Manual claims/ Invoices that need to be assigned to a workgroup/owner.
- **SubscriberClaimRejected** - This status indicates Subscriber claims that have been rejected by the Insurer

Appendix B – Installing CHOX Macro In Microsoft Excel

B.i CHOX Microsoft Excel Add-In

This section describes the steps necessary to setup the CHOX Microsoft Excel Add-In which can be used to create XML in the correct format for Credit Hire Organisations to import data into the system.

The installation of Add-Ins for Microsoft Excel 2003 and 2007 are different, below are step by step instructions on how to install the CHOX Add-In for each of these versions, if any problems are encountered during the setup please contact CHOX support.

B.i.i Installing the Add-In (Microsoft Excel 2003)

To install the Excel Add-In please ensure you have the latest version of the CHOX XML macro and then follow the steps below:

- Save the 'iDAS_CHOX.xla' file to your PC/network. The file can be saved in any location desired, but the default location for Microsoft Excel Add-Ins is 'C:\Documents and Settings\[User name]\Application Data\Microsoft\AddIns' so the suggestion is to save it in this location.
- Open Excel and select 'Add-Ins...' from the 'Tools' menu.
- On the opening 'Add-Ins' dialogue window, click the 'Browse...' button.
- Navigate to the location of the iDAS_CHOX.xla file and select it.
- When prompted, click 'Yes' to copy 'iDAS_CHOX.xla to the Add-Ins folder for [User name]?'
- Ensure that 'CHOX' is listed under 'Add-Ins available' and its checkbox is checked.
- Click 'Ok' to close the 'Add-Ins' dialogue window.

B.i.ii To Add A New Toolbar (Microsoft Excel 2003)

The best way to use the Add-In is to add a toolbar button that will run the code when clicked. You may either add a button to an existing toolbar or create a new toolbar to hold the button.

- In Excel, right-click anywhere in the toolbar area, and on the pop-up menu left click on the 'Customize...' option.
- On the 'Customize' dialogue screen that opens, make sure the 'Toolbars' tab is selected and click the 'New...' button.
- Give your new toolbar a meaningful name (for example 'Macro Buttons'), click 'Ok' then click 'Close' to close the 'Customize' screen.
- Your new toolbar will appear on the screen. Left click and drag the tool bar to the top and position your new toolbar as desired.

B.i.iii To Add A New Toolbar Button (Microsoft Excel 2003)

- In Excel, right-click anywhere in the toolbar area and on the pop-up menu select the 'Customize...' option.
- On the 'Customize' dialogue window that opens, make sure the 'Commands' tab is selected, scroll down the 'Categories:' list and select 'Macros' by left clicking on the word.
- In the 'Commands:' pane left-click and drag 'Custom Button' and drop it where you wish the new button to be created. It is suggested that you add this to your newly created tool bar, however it can be added to any of the existing tool bars if desired.
- With the new button still selected, click the 'Modify Selection' button beneath the 'Categories' list and a new pop-up menu will be displayed.
- Give the button a meaningful name (for example 'CHOX XML') by typing in the 'Name' box. You may also change the image on the button by using 'Change Button Image'. Alternatively you may change the button to show its name rather than an image by selecting the 'Text Only (Always)' option.
- Finally, to associate the button with the code in the Add-In select 'Assign Macro...' and the 'Assign Macro' window will be displayed.
- Due to the code being held in the Add-In it won't be listed for selection, so type CHOX in the 'Macro Name' box and then click the 'Ok' button, and then 'Close' to close the 'Customize' screen.

B.i.iv Installing the Add-In (Microsoft Excel 2007)

To install the Excel Add-In please ensure you have the latest version of the CHOX XML macro and then follow the steps below:

- Save the 'iDAS_CHOX.xla' file to your PC/network. The file can be saved in any location desired, but the default location for Microsoft Excel Add-Ins is 'C:\Documents and Settings\[User name]\Application Data\Microsoft\AddIns' so the suggestion is to save it in this location.
- Open Microsoft Excel 2007 and follow the steps below:
 - Left click on the Window Icon located in the top left hand corner of Microsoft Excel 2007 as shown in figure 87 below.
 - From the drop down menu left click on the 'Excel Options' button located in the bottom right hand corner, to the left of the 'Exit Excel' button as shown in Figure 7 below.

Figure 87

- Clicking on the Excel Options button, the Excel Options screen will appear. The following steps should be taken:
 - Left click on Add-Ins, the Add-Ins menu window will now appear as shown in Figure 88 below.
 - Navigate to the bottom of the screen and find the 'Manage' drop down menu.
- Left click on the downward arrow and left click on 'Excel Add ins' to select this from the list.
- Left click on the 'Go...' button.

Figure 88

- The Add Ins popup browser will now be displayed as shown in Figure 89 below. The Add-Ins popup browser is where the user can select which Add-Ins they wish to add to their version of Excel. The CHOX macro will not be present on this list. To find the Macro, carry out the following steps:
 - Click on the 'Browse..' button

Figure 89

- The browse window will appear. Navigate to where the iDAS_CHO.xla file is stored on your PC/network. Please note that once the macro is added, it should not be moved from its current stored location.
- Left click on the file once to select it.
- Then click on the 'Open' button.
- This will add the macro to the Add-Ins list and will automatically select it, by putting a tick in the check box next to it as shown in Figure 90 below.

Figure 90

- Click on the 'OK' button to save the CHOX macro to the selected Add-In.

B.i.v To Add A New Toolbar Button (Microsoft Excel 2007)

The CHOX XML macro has now been added to the list of Add-Ins, a macro button now needs to be added to the Microsoft Excel toolbar which acts as a shortcut for running the macro. To install this shortcut button, follow the following steps:

- Left click on the Window Icon located in the top left hand corner of Microsoft Excel 2007.
- From the drop down menu left click on the 'Excel Options' button located in the bottom right hand corner, to the left of the 'Exit Excel' button.
- From the Excel Options screen, left click on 'Customize' from the left hand menu and this will open the Customize screen in the right hand panel of the window as shown in Figure 91 below.
- From the 'Choose commands from:' drop down box, select 'Macros'

Figure 91

- This will bring up a list of available macros in the window below. As Figure 92 below shows, there is only the CHOX macro available in the list.
- Left click on the macro name 'CHOX'.
- Click on the 'Add > >' button to add the macro.

Figure 92

- The default button icon (organisational tree icon) is assigned to the macro. The shortcut button icon can be modified by following the below steps:
 - Left clicking on the 'Modify...' button.
 - A list of available shortcut buttons is displayed in the 'Modify Button' window as shown in Figure 93 below.

Figure 93

- Select the desired shortcut button by left clicking on the relevant icon.
- Left click on the 'OK' button.
- You will be returned to the Customize screen, click on the 'OK' button.
- The shortcut button will now appear in the control panel in Microsoft Excel and is ready for use.
