1 CHOX Credit Hire Organisation and Insurer Responsibilities

This section details the roles and responsibilities for all parties regarding the use of CHOX and the credit hire and/or credit repair process.

1.1 Claim and Invoice Data

It is the Credit Hire Organisation's responsibility to upload claim and invoice data into CHOX. This will either be from a direct feed from internal systems via a Web Service or via an XML upload feed into the CHOX web browser front end.

It is the Credit Hire Organisation's responsibility to ensure that the data being uploaded into CHOX is of an accurate, complete and consistent nature.

1.2 Claim Acknowledgement

It is the Insurer's responsibility to review all incoming first notifications and assess against details held on internal systems. The Insurer must then decide to acknowledge or reject a claim. A Credit Hire Organisation, cannot upload invoice details against a claim which has been rejected or yet to be acknowledged.

1.3 Monitoring of Hire

It is the Credit Hire Organisation's duty to monitor the progress of a hire/repair. Information obtained from the hire/repair monitoring process is to be entered into CHOX against the claim in question.

1.4 Invoice Approval

It is the responsibility of the Insurer to review all invoices that have either passed the business rules held in CHOX or invoices that have failed fundamental business rules and therefore require review. The Insurer will be required to make a decision on whether to clear the invoice for payment or reject the invoice in question given the information supplied.

1.5 Invoice/Claim Amendment

It is the Credit Hire Organisation's responsibility to make modifications to a claim/invoice with fundamental data errors. The Credit Hire Organisation is also required to supply additional information to a claim via the means of CHOX upon request by the Insurer.

1.6 Invoice Payment

It is the responsibility of the Insurer to monitor payments required for hire invoices using CHOX once a claim has been cleared for payment. The payment will be logged on the Insurer's internal payments system but a requirement to update CHOX of this payment is in order.

The Credit Hire Organisation is required to monitor CHOX for all claims where an Insurer has logged a payment for the invoice and update the claim in CHOX as a notification that the payment has been received.

2 Getting Started

2.1 System Requirements

CHOX can be accessed online and is supported by the following web browsers only:

- Internet Explorer 6 or higher
- Mozilla Firefox 3 or higher
- Safari 3 or higher

2.2 Logging on

- Before you can begin using CHOX, you will need at hand your registered username and password as supplied by the CHOX support team. You will have been sent an e-mail detailing your username and password.
- Using your preferred web browser from the list above, enter the following URL into your browser's address bar: **https://www.idaschox.com**
- Enter your case sensitive username and password into the relevant fields as shown on figure 1 below.

[Terms of Service](#)

This is a Sherwood Compliance Services Ltd proprietary system. No use is allowed without appropriate authorisation. Unauthorised use of this system will constitute a breach of Sherwood Compliance Services Ltd policy and prosecution under pertinent legislation will apply.

Figure 1

2.3 User Roles

There are three user roles for an Insurer within CHOX; each role is specific with appropriate read/write and access privileges. These roles are detailed below with a brief description of each role:

- **Claims Handler** – Responsible for reviewing first notifications and making decisions on whether to accept or reject claims. The Claims Handler is also required to monitor hire updates, review Credit Hire Organisation invoices and decide whether to reject or approve and make payments for said invoices.
- **Payments Clerk** – Responsible for making payments on Insurer's internal system for claims that have been approved for payment in CHOX.
- **Insurer Manager** – Access to the same screens/functionality as the above roles. In addition the Insurer Manager role will have access to the administrative function within CHOX, offering the ability to create users and assign roles to users and for Claims Handlers. The Insurer Manager role also offers access to CHOX's reporting module and the CHOX Business Rules Engine management/control function.

3 Basics

3.1 CHOX at a Glance

On logging into CHOX you will be presented with the following screen layout (the tabs displayed e.g. Reports will vary depending on your user role):

The screenshot displays the CHOX application interface. At the top, there is a navigation bar with links: Home | Settings | Help | Support | About CHOX | **Claims Handler, ABC Insurer** (Log Off). Below this, the main interface is divided into several sections. On the left, there is an 'Inbox' section with links to various claim statuses: Claims Awaiting Acknowledgement (8), Re-Submitted Claims Awaiting Acknowledgement (1), Claims Pending (1), Hire Update Notifications/Warnings (0), Escalated Invoices To Handler (1), Contested Invoices Referred To Insurer (1), Invoices Approved By BRE (2), Approved Invoices Awaiting Liability Resolution (1), and Approved Invoices Awaiting Payment (1). The central 'Task Management' section features a 'Mark As Complete' button, an 'Add New Task' button, and a checkbox for 'Hide Completed Tasks'. Below these buttons is a table with columns: Supplier Ref, Due Date, Task Type, Description, Created Date, and Created By. The table contains several rows of tasks, including CHOX115, CHOX112, CHOX110, CHOX115, and CHOX118. At the bottom, there is a 'Claims' section with a 'Batch Update' dropdown and a table with columns: Supplier Ref, Claim No, Insurer's Po, Insurer's VI, Status, Workgroup, Ins Owner, CHO Owne, Status Mod, Review Dal, CHO, Insurer, and Viewin. The footer includes a copyright notice: ©2010 Sherwood Compliance Services Ltd | Copyright | Privacy Policy | Terms of Service, and an 'Export To Excel' link.

Supplier Ref	Due Date	Task Type	Description	Created Date	Created By
CHOX115	24/10/2010	Other	Confirm result RE Total Loss Pack	15/10/2010	ABC Operative (ABC)
CHOX112	21/10/2010	Telephone Call	Call the CHO regarding this claim	07/10/2010	Claims Handler (ABC)
CHOX110	15/10/2010	Repair Document	Please check if repair documentation	07/10/2010	Claims Handler (ABC)
CHOX115	15/10/2010	Telephone Call	Conf. call RE this claim	15/10/2010	ABC Operative (ABC)
	06/09/2010	Other	Clear all invoices before holiday	06/09/2010	Claims Handler (ABC)
CHOX118	05/09/2010	Witness Statemer	Witness statements uploaded for yo	06/09/2010	ABC Operative (ABC)

Figure 2

3.2 Navigation

CHOX can be navigated using a mouse to click on menu items and arrows.

3.2.1 Control Toolbar

The 'Control Toolbar' is located in the top right-hand side of the CHOX screen as shown by the red box displayed in figure 3 below.

This screenshot is identical to Figure 2, showing the CHOX application interface. The 'Control Toolbar' at the top right, containing the links: Home | Settings | Help | Support | About CHOX | **Claims Handler, ABC Insurer** (Log Off), is highlighted with a red rectangular box.

Figure 3

The 'Control Toolbar' allows a user access to the following controls:

3.2.1.1 Home

When the 'Home' shortcut link is clicked the user will be taken to the home screen within CHOX, your default home screen will vary dependent on your role.

3.2.1.2 Settings

The settings link allows the user to view their registered information and change their password.

3.2.1.3 Help

When the 'Help' shortcut link is clicked a new browser session will open which will contain the CHOX Insurer user guide.

3.2.1.4 Support

When the 'Support' shortcut link is clicked a drop down list will appear enabling the user to submit an online support request through the 'Online Support Form' option or select 'Support Procedure' to open the CHOX support procedure in a separate internet browser tab.

3.2.1.5 About CHOX

When the 'About CHOX' shortcut link is clicked a pop-up window will appear which will contain details relating to the CHOX product including versioning and ownership.

3.2.1.6 Log Off

When the 'Log Off' shortcut link is clicked you will be logged off from your current activity and returned to the CHOX log on screen as shown in figure 1.

3.2.2 Dashboard

Some user roles will be able to see the 'Dashboard' screen as shown in figure 4 below. This Dashboard displays a snapshot of claims in the system to date across a weekly, monthly and cumulative period. Results can be viewed for an individual CHO or across the entire CHO book.

Figure 4

3.2.3 Inbox

The 'Inbox' tab allows a user to see work queues that are relevant to them. The work queues allow a user to see how many items are outstanding in a particular queue at any given moment and therefore require action.

As shown in figure 5 below the work queues are displayed as internet style hypertext links. In order to access a particular work queue, click on the name of the work queue you wish to view.

The screenshot shows the CHOX 'Inbox' tab. On the left, a list of work queues is displayed as hypertext links, with a red box highlighting the first seven items: 'Claims Awaiting Acknowledgement (8)', 'Re-Submitted Claims Awaiting Acknowledgement (1)', 'Claims Pending (1)', 'Hire Update Notifications/Warnings (0)', 'Escalated Invoices To Handler (1)', 'Contested Invoices Referred To Insurer (1)', and 'Invoices Approved By BRE (2)'. On the right, the 'Task Management' section shows a table of tasks with columns: Supplier Ref, Due Date, Task Type, Description, Created Date, and Created By. The table contains six rows of tasks. Below the task management section, the 'Claims' section is visible, showing a 'Batch Update' dropdown and a table with columns: Supplier Ref, Claim No, Insurer's Pc, Insurer's VI, Status, Workgroup, Ins Owner, CHO Owne, Status Mod, Review Dal, CHO, Insurer, and Viewin. The bottom of the page shows a footer with copyright information and links to 'Export To Excel'.

Figure 5

3.2.4 Claims Overview Grid

Located below the work queue items as shown in figure 6 below (indicated by the red box), is a small grid made up of a number of columns referred to as the 'Claims Overview Grid'. On logging into CHOX the default 'Claims Overview Grid' view is blank and thus no claims are displayed in the 'Claims Overview Grid'.

This screenshot is identical to Figure 5, showing the CHOX 'Inbox' tab. The 'Claims Overview Grid' is highlighted with a red box. It is a table with columns: Supplier Ref, Claim No, Insurer's Pc, Insurer's VI, Status, Workgroup, Ins Owner, CHO Owne, Status Mod, Review Dal, CHO, Insurer, and Viewin. The table is currently empty, showing 'Page 1 of 2' and 'No claims to display'.

