

Organisation: Valexa Technologies Limited
(a Solera Holdings Inc. company)

Application Name: CHOX

Certificate Scope: Claim Management Application (The test was carried out in a test setup and the certificate is applicable for the production URL only if the production set up is an exact replica of the test setup)

<https://www.idaschox.com>

Date URL Tested: 2 June 2014

Certificate Validity: The certificate is valid for a period of one year from the issue date or until a new version of the application is released, whichever date is earlier.

Disclaimer: Digital Assurance endeavours to identify and communicate any security vulnerabilities in the systems defined within the scope of the assessment. Due to the nature of security testing, it may not be possible to identify all vulnerabilities present in the target system.

This certificate seeks to give assurance of the security status of the target system at the time of the test. It should not be taken as a definitive statement of the existence or non-existence of security vulnerabilities in the target. DA is not responsible for any future security breach in the target system or application howsoever caused, regardless of the award of this certificate.