Figure 6

The 'Claims Overview Grid' displays all claims that relate to the work queue that is currently selected and therefore all items in the grid are of the same status. The 'Claims Overview Grid' displays a handpicked selection of columns that will allow you to uniquely identify a claim. In order to view the

details of a particular claim click on the 'Supplier Reference' field (underlined with blue text, appearing as an internet style hypertext link) for the particular claim.

3.2.5 Search

To access the search facility, click on the 'Search' tab which is located next to the 'Inbox' tab as shown by the red box in figure 7 below:

Figure 7

Figure 7 above represents the extensive search functionality that is available in CHOX. A search can range from a search on a single field to a search across multiple fields.

- To widen search results, search using only one field.
- To minimise search results, search using multiple fields.

Detailed below is a list of the searchable fields with a brief explanation on the results that would be returned if a search was conducted on each:

- **Supplier Reference** - Unique reference for the Credit Hire Organisation (as stored on internal systems) in order to identify a claim. Will display only one result in the 'Claim Overview Grid'.
- **Claim Number** - Unique reference for the Insurer (as stored on internal systems) in order to identify a claim. Will display only one result in the 'Claim Overview Grid'.
- **Invoice Number** – This number refers to the Credit Hire Organisation's internal invoicing number. This search could return a specific claim relating to an invoice payment for a credit hire and/or credit repair or return a specific claim relating to a Claims Handling invoice in the case of Credit Hire Organisations under the Delegated Authority scheme.
- **Show Open Claims Only** – When this box is checked, the search will exclude all claims that have been closed or have been resolved.
- **Supplier VRN** – This search is for the customer/supplier/non-fault party's vehicle registration number. It is possible for more than one claim to exist against a single VRN.
- **Insurer VRN** – This search is for the third party/at-fault party/insurer's vehicle registration number. It is possible for more than one claim to exist against a single VRN.
- **Claim Upload Date From & To** – Date range to include all claims between selected dates where the claim was uploaded into CHOX for the first notification stage of the claim lifecycle.
- **Invoice Upload Date From & To** - Date range to include all claims between selected dates where the invoice was uploaded into CHOX.

- **Hire Date From & To** – Date range to include all claims between selected dates where the hire start of the replacement vehicle commenced.
- **Supplier Name** – Search will return all claims (regardless of their status in the system) for a particular Credit Hire Organisation/Supplier.
- **Status** – Search will return results for all claims in CHOX of the specified status. At the top of this list is a status labelled 'ACTIONS FOR HANDLERS', this is not a claim status, selecting this search parameter would produce a list of claims that are classed as outstanding actions for claims handlers and will have either of the following statuses; ClaimUnacknowledgedRouted, ClaimRejectionContested, ClaimPending, InvoiceReferredToClaimsHandler, InvoiceEscalatedToHandler, ContestedInvoiceReferredToInsurer, InvoiceApprovedByBRE, AwaitingInvoicePayment, AwaitingLiabilityResoltuion.
- **Liability Status** – The search will return results for all claims in CHOX for the liability status specified.

To use the CHOX search facility select the relevant search criteria in the form of the supplied drop down menus, date calendar pop-ups or by typing search strings into the relevant field(s). For text entry searches, the inclusion of a '%' symbol anywhere in the entry will act as a wild card character (representing any group of characters or numbers). For example a search on the 'Claim Number' field with '%08%' would return all claims which have '08' in the 'Claim number' and any group of characters either side of the '08'. An example search entry is shown in figure 8 below:

The screenshot shows the CHOX search interface. At the top, there is a navigation bar with links: Home | Settings | Help | Support | About CHOX | Claims Handler, ABC Insurer (Log Off). Below this is a search form with tabs: Inbox, Search, Reports. The Search tab is active. The form contains several input fields and dropdown menus for search criteria:

- Supplier Reference
- Invoice Number
- Supplier VRN
- Claim Upload Date From
- Invoice Upload Date From
- Hire Date From
- Liability Status
- Supplier Name
- Claim Number
- Show Open Claims Only (checkbox checked)
- Insurer VRN
- Claim Upload Date To
- Invoice Upload Date To
- Hire Date To
- Status (dropdown menu showing ClaimUnacknowledgedRouted)
- Supplier Claim Owner

Below the search form are 'Search' and 'Reset' buttons. Underneath is a 'Claims' section with a 'Batch Update' dropdown. A table of claims is displayed with columns: Supplier Ref, Claim No, Insurer's Pc, Insurer's VI, Status, Workgroup, Ins Owner, CHO Owne, Status Mod, Review Daf, CHO, Insurer, Viewin. The table is currently empty, showing 'Page 1 of 1' and 'No claims to display'. At the bottom right, there is a link 'Export To Excel'. The footer contains copyright information: ©2010 Sherwood Compliance Services Ltd | Copyright | Privacy Policy | Terms of Service.

Figure 8

Once the search criteria has been entered click on the 'Search' button. Results from the above search criteria are shown in figure 9 below:

Figure 9

3.2.6 Tabs

Upon selecting to view the claim details for a particular claim by clicking on the 'Supplier Reference' number in the 'Claim Overview Grid', the tab view as shown and indicated by the red box in figure 10 below is displayed:

Claim Details | Hire Monitoring | Invoice Details | Attachments | History | Claim Cycle | Notes | Tasks

+Expand All

Customer Details	Claim Reviews
Mitigation Statement	Third-Party Details
Vehicle Damage	Injury
Incident Details	Injury Solicitor
Claim Details	Witness Details

Figure 10

Tabs allow a user to browse through segmented sections of a claims underlying detail allowing more efficient and effective navigation through the extensive set of data held against a claim in CHOX.

3.2.6.1 Expanding/Collapsing Tab Details

By default the information displayed within a tab is collapsed in that the tab section header is shown without the underlying detail as shown in figure 11 below. In order to view detail under each of the tab section headers you should click on the tab section header in question. The red box in figure 11 below represents the 'Customer Details' section header.

Claim Details | Hire Monitoring | Invoice Details | Attachments | History | Claim Cycle | Notes | Tasks

Figure 12

3.2.6.2 Expanding/Collapsing all Tab Details

To expand all of the tab section headers at the same time, the user can click on the '+Expand All' link located in the top left corner. This will then open all underlying details for each of the tab section headers. The link for doing this is highlighted in figure 13 below.

The screenshot shows a software interface with a top navigation bar containing tabs: Claim Details, Hire Monitoring, Invoice Details, Attachments, History, Claim Cycle, Notes, and Tasks. Below the navigation bar, on the left side, is a link labeled '+Expand All' which is highlighted with a red rectangular box. The main content area is divided into two columns. The left column contains several expandable sections: Customer Details, Mitigation Statement, Vehicle Damage, Incident Details, and Claim Details. The right column contains sections: Claim Reviews, Third-Party Details, Injury, Injury Solicitor, and Witness Details. All these sections are currently collapsed.

Figure 13

Once all of the underlying details have been expanded, the user can then perform the opposite action and collapse all of the information. To do this, the user must click on the '-Collapse All' link which has taken the place of the '+Expand All' link in the top left hand corner. The link for performing this action can be seen in figure 14 below.

The screenshot shows the same software interface as Figure 13, but now the details for the 'Customer Details' and 'Third-Party Details' sections are expanded. The link in the top left corner is now labeled '-Collapse All' and is highlighted with a red rectangular box. The 'Customer Details' section on the left displays the following information:

Title	MR

Please specify how you wish to proceed

Figure 16

The editing of fields will require you to make the changes permanent within the system by clicking on the relevant button that is displayed in and around the editable fields. This button will be either 'Save Changes' or some form of action button. The 'Save Changes' button is shown in figure 17 below.

Figure 17

3.2.6.4 Availability

CHOX offers access to tabs depending on the status of the claim and therefore what can and cannot be viewed. If a tab has blue writing as the tab name then the tab can be navigated to, however if the tab has grey writing as the tab name then the tab cannot be navigated. Based on figure 18 overleaf, 'Claim Details' tab, 'Hire Monitoring' tab, 'Claim Cycle' tab, 'Attachments' tab, 'Notes' tab and 'Tasks' tab can all be navigated to, but the 'Invoice Details' and 'History' tabs cannot be navigated to.

Figure 18

3.2.6.5 Tabs Explained

An explanation on the content displayed on each tab is offered below.

3.2.6.5.1 Claim Details Tab

The 'Claim Details' tab contains information relating to the general claim details, non-fault party's details, at-fault party's details, witness details, vehicle damage details, incident details, injury details, injury solicitor details and engineer report details.

3.2.6.5.2 Hire Monitoring Tab

The 'Hire Monitoring' tab contains information relating to the monitoring of the hire/repair. During the length of time the customer has the vehicle on hire, it is the Credit Hire Organisation's duty to monitor the progress of the repair/hire, any update/modification that is deemed important/vital/required by the Insurer is noted on this tab as and when the update occurs. The Credit Hire Organisation has the ability to ensure that the update is reviewed/seen by the Insurer if required.

3.2.6.5.3 Invoice Details Tab

The 'Invoice Details' tab contains a breakdown of the items that make up the total invoice cost including details regarding the vehicle on hire, the length of hire, extras added to the vehicle for the hire, engineer report details, repair costs and any other additional costs that have been incorporated as part of the hire.

3.2.6.5.4 Attachments Tab

The 'Attachments' tab allows a user to attach files to a claim in various file formats such as PDF documents, Microsoft Word documents and common image file formats. Photos, associated documents and payment packs can be attached to a claim using the 'Attachments' tab.

To upload a file attachment, follow the below steps:

- Navigate to the 'Attachments' tab as shown in figure 19 below:

Figure 19

- Click on the 'Browse....' button.
- Navigate to the location of where the file is stored and click 'Open'.
- Select the relevant category of file upload using the drop down menu for the 'Attachment Type' field.
- Enter a description in the 'Description' field, offering a brief description of the file being uploaded
- Click on the 'Add File' button to attach the file.

3.2.6.5.5 History Tab

The 'History' tab contains details regarding the results of the Business Rules Engine validation when an invoice has been uploaded into CHOX and any messages as a result of this process are stored. The items detailed on the 'History' tab are displayed in chronological order with the oldest history items being displayed first as shown in figure 20 below:

Created On	Created By	Message Text
06/09/2010 14:05:20	ABC Operative (ABC...	BRE Rule Failed - The number of hire days billed by the CHO (29 days) exceeds the CHO's hire days ceiling (22 days).
06/09/2010 14:05:20	ABC Operative (ABC...	BRE Rule Failed - The daily rate billed of £93.27 for the replacement vehicle class P3 exceeds the allowed ABI rate of £88.28.
06/09/2010 14:05:20	ABC Operative (ABC...	BRE Rule Failed - The Hire Net billed £2734.85 exceeds the Hire Net ceiling of £1500.00

Figure 20

3.2.6.5.6 Claim Cycle

The 'Claim Cycle' tab contains details of the status changes of a particular claim. A new entry is added to the list every time the status is changed, including who changed the status of the claim, the new status of the claim and the date/time the status changed. The list is automatically displayed in chronological order with the newest/current status appearing at the bottom as shown in figure 21 below.

Modified Date	Modified By	Status
06/09/2010 14:05:20	ABC Operative (ABC CHO)	InvoiceEscalatedToHandler
06/09/2010 13:09:27	ABC Operative (ABC CHO)	AwaitingInvoiceData
06/09/2010 13:06:47	Claims Handler (ABC Insurer)	AwaitingCarHireInfo
06/09/2010 13:04:38	Admin ABC (ABC Insurer)	ClaimUnacknowledgedRouted
06/09/2010 13:02:20	ABC Operative (ABC CHO)	ClaimUnacknowledgedUnassigned
06/09/2010 13:02:20	ABC Operative (ABC CHO)	ClaimUnacknowledgedUnrouted

Figure 21

3.2.6.5.7 Notes Tab

The 'Notes' tab is an empty data field which can be used to add queries and comments by both Insurers and Credit Hire Organisations. This opens up invaluable dialogue in resolving claims and disputes swiftly and efficiently. All notes can be viewed at any stage of the CHOX process by navigating to the 'Notes' tab within a claim. Notes can either be of a private nature and therefore only seen by internal Insurer users or of a public nature and therefore seen by all users who can access the claim, including the Credit Hire Organisation who submitted the claim.

To add either a public or private note, the user must follow these steps:

- View the claim details of the claim in question and navigate to the 'Notes' tab, a screen shot of the 'Notes' tab is shown overleaf in figure 22.

Created	Created By	Message
07/10/2010 17:01:25	Claims Handler (ABC Insurer)	This case needs to be carefully reviewed when it comes in as I think we can make a saving on the number of hire
07/10/2010 17:00:56	Claims Handler (ABC Insurer)	Please can you attach the payment pack for this claim
06/09/2010 13:06:47	Claims Handler (ABC Insurer)	Liability status changed to 'Liability In Negotiation'

Figure 22

- Click in the text box labelled 'Add a new note' and write the statement or question.
- Decide whether you wish for the message to be public (visible to the CHO) or private (visible internally only) by selecting the relevant radio button beneath the text box.
- Click on the 'Add Note' button.
- If a public note has been added, it will be displayed in the list with a white background. If a private note has been added, it will be displayed with a blue background.
- All notes that have been entered against a claim by either the Insurer or Credit Hire Organisation will appear on the 'Notes' tab and all notes for each claim are archived by date and are not amendable once saved.

3.2.6.5.8 Task Tab

The 'Task' tab allows for specific tasks to be added to a claim which can be assigned both internally (for the Insurer) and externally (for the Credit Hire Organisation). This opens up invaluable dialogue in ensuring claims are processed as quickly as possible and all disputes are settled swiftly and efficiently. Tasks can be viewed at any stage of the CHOX process by navigating to the 'Tasks' tab within a claim. Tasks can either be internal and therefore only seen by internal Insurer users or External and therefore seen by the Credit Hire Organisation who submitted the claim.

Due Date	Task Type	Description	Created Date	Created By	Assigned To	Completed By
07/10/2010	Invoice/Payment Issue	I think that there may be an issue with this case...	07/10/2010	Claims Handler (ABC Insur...	Claim Handler	
15/10/2010	Payment Pack	Please attach the payment pack for this claim.	07/10/2010	Claims Handler (ABC Insur...	CHO	
21/10/2010	Telephone Call	Call the CHO regarding this claim	07/10/2010	Claims Handler (ABC Insur...	Claim Handler	

Figure23

To add a new task from within a claim:

- Click on the 'Tasks' tab from within the claim view.
- Decide on the date that this task should be completed by clicking within the 'Due Date' field and putting in a date. This can also be selected by using the calendar option next to the text box.
- Click on the drop down arrow for 'Task Type' and select a task type from the list provided. If the types listed do not match your criteria, use 'Other'.
- Click in the text box labelled 'Task Description' and write a meaningful description of the task that is to be carried out.
- Decide whether you wish for the task to be internal or external using the radio buttons provided underneath the 'Task Description' box.
 - For an internal task, you must select the role within the organisation who will be assigned the task using the drop down list next to the External/Internal radio buttons. The default for this is 'Claims Handler'.
 - For an external task, you will not be able to select the role and the task will be assigned to the correct Claims Handler at the Credit Hire Organisation automatically.
- Click on the 'Add Task' button.
- The task will now be displayed in the grid.
 - If the task is in the future, it will be displayed in black text.
 - If the task is due today, it will be displayed in orange text.
 - If the due date has past, the task will be displayed in red text.
 - If the 'Hide Completed Tasks' checkbox is not ticked, all completed tasks will appear with grey text.
- To mark a task as complete, you need to select the task from the grid using the tick box to the left of the 'Due Date' column and then click on the 'Mark As Complete' button. It will then disappear from the list of tasks.
 - To find this task again, you can uncheck the 'Hide Completed Tasks' box and all old/completed tasks will appear in Grey in the Task Grid.

3.2.6.6 Claim Summary Pane

When viewing the claim details of a particular claim, you will be presented with the 'Claim Summary' pane as shown in figure 24. The 'Claim Summary' pane contains information that is regarded as essential to a user and therefore is displayed at all times regardless of the tab you navigate to.

Claim Summary		
Third Party Insurer ABC Insurer	Credit Hire Organisation ABC CHO	Created By ABC Operative (ABC CHO)
Supplier Reference BENRCH0183	Insurer Claim Number 20100504858	Created On 15 Oct 2010 14:56
Customer MR Simon Sandford	Current Status ClaimUnacknowledgedRouted	Customer Contact Date 02 Jun 2010 14:25
Claim Owner	Workgroup	Supplier Claim Owner
Liability Status	Percentage Liability Agreed (Insurer) 0%	Percentage Liability Agreed (CHO) 0%
Liability Agreed Date	Indemnity Value £0.00

Figure 24

3.2.6.7 Action Pane

For certain statuses, an action window pane will be displayed which will require certain action in order to move the claim to the next status/lifecycle step. The action pane will be located beneath the 'Claim Summary' pane when viewing the claim detail as discussed above. The action pane in order to reject an invoice or clear an invoice for payment is shown overleaf in figure 25 as an example.

BRE Approved Claim - Action Required

This claim and its related invoice have been cleared by the CHOX approval system. Please review the invoice and claim information supplied, and choose whether to clear the invoice for payment or reject the invoice.

Reason for Rejection N/A

Please specify how you wish to proceed

Figure 25

4 Inbox

As discussed previously, your inbox will display all work queues that are relevant to your role in the system. What follows is a list of the work queues as well as a description of which each contains and the action required to remove the claims from the queues by way of action. In brackets against each work queue is the role(s) that will have access to the relevant work queue.

4.1 Claims Awaiting Acknowledgement (Claims Handler, Insurer Admin)

The 'Claims Awaiting Acknowledgement' work queue contains a list of new claims that need to be reviewed and a decision made on whether to acknowledge or reject the new claims.

- Select each claim in turn from the queue and view the claim details.
- Review the claim details held on CHOX against details stored on internal systems.
- A decision needs to be made at this stage on whether to acknowledge the claim, make the decision later by pending the claim or reject the new claim back to the Credit Hire Organisation.
- Before making the appropriate decision enter any additional notes that are applicable and likely to benefit the Credit Hire Organisation or act as a general case note by way of the 'Notes' tab. Please note that notes can be of a private (seen only by internal staff) or public nature (seen by all users of the Credit Hire Organisation and internal staff).
- Whichever decision is reached, a 'Liability Status' must be selected before processing the claim and clicking on one of the buttons.
- If you are rejecting the claim, select a rejection reason using the 'Reason for Rejection' drop down menu and click on the 'Reject' button.
- If you are acknowledging the claim, click on the 'Acknowledge' button (this is not declaration that you are accepting the final hire amount submitted at the invoicing stage by the Credit Hire Organisation).
- If you want to make the decision later, click on the 'Claim Pending' button.
- If you cannot find details of the claim on the internal system, register the claim using the data available in CHOX and if applicable contact the policyholder. Once the claim has been registered, add the uniquely generated claim number using the 'Claim Number' field within CHOX.
- If the claim is already registered, then add the claim number using the 'Claim Number' field within CHOX.

4.2 Re-Submitted Claims Awaiting Acknowledgement (Claims Handler, Insurer Admin)

The 'Re-Submitted Claims Awaiting Acknowledgement' work queue contains a list of claims that have previously been rejected to the Credit Hire Organisation by the Insurer. The Credit Hire Organisation has reviewed the claim rejection and has made the decision to contest the claim rejection, with supporting notes accompanied.

- Select each claim in turn from the queue and view the claim details.
- Review the Credit Hire Organisation's notes as to why they are contesting the claim rejection, this may detail that amendments have been made to the claim detail.
- If applicable based on the Credit Hire Organisation's notes, review the claim details held on CHOX against details stored on internal systems.
- Once again, a decision needs to be made at this stage on whether to acknowledge the claim, set the claim to claim pending, or reject the claim.
- Before making the appropriate decision enter any additional notes that are applicable and likely to benefit the Credit Hire Organisation or act as a general case note by way of the 'Notes' tab. Please note that notes can be of a private (seen only by internal staff) or public nature (seen by all users of the Credit Hire Organisation and internal staff).

- If you are rejecting the claim again, select a rejection reason using the 'Reason for Rejection' drop down menu and click on the 'Reject' button.
- If you are acknowledging the claim, click on the 'Acknowledge' button (this is not declaration that you are accepting the final hire amount submitted at the invoicing stage by the Credit Hire Organisation).
- If you want to make the decision later, click on the 'Claim Pending' button.
- If you cannot find details of the claim on the internal system, register the claim using the data available in CHOX and if applicable contact the policyholder. Once the claim has been registered, add the uniquely generated claim number using the 'Claim Number' field within CHOX.
- If the claim is already registered, then add the claim number using the 'Claim Number' field within CHOX.

4.3 Claim Pending (Claims Handler, Insurer Admin)

The 'Claim Pending' queue contains all claims where the claim has been marked as pending in order to wait before making a decision on whether to acknowledge the claim or not. The status of claims in this queue is 'ClaimPending'. The Insurer may wish to mark the claim as pending as the claim has been reviewed, with further information expected so the claim wants to be separated from the 'Claim Awaiting Acknowledgement' queue so that there is no duplication of claim reviews.

- Select each claim in turn from the queue and view the claim details.
- Review the claim details held on CHOX against details stored on internal systems.
- A decision needs to be made at this stage on whether to acknowledge the claim or reject the claim.
- Before making the appropriate decision, check the 'Notes' tab for information added from previous reviews and review the 'Attachments' tab for any supporting documentation that may have been provided.
- Enter any additional notes that are applicable and likely to benefit the Credit Hire Organisation or act as a general case note by way of the 'Notes' tab. Please note that notes can be of a private (seen only by internal staff) or public nature (seen by all users of the Credit Hire Organisation and internal staff).
- If you are rejecting the claim again, select a rejection reason using the 'Reason for Rejection' drop down menu and click on the 'Reject' button.
- If you are acknowledging the claim, click on the 'Acknowledge' button (this is not declaration that you are accepting the final hire amount submitted at the invoicing stage by the Credit Hire Organisation).

4.4 Hire Update Notifications/Warnings (Claims Handler, Insurer Admin)

The 'Hire Update Notifications/Warnings' work queue contains a list of all claims that have had 'fundamental' changes regarding the monitoring of the repair/hire and/or estimated date of completion regarding the vehicle repair. These claims come through into a user's queue as soon as the update is made by the Credit Hire Organisation.

The claims will sit in this queue until one of two things happen. Either, the handler reviews the claim and removes all of the update notifications or the claim is progressed by the Credit Hire Organisation to the status 'AwaitingInvoiceData'.

- Select each claim in turn from the queue and view the claim details.
- The yellow warning box contained within the 'Hire Update/Warning Notification' action panel as shown overleaf in figure 26 displays what type of hire update has occurred against the claim in question.

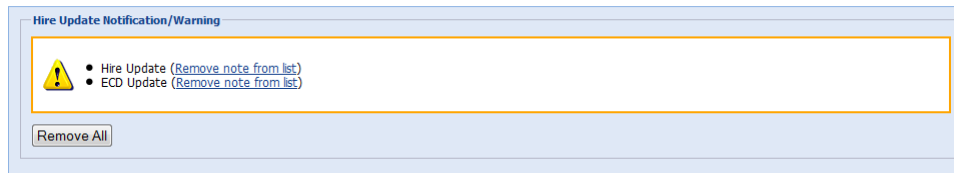

Figure 26

- Navigate to the 'Hire Monitoring' tab and review the changes made and if applicable the reason why this update has occurred.
- A decision needs to be made as to whether to follow the update up with the Credit Hire Organisation or the repairer. This action is conducted outside of the CHOX system but the Insurer should include any relevant notes to the claim in question using the 'Notes' tab for review purposes at the invoicing stage, these notes should be of a private nature.
- The lifecycle of the claim continues as normal regardless of the Insurer's action, but will enable swift investigation/action to take place.

4.5 Escalated Invoices to Handler (Claims Handler, Insurer Admin)

The 'Escalated Invoices to Handler' work queue contains a list of invoices that have been uploaded by the Credit Hire Organisation and have subsequently failed one or more of the rules/tests as applied in the Business Rules Engine. The handler will need to review the 'History' tab for details on why the claim has failed the business rules and decide on whether to progress the claim for payment or reject the claim back to the Credit Hire Organisation.

- Select each claim in turn from the queue and view the claim details.
- Navigate to the 'History' tab and review which of the business rules have failed.
- Based on the reason(s) for the invoice failure from the Business Rules Engine as detailed on the 'History' tab review the claim and invoice details and any supporting notes detailed on the 'Notes' tab, as well as reviewing any relevant attachments that the Credit Hire Organisation may have supplied.
- A decision needs to be made to reject the invoice or clear the invoice for payment.
- To reject the invoice follow the below steps:
 - Navigate to the 'Notes' tab and add any additional notes as required. If you require sight of the payment pack then you should include this request on the notes tab.
 - On the 'Invoice Escalated To Claim Handler - Action Required' window pane, select the reason for the invoice rejection using the pre-populated 'Reason for Rejection' drop down menu and then click on the 'Reject Invoice' button.
- To accept the invoice follow the below steps:
 - Navigate to the 'Notes' tab and add any notes that may prove useful when making the payment for the claim.
 - On the 'Invoice Escalated To Claims Handler - Action Required' window pane, click on the 'Clear For Payment' button to clear the invoice for payment.

4.6 Contested Invoices Referred To Insurer (Claims Handler, Insurer Admin)

The 'Contested Invoices Referred To Insurer' work queue contains a list of claims that have previously been rejected back to the Credit Hire Organisation by the Insurer. The Credit Hire Organisation has contested the claim/invoice rejection, the claim/invoice may have been amended, a payments pack may have been attached or notes added to the claim.

- Select each claim in turn from the queue and view the claim details.
- Navigate to the 'History' tab and check to see whether any of the applied business rules have failed.

- Navigate to the 'Notes' tab and review notes as to why the Credit Hire Organisation is contesting the claim/invoice rejection.
- Based on the reason(s) for the claim/invoice failure from the Business Rules Engine (if applicable) as detailed on the 'History' tab and the notes supplied by the Credit Hire Organisation, review the claim and invoice details held in CHOX. Review any relevant attachments that the Credit Hire Organisation may have supplied.
- A decision needs to be made to reject the invoice or clear the invoice for payment.
- To reject the invoice follow the below steps:
 - Navigate to the 'Notes' tab and add any additional notes as required. If you require sight of the payment pack then you should include this request on the notes tab.
 - On the 'Contested Invoice - Action Required' window pane, select the reason for the invoice rejection using the pre-populated 'Reason for Rejection' drop down menu and then click on the 'Reject Invoice' button.
- To accept the invoice follow the below steps:
 - Navigate to the 'Notes' tab and add any notes that may prove useful when making the payment for the claim.
 - On the 'Contested Invoice - Action Required' window pane, click on the 'Clear for payment' button to clear the invoice for payment.

4.7 Invoices Approved By BRE (Claims Handler, Insurer Admin)

The 'Invoices Approved By BRE' work queue contains a list of claims/invoices that have been uploaded by the Credit Hire Organisation and have subsequently passed all of the tests applied in the Business Rules Engine.

- Select each claim in turn from the queue and view the claim details.
- Navigate to the 'Notes' tab and review to see if there are any significant notes logged against the claim since its origin in CHOX.
- A decision needs to be made to reject the invoice or clear the invoice for payment.
- To reject the invoice follow the below steps:
 - Navigate to the 'Notes' tab and add any additional notes as required. If you require sight of the payment pack then you should include this request on the notes tab.
 - On the 'BRE Approved Claim - Action Required' window pane, select the reason for the invoice rejection using the pre-populated 'Reason for Rejection' drop down menu and then click on the 'Reject Invoice' button.
- To clear the invoice for payment follow the below steps:
 - Navigate to the 'Notes' tab and add any notes that may prove useful when making the payment for the claim.
 - On the 'BRE Approved Claim - Action Required' window pane, click on the 'Clear for payment' button to clear the invoice for payment.

Additionally claims can be processed via a bulk update following the below method (see Figure 27 and 28 overleaf):

- Click on the hyperlink/queue for 'Invoices Approved By BRE' (1).
- Tick the box to the left of the 'Supplier Ref' column for all of the claims you want to update (2) (this will turn the selected row(s) blue).
- Click on the 'Batch Update' drop down menu (3).
- Select 'Approve Claim(s) For Payment' (4).

Figure 28

- Once selected, a pop-up message will be displayed (shown in figure 29). To continue, click on the 'OK' button and to cancel, click on the 'Cancel' button.
- This will move all the selected claims to the status 'AwaitingInvoicePayment'.

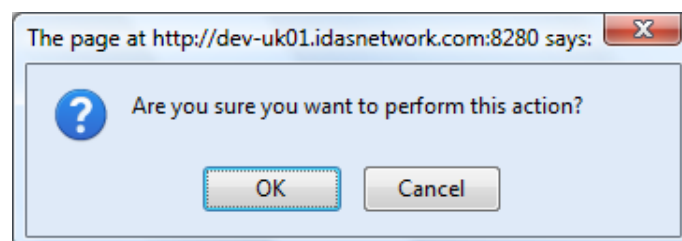

Figure 29

4.8 Approved Invoices Awaiting Payment (Payments Clerk, Claims Handler, Insurer Admin)

The 'Approved Invoices Awaiting Payment' work queue contains a list of claims/invoices that have been reviewed and approved for payment and therefore require payment on the Insurer's internal payment system. The Insurer is required to update CHOX when the payment has been logged on the internal payment system.

- There are two ways to make payments for claims held in CHOX.
- The claim by claim method is as follows:
 - Select each claim in turn from the 'Approved Invoices Awaiting Payment' work queue and view the claim details.
 - Navigate to the 'Notes' tab and review any relevant payment notes that may have been added during the life of the claim in the system.
 - Open your internal payments system and perform a search against the Claim Number in question.
 - Log the payment for the claim in question using the data held on the 'Invoice Details' tab within CHOX.
 - Once the payment has been made on the internal payment system, switch back to CHOX and click on the 'Invoice Payment Logged' button that is located on the 'Invoice ready for payment - Action Required' window pane when viewing the claim detail for the claim in question.
 - Add any supporting notes regarding the payment using the 'Notes' tab.

Additionally claims can be processed via a bulk update following the below method (see Figure 30 and 31):

- Click on the hyperlink/queue for 'Approved Invoices Awaiting Payment' (1).
- Tick the box to the left of the 'Supplier Ref' column for all of the claims you want to update (2) (this will turn the selected row(s) blue).
- Click on the 'Batch Update' drop down menu (3).
- Select 'Update Claim(s) To Invoice Payment Logged' (4).

The screenshot displays the CHOX Claims Handler interface. At the top, there is a navigation bar with links: Home | Settings | Help | Support | About CHOX | **Claims Handler, ABC Insurer** (Log Off). Below this, the 'Inbox' section is visible, containing several links. A red circle with the number '1' highlights the link 'Approved Invoices Awaiting Payment (3)'. To the right of the inbox is a 'Task Management' section with a table of tasks. Below the inbox, the 'Claims' section is shown, featuring a 'Batch Update' dropdown menu. A red circle with the number '2' highlights the first three rows of the claims table, which are selected. The claims table has columns: Supplier Ref, Claim No, Insurer's PC, Insurer's VI, Status, Workgroup, Ins Owner, CHO Owne, Status Mod, Review Daf, CHO, Insurer, and Viewin. The selected rows are highlighted in blue.

Figure 31

- Once selected, a pop-up message will be displayed (shown in figure 32). To continue, click on the 'OK' button and to cancel, click on the 'Cancel' button.
- This will move all the selected claims to the status 'InvoicePaymentLogged'.

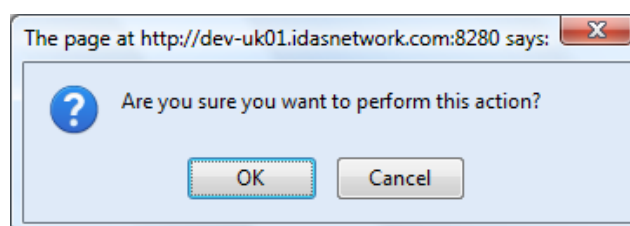

Figure 32

4.9 Approved Invoices Awaiting Liability Resolution (Claims Handler, Insurer Admin)

The 'Approved Invoices Awaiting Liability Resolution' work queue contains a list of claims/invoices that have been cleared for payment, however liability has not yet been agreed between the Insurer and the Credit Hire Organisation. Claims will remain in this queue until an agreed stance on liability has been reached. To progress a claim at this status, you must follow these steps:

- Open the claim you want to look at in more detail by clicking on the 'Supplier Ref' hyperlink from the claim overview grid.
- This will open the claim and will present you with all the information required in order to progress the claim.
- Open your internal claims system and check the details on file against this claim. Using the 'Liability Status' drop down box, select the appropriate liability status.
 - If liability is now accepted in full, select 'Full Liability Accepted'. This will automatically set the 'Liability Percentage Agreed' to 100% on the Insurer side.
 - If you do not have enough information to make a decision, then select 'Liability Unknown' and the claim will remain in this queue.
 - If liability is disputed, then select 'Liability Disputed' and add a note to the claim, the claim will remain in this queue.

- If liability is repudiated, select 'Liability Repudiated', the claim will remain in this queue.
- If liability is split, select 'Liability Split'. This will automatically set the 'Liability Percentage Agreed' to 50% on the Insurer side and 50% on the CHO side. This can be modified accordingly.
- If indemnity is not granted but a decision has been made to make a payment anyway, then select 'Proceed Without Prejudice', entering the relevant split values if applicable.

5 Task Management

As discussed, CHOX allows for specific tasks to be added to a claim which can be assigned both internally (for the Insurer) and externally (for the Credit Hire Organisation). Tasks can also be raised without being attached to a claim, acting as a diary function within the system. This opens up invaluable dialogue in ensuring claims are processed as quickly as possible and all actions/tasks are actioned swiftly and efficiently.

Figure 33

5.1 The Task Management Grid

Below is an explanation of each area of the Task Management Grid:

5.1.1 Supplier Ref

This shows the Credit Hire Organisations reference number, which was submitted when the claim was uploaded into the system. If the task is not linked to a specific claim, then this will be blank.

5.1.2 Due Date

This is the date that the task should be completed by. The system automatically flags when the due date is approaching using a colour coding for quick reference.

- Black text means that the task is in the future and more than one day away.
- Orange text means that the task is due today.
- Red text means that the due date for this task has passed.

5.1.3 Task Type

This is a list of different types of tasks that could be raised within the system. This includes, but is not limited to; requesting payment pack, witness statements, or client allegations, for example. There is an 'Other' option, should the type of task not be available from the pre-defined list.

5.1.4 Description

This is a free text section which is added on task creation. This allows you to add some extra information about the task to compliment the task type.

5.1.5 Created Date

This is the date that the task was raised within the system.

5.1.6 Created By

This is the user who raised the task. It gives both their full name and what organisation they work for, so it is easy to tell whether it was raised to you internally, or whether it was by the Credit Hire Organisation and therefore external.

5.2 Adding New Tasks

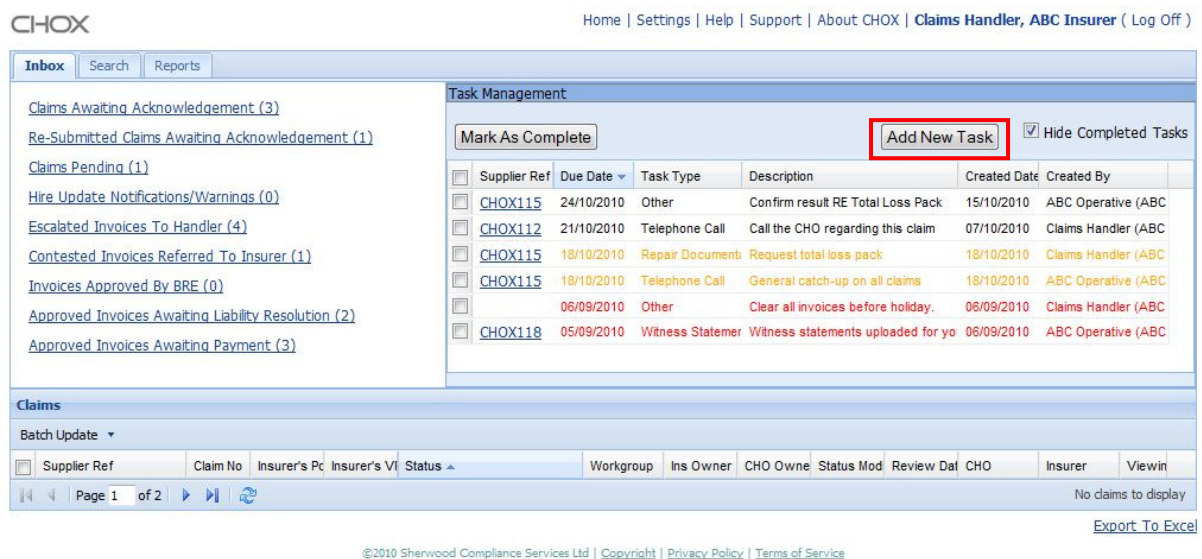

Figure 34

Tasks can be added to the system by clicking on the 'Add New Tasks' button from the Task Management area of CHOX. This will bring up the following 'Add New Task' Box:

Add New Task

Due Date:

Visibility:

Task Type:

Description:

Link To Claim?: ☒

Supplier Reference:

Figure 35

At this stage, information needs to be added in order to create a task. Overleaf is each of the fields explained and their interdependencies:

5.2.1 Due Date

This is the date that you wish the task to be completed by. This cannot be a date in the past. It is essential that the due date for any task is reasonable and allows the person responsible to have time to complete.

5.2.2 Visibility

The visibility of a task is very important. Tasks can either be Private, Internal or External. Below is an explanation of each:

- Private Task – When a task is set to Private, it will only be seen by yourself and will not appear in other user's task grid. It is not mandatory to link a task to a claim and therefore supply a 'Supplier Reference' when the task is Private.
- Internal Task – An internal task means that this will be assigned to a specific role within the organisation. If the task is linked to a claim all users with the 'Claims Handler' role will see the task. If a task is not linked to a claim, then the task will go to all users who meet the role type selected.
- External Task – An external task should be selected to raise a task for the Credit Hire Organisation to complete. It must be linked to a claim and the system will automatically assign it to the correct user within their organisation.

5.2.3 Visibility Role

This is a field which is hidden until 'Internal Task' is selected from the 'Visibility' option. This allows you to select the most appropriate role internally for the task to be assigned.

5.2.4 Task Type

This is a predefined list of tasks that could be assigned to the claim. If the type of task you require isn't in the list, then you can use the option for 'Other'.

5.2.5 Description

This is a free text area, which allows you to add further information to help aid the user who will need to complete the task.

5.2.6 Link To Claim?

This is a check box, which allows you to specify whether this is a task which should be linked to a particular claim. Linking to a claim is mandatory if it is an external task.

5.2.7 Supplier Reference

This option is only available if the task is to be linked to a claim (see 5.2.6 above). You must give a valid supplier reference number, so that the task can be assigned to that claim.

6 More Actions

Depending on the role of the user and the status of a claim, a 'More Actions' drop down menu will be available to a user in order to allow them certain functionality that is relevant to them. The 'More Actions' drop down menu is located below the 'Claim Summary' pane as shown in figure 36 overleaf.

Claim Summary		
Third Party Insurer: ABC Insurer	Credit Hire Organisation: ABC CHO	Created By: ABC Operative (ABC CHO)
Supplier Reference: BENRCHO191	Insurer Claim Number: 20100504856	Created On: 15 Oct 2010 16:47
Customer: MS June Jefferson	Current Status: ClaimUnacknowledgedRouted	Customer Contact Date: 01 Jun 2010 17:09
Claim Owner	Workgroup	Supplier Claim Owner
Liability Status	Percentage Liability Agreed (Insurer): 0%	Percentage Liability Agreed (CHO): 0%
Liability Agreed Date	Indemnity Value: £0.00	

« Back to Search Results -- More Actions -- [Export Claim To Excel](#)

Figure 36

There are several different actions that can be performed within the 'More Actions' drop down menu, as stated above this is dependent on the role of the user and the status of the claim.

6.1 Update Insurer Claim Number (Insurer Admin, Claims Handler)

If a claim has been assigned an incorrect claim number, CHOX allows for a Claims Handler to update the claim number within CHOX.

To update the claim number, click on the 'More Actions' drop down menu and select 'Update Insurer Claim Number'. The screen as shown in figure 37 below will be displayed.

Insurer Claim Number

Claim Number:

Figure 37

The user can then edit the claim number from within the 'Claim Number' field and save the changes by clicking on 'Update Claim Number' button.

6.2 Update Liability (Insurer Admin, Claims Handler)

By clicking on the 'Update Liability' option from the 'More Actions' drop down menu, an action panel will appear below, allowing you to update liability for the claim in question.

- Select the new liability status from the 'Liability Status' drop down menu (1).
- Change the 'Liability Percentage Agreed' fields if required (the sum of both fields must not exceed 100%) (2).
- Add any relevant notes in the 'Claim Review Notes' text box (3).
- Click on the 'Update Liability' button to save the new liability status (4).

6.3 Make Interim Payment (Insurer Admin, Claims Handler)

Once the Invoice has been submitted, you have the ability to make an interim payment towards the total value of the invoice. This can be found by clicking on the 'Make Interim Payment' option from the 'More Actions' drop down menu. When selected, an action panel will appear below, allowing you to add an amount that will be paid prior to full settlement being made.

Claim Summary

Make Interim Payment

Interim Payment Amount * **1** £ **2**

Figure 39

- Click in the 'Interim Payment Amount' text box as shown above (1).
- Put in the value of the interim payment that is to be made without the £ sign. For example 100.
- Click on the 'Make Interim Payment' button (2).
- This amount will now appear on the 'Invoice' tab for this claim, as shown below (3).

- Notice that this is currently marked as '(Not Yet Received)'. The CHO must register on the system that they have received this amount, this marker will then change to '(Payment Received)'.

7 Miscellaneous Features

7.1 Revert Status Button

When the claim is of a certain status, a button labelled 'Revert Status' will become available located on the 'Claim Summary' pane as shown in figure 41 below.

The screenshot shows the CHOX 'Claim Summary' page. At the top, there is a navigation bar with links: Home | Settings | Help | Support | About CHOX | Claims Handler, ABC Insurer (Log Off). The main content area is titled 'Claim Summary' and contains a table of claim details. The table is organized into three columns. The first column contains: Third Party Insurer: ABC Insurer, Supplier Reference: BENRCH0184, Customer: DR Sara Hilton, Claim Owner, Liability Status: Full Liability Accepted, and Liability Agreed Date: 18/10/2010. The second column contains: Credit Hire Organisation: ABC CHO, Insurer Claim Number: 20100504859, Current Status: InvoicePaymentLogged, Workgroup, Percentage Liability Agreed (Insurer): 100.00%, and Indemnity Value: £0.00. The third column contains: Created By: ABC Operative (ABC CHO), Created On: 15 Oct 2010 14:56, Customer Contact Date: 02 Jun 2010 14:30, Supplier Claim Owner, and Percentage Liability Agreed (CHO): 0%. At the bottom right of the table, there is a button labeled 'Revert Status' which is highlighted with a red rectangular box. Below the table, there is a navigation bar with a link '« Back to Search Results', a dropdown menu '-- More Actions --', and a link 'Export Claim To Excel'.

Claim Summary		
Third Party Insurer: ABC Insurer	Credit Hire Organisation: ABC CHO	Created By: ABC Operative (ABC CHO)
Supplier Reference: BENRCH0184	Insurer Claim Number: 20100504859	Created On: 15 Oct 2010 14:56
Customer: DR Sara Hilton	Current Status: InvoicePaymentLogged	Customer Contact Date: 02 Jun 2010 14:30
Claim Owner:	Workgroup:	Supplier Claim Owner:
Liability Status: Full Liability Accepted	Percentage Liability Agreed (Insurer): 100.00%	Percentage Liability Agreed (CHO): 0%
Liability Agreed Date: 18/10/2010	Indemnity Value: £0.00	

« Back to Search Results -- More Actions -- Export Claim To Excel

Figure 41

When this button is clicked, the status of the claim will change back to the previous status, if we were to take the example above for figure 41, the current status of the claim is 'InvoicePaymentLogged', clicking on the 'Revert Status' button will take the claim back to the previous status, in this case 'AwaitingInvoicePayment'.

7.2 Export Claim To Excel Hyperlink

When you open the details of a claim, you will see that there is a hyperlink labelled 'Export Claim To Excel', when this hyperlink is clicked, all of the details of the claim you currently have open will be exported into a Microsoft Excel file, to open the Microsoft Excel report click on the 'Open' button and to save the Microsoft Excel report click on the 'Save' button and choose a location of where to save the report and click on the 'Save' button.

7.3 Back To Search Results Hyperlink

When you open the details of a claim, you will see that there is a hyperlink labelled 'Back To Search Results', when this hyperlink is clicked you will be taken back to the screen/menu you were on before you opened the claim. For example, if you performed a search and opened a claim from the list of search results, clicking on the 'Back To Search Results' hyperlink would take you back to the search results on the 'Search' screen.

8 Business Rules Engine Tests and Messages

As discussed throughout this user guide, CHOX has a purpose built Business Rules Engine which performs a series of rules on the claim and invoice data that a Credit Hire Organisation submits. Each claim is processed through the Business Rules Engine and the result can be one of three, with the result directly affecting the status of the claim and thus which work queue the claim is routed to.

The three results from the Business Rules Engine are as follows:

Invoice Data Calculation Incorrect – When rules 1-14 fail. The Credit Hire Organisation has an action to amend the invoice detail at which the calculated error is occurring, when the modifications have been made, the claim/invoice will be re-submitted into the Business Rules Engine where all of the below tests will be evaluated again.

Invoice Escalated To Handler – When rules 15-40 fail. The Insurer's handler(s) has an action to review the reason for failure as displayed on the 'History' tab and review the claim/invoice detail and make a decision to clear the invoice for payment or reject the invoice back to the Credit Hire Organisation.

Invoice Approved By BRE – When rules 1-40 pass. The Insurer is required to review the claim/invoice detail and make a decision on whether to clear the invoice for payment or reject the invoice back to the Credit Hire Organisation.

The following rules are performed on the submitted data, with a brief description on each:

Rule Number: 1

Rule: This rule is used to check that the amount paid by RSA upfront for the Claims Handling fee matches the amount discounted off the hire invoice. This ensures that the Insurer are not paying the Claims Handling fee twice or paying more than required.

Rule Failure Message: "The sum of Claims Handling Invoice Amount and Less Claims Handling Fee does not equate to 0"

Rule Failure Status: Invoice Data Calculation Incorrect

Rule Number: 2

Rule: This rule is used to check that Credit Hire Organisations that are participating in the Delegated Authority scheme are not offering an additional discount off the 'Total Gross'.

Rule Failure Message: "CHO is on DA scheme. Discount should be 0."

Rule Failure Status: Invoice Data Calculation Incorrect

Rule Number: 3

Rule: This rule checks that the Credit Hire Organisation has applied the correct discount off the 'Total Gross' field. The discount should equate to the VAT of the agreed Claims Handling amount.

Rule Failure Message: "Discount calculation is incorrect."

Rule Failure Status: Invoice Data Calculation Incorrect

Rule Number: 4

Rule: This rule is used to ensure that the Credit Hire Organisation has calculated the 'Hire Gross' field correctly and simple mathematics has been applied appropriately.

Rule Failure Message: "Hire Gross calculation is incorrect."

Rule Failure Status: Invoice Data Calculation Incorrect

Rule Number: 5

Rule: This rule is used to ensure that the Credit Hire Organisation has calculated the 'Hire VAT' field correctly and simple mathematics has been applied appropriately.

Rule Failure Message: "Hire VAT calculation is incorrect."

Rule Failure Status: Invoice Data Calculation Incorrect

Rule Number: 6

Rule: This rule is used to ensure that the Credit Hire Organisation has calculated the 'Repair VAT' field correctly and simple mathematics has been applied appropriately.

Rule Failure Message: "Repair VAT calculation is incorrect."

Rule Failure Status: Invoice Data Calculation Incorrect

Rule Number: 7

Rule: This rule is used to ensure that the Credit Hire Organisation has calculated the 'Repair Gross' field correctly and simple mathematics has been applied appropriately.

Rule Failure Message: "Repair Gross calculation is incorrect."

Rule Failure Status: Invoice Data Calculation Incorrect

Rule Number: 8

Rule: This rule is used to ensure that the Credit Hire Organisation has calculated the 'Total Net' field correctly and simple mathematics has been applied appropriately.

Rule Failure Message: "Total Net calculation is incorrect."

Rule Failure Status: Invoice Data Calculation Incorrect

Rule Number: 9

Rule: This rule is used to ensure that the Credit Hire Organisation has calculated the 'Total VAT' field correctly and simple mathematics has been applied appropriately.

Rule Failure Message: "Total VAT calculation is incorrect."

Rule Failure Status: Invoice Data Calculation Incorrect

Rule Number: 10

Rule: This rule is used to ensure that the Credit Hire Organisation has calculated the 'Total Gross' field correctly and simple mathematics has been applied appropriately.

Rule Failure Message: "Total Gross calculation is incorrect."

Rule Failure Status: Invoice Data Calculation Incorrect

Rule Number: 11

Rule: This rule is used to ensure that the Credit Hire Organisation has calculated the 'Total to Pay' field correctly and simple mathematics has been applied appropriately.

Rule Failure Message: "Total to Pay calculation is incorrect."

Rule Failure Status: Invoice Data Calculation Incorrect

Rule Number: 12

Rule: This rule is used to ensure that dates around the hire period are logical and the accuracy of data submitted by the Credit Hire Organisation is to the agreed high standard.

Rule Failure Message: "The number of Hire Days billed does not reconcile with the Hire Start and Hire End dates provided."

Rule Failure Status: Invoice Data Calculation Incorrect

Rule Number: 13

Rule: Test to ensure that the Credit Hire Organisation is charging the correct administration fee based on the services they have provided i.e. credit hire only or credit hire and credit repair administration services.

Rule Failure Message: "The Admin Fee billed is too high"

Rule Failure Status: Invoice Data Calculation Incorrect

Rule Number: 14

Rule: This rule checks that the Credit Hire Organisations that are not participating in the Delegated Authority scheme are not invoicing with entries against fields that relate to the Claims Handling invoice and therefore a possible deduction off the amount to be paid by the Insurer.

Rule Failure Message: "Entries against Claims Handling Invoice Amount and Less Claims Handling Fee are not 0."

Rule Failure Status: Invoice Data Calculation Incorrect

Rule Number: 15

Rule: Check against the vehicle class of the non-fault driver's vehicle against the replacement vehicle class supplied to the non-fault by the Credit Hire organisation, check for a like for like match.

Rule Failure Message: "Vehicle class allocated for hire is not a like for like match on the customer's vehicle class."

Rule Failure Status: Invoice Escalated To Handler

Rule Number: 16

Rule: Check to ensure that the Credit Hire Organisation have billed the correct daily rate for the replacement vehicle class as per the suggested ABI GTA rate.

Rule Failure Message: "Daily rate billed for replacement vehicle class exceeds ABI rate."

Rule Failure Status: Invoice Escalated To Handler

Rule Number: 17

Rule: Test against the 'Hire Net' billed by the Credit Hire Organisation against the 'Hire Net' ceiling value (maximum) held against the Credit Hire Organisation who submitted the invoice.

Rule Failure Message: "Hire Net billed exceeds the CHO's Hire Net ceiling."

Rule Failure Status: Invoice Escalated To Handler

Rule Number: 18

Rule: Test against the 'Number of Hire Days' billed by the Credit Hire Organisation against the 'Number of Hire Days' ceiling amount (maximum) held against the Credit Hire Organisation who submitted the invoice.

Rule Failure Message: "Number of hire days billed by the CHO exceeds the CHO's hire days ceiling."

Rule Failure Status: Invoice Escalated To Handler

Rule Number: 19

Rule: This rule looks at Estimated Completion Date's (ECD's) provided by the Credit Hire Organisation and takes into account an agreed set of constants e.g. weekend buffers to calculate an allowable threshold for number of days hire. Rule compares the calculated allowable threshold against the 'Number of Hire Days' billed by the Credit Hire Organisation. This rule is not applied to Total Loss cases.

Rule Failure Message: "Number of hire days billed by the CHO exceeds the allowable days threshold (non total loss), taking into account the ECD(s) provided by the CHO and the additional days allowed through delay variables"

Rule Failure Status: Invoice Escalated To Handler

Rule Number: 20

Rule: This rule looks for multiple claims against one Vehicle Registration Number (VRN). This scenario is valid and can be deemed un-fraudulent but a review is necessary.

Rule Failure Message: "The Customer's Vehicle Registration Number supplied already exists in the system."

Rule Failure Status: Invoice Escalated To Handler

Rule Number: 21

Rule: This rule looks to see if the claim was flagged at the claim notification stage for a manual invoice review regardless as to the results of all the other rules.

Rule Failure Message: "The claim was marked for a manual invoice review at the claim notification stage"

Rule Failure Status: Invoice Escalated To Handler

Rule Number: 22

Rule: This rule looks to see if the Credit Hire Organisation has booked the repair of the non-fault driver's vehicle in on a Friday, Saturday, Sunday or Bank Holiday.

Rule Failure Message: "Repair was booked in on a [As appropriate -Friday/Saturday/Sunday/Bank Holiday]"

Rule Failure Status: Invoice Escalated To Handler

Rule Number: 23

Rule: This rule is used to monitor charges for the 'Automatic Fee'. The rule will fail if the Credit Hire Organisation is making a charge against this extra.

Rule Failure Message: "The CHO is charging an automatic fee for the hire, please review need"

Rule Failure Status: Invoice Escalated To Handler

Rule Number: 24

Rule: This rule is used to monitor charges for the 'Estate Fee'. The rule will fail if the Credit Hire Organisation is making a charge against this extra.

Rule Failure Message: "The CHO is charging an estate fee for the hire, please review need"

Rule Failure Status: Invoice Escalated To Handler

Rule Number: 25

Rule: This rule is used to monitor charges for the 'Non Standard Risk Insurance Premium Fee'. The rule will fail if the Credit Hire Organisation is making a charge against this extra.

Rule Failure Message: "The CHO is charging a non-standard risk insurance premium fee for the hire, please review need"

Rule Failure Status: Invoice Escalated To Handler

Rule Number: 26

Rule: This rule is used to monitor charges for the 'Collision Damage Waiver Fee'. The rule will fail if the Credit Hire Organisation is making a charge against this extra.

Rule Failure Message: "The CHO is charging a collision damage waiver fee for the hire, please review need"

Rule Failure Status: Invoice Escalated To Handler

Rule Number: 27

Rule: This rule is used to monitor charges for the 'Satellite Navigation Fee'. The rule will fail if the Credit Hire Organisation is making a charge against this extra.

Rule Failure Message: "The CHO is charging a satellite navigation fee for the hire, please review need"

Rule Failure Status: Invoice Escalated To Handler

Rule Number: 28

Rule: This rule is used to monitor charges for the 'Baby Seat Fee'. The rule will fail if the Credit Hire Organisation is making a charge against this extra.

Rule Failure Message: "The CHO is charging a baby seat fee for the hire, please review need"

Rule Failure Status: Invoice Escalated To Handler

Rule Number: 29

Rule: This rule is used to monitor charges for the 'Tow Bar Fee'. The rule will fail if the Credit Hire Organisation is making a charge against this extra.

Rule Failure Message: "The CHO is charging a tow bar fee for the hire, please review need"

Rule Failure Status: Invoice Escalated To Handler

Rule Number: 30

Rule: This rule is used to monitor charges for the 'Roof Rack Fee'. The rule will fail if the Credit Hire Organisation is making a charge against this extra.

Rule Failure Message: "The CHO is charging a roof rack fee for the hire, please review need"

Rule Failure Status: Invoice Escalated To Handler

Rule Number: 31

Rule: This rule is used to monitor charges for the 'Vehicle Delivery/Collection Fee'. The rule will fail if the Credit Hire Organisation is making a charge against this extra.

Rule Failure Message: "The CHO is charging a delivery/collection fee for the hire, please review need"

Rule Failure Status: Invoice Escalated To Handler

Rule Number: 32

Rule: This rule is used to monitor charges for the 'Dual Control Fee'. The rule will fail if the Credit Hire Organisation is making a charge against this extra.

Rule Failure Message: "The CHO is charging a dual control fee for the hire, please review need"

Rule Failure Status: Invoice Escalated To Handler

Rule Number: 33

Rule: This rule compares the 'Hire Net' billed by the Credit Hire Organisation against the 'Hire Net' ceiling value (maximum) for the specific vehicle class of the hire vehicle. This rule uses a pre-calculated average 'Hire Net' for each ABI GTA vehicle class as the ceiling check.

Rule Failure Message: "The Hire Net billed £[Billed Amount] exceeds the Hire Net ceiling of £[Value Set] for vehicle class [Class]"

Rule Failure Status: Invoice Escalated To Handler

Rule Number: 34

Rule: This rule looks at the estimated days under repair as indicated by the Engineer, takes into account an agreed set of constants e.g. weekend buffer to calculate an allowable threshold for number of days hire. This rule compares the allowable threshold against the 'Number of Hire Days' billed by the Credit Hire Organisation. This rule is not applied to Total Loss cases.

Rule Failure Message: "Number of hire days billed exceeds the allowable threshold (non total loss) with the inclusion of the Engineer's Estimated Days Under Repair".

Rule Failure Status: Invoice Escalated To Handler

Rule Number: 35

Rule: This rule compares the 'Number of Hire Days' billed by the Credit Hire Organisation against the agreed set of variables that make up the total allowable hire days threshold for a vehicle that is a Total Loss. This rule only applies to Total Loss cases.

Rule Failure Message: "Hire Days Does Not Exceed Total Loss Inspection Number of hire days billed exceeds the allowable threshold (for total loss hires)."

Rule Failure Status: Invoice Escalated To Handler

Rule Number: 36

Rule: Test against the 'Repair Net' billed by the Credit Hire Organisation against the 'Repair Net' ceiling value (maximum) held against the Credit Hire Organisation who submitted the invoice.

Rule Failure Message: "Repair Net billed exceeds the CHO's Repair Net ceiling. "

Rule Failure Status: Invoice Escalated To Handler

Rule Number: 37

Rule: This rule looks at the 'Estimated Total Repair Amount' as indicated by the Engineer and compares it to the 'Repair Gross' billed by the Credit Hire Organisation. Rule is failed if the 'Total Gross' amount is more than the engineer's 'Estimated Total Repair Amount'.

Rule Failure Message: "Repair Gross is higher than the Estimated Total Repair Amount."

Rule Failure Status: Invoice Escalated To Handler

Rule Number: 38

Rule: This rule looks at the 'Total Labour Cost' of the repair of the non-fault vehicle. Applying RSA specific standards based around labour rates and the productivity of a garage when a vehicle is in repair with the addition of an agreed set of variables, a calculated expected/allowable number of hire days is calculated. This calculated number of hire days is compared against the 'Number of Hire Days' billed by the Credit Hire Organisation.

Rule Failure Message: "The number of hire days billed is not relative to the number of expected hire days based on labour cost information"

Rule Failure Status: Invoice Escalated To Handler

Rule Number: 39

Rule: This rule looks at the 'Labour Hours' of the repair of the non-fault vehicle. Applying RSA specific standards based around labour rates and the productivity of a garage when a vehicle is in repair with the addition of an agreed set of variables, a calculated expected/allowable number of hire days is calculated. This calculated number of hire days is compared against the 'Number of Hire Days' billed by the Credit Hire Organisation.

Rule Failure Message: "The number of hire days billed by the CHO is not relative to the number of expected hire days based on the labour information provided"

Rule Failure Status: Invoice Escalated To Handler

Rule Number: 40

Rule: This rule compares the 'Repair Net' billed by the Credit Hire Organisation against the 'Repair Net' ceiling value (maximum) for the specific vehicle class of the hire vehicle. This rule uses a pre-calculated average 'Repair Net' for each ABI GTA vehicle class as the ceiling check.

Rule Failure Message: "The Repair Net billed £[Billed Amount] exceeds the Repair Net ceiling of £[Value Set] for vehicle class [Class]"

Rule Failure Status: Invoice Escalated To Handler

9 Report Extracts

There are a number of opportunities for information to be exported out of CHOX and into a Microsoft Excel spreadsheet.

9.1 Inbox Report Extracts

It is possible to export details of all the claims that appear in the 'Claims Overview Grid' for your inbox. To run this export, you must:

- Navigate to the work queue that you wish to run a Microsoft Excel report extract for.
- Click on the 'Export To Excel' button located at the bottom right hand corner of the 'Claims Overview Grid' as shown by the red box in figure 42 below.

CHOX Home | Settings | Help | Support | About CHOX | Claims Handler, ABC Insurer (Log Off)

Export To Excel

Figure 42

- A pop-up screen will appear asking you whether you would like to save or open the file.
- To open the Microsoft Excel report click on the 'Open' button.
- To save the Microsoft Excel report follow these steps:
 - Click on the 'Save' button.
 - Choose a location of where to save the report and click on the 'Save' button.

9.2 Search Screen Extracts

If you need to export a more meaningful list of claims from the system, then the use of the 'Search' function is required:

- As discussed in section 3.2.5 perform the search criteria you desire.
- A list of claims that meet the search criteria will be displayed in the 'Claims Overview Grid'.
- The list of claims can then be exported by clicking on the 'Export To Excel' button located in the bottom right-hand corner of the 'Claims Overview Grid'.
- Perform the necessary steps to open or save the Microsoft Excel spreadsheet as detailed in section 9.1 above.

10 Reports

CHOX has an in built reporting module that allows a user to review performance against a specific Credit Hire Organisation, group of Credit Hire Organisation's, across specific dates and other parameters that are of interest. The reporting module can be accessed via the 'Reports' tab, a selection of 'out of the box' reports are provided as shown in figure 43 below, the list of reports displayed will vary according to the role of the user.

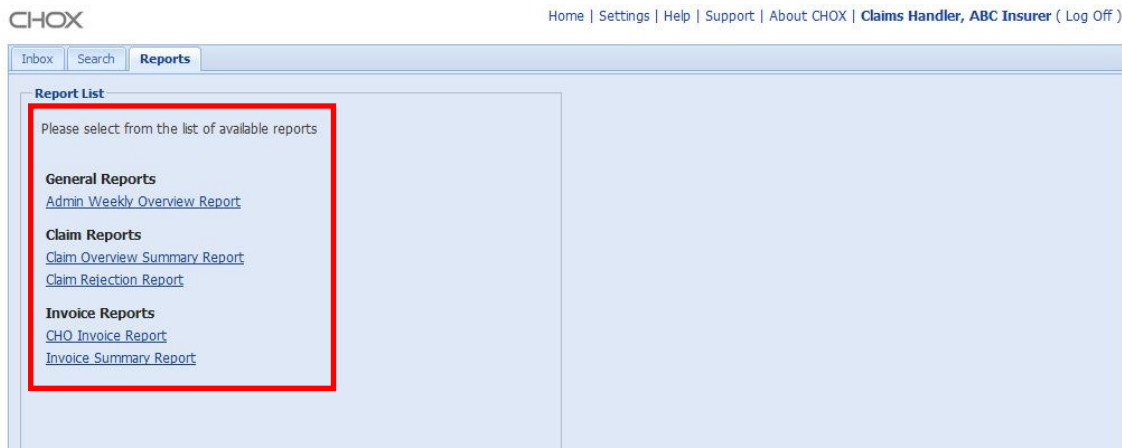

Figure 43

To access a report, click on the report name that you wish to run. Clicking on each report will display a brief summary of what the report is set out to achieve in the right hand window pane of the 'Reports' tab as shown in figure 44 overleaf. Below this brief summary are the report parameters which allow the report in question to meet your specific requirements. Clicking on the 'Generate Report' button will run the report.

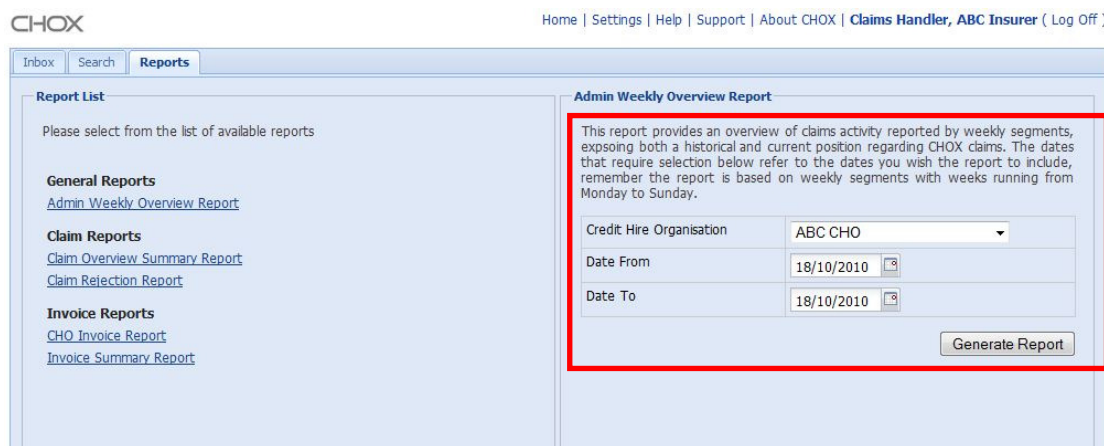

Figure 44

The report output is generated using Microsoft Excel; choose either to open the file directly in Microsoft Excel, or save the file to your PC/network, where it can then be accessed at a later date.

11 Help and Support

11.1 Help Link

Your home page includes a link to this user guide in the top right-hand corner of the screen labelled 'Help' as shown in figure 45 below.

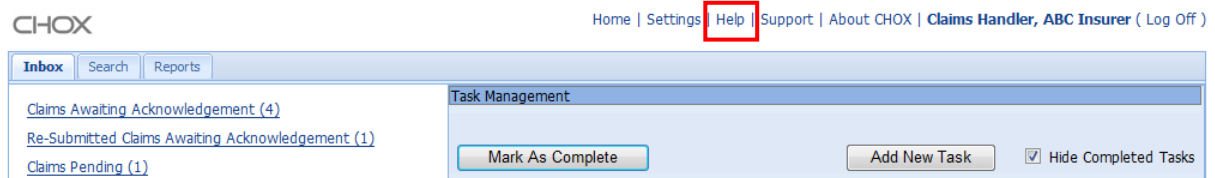

Figure 45

11.2 Support Link

Your home page includes a link to the CHOX Support Procedure, including hours of operation, contact details and the support protocol and the CHOX Online Support Form. Hovering the mouse cursor over the 'Support' link as shown in figure 46 below will enable both of these options.

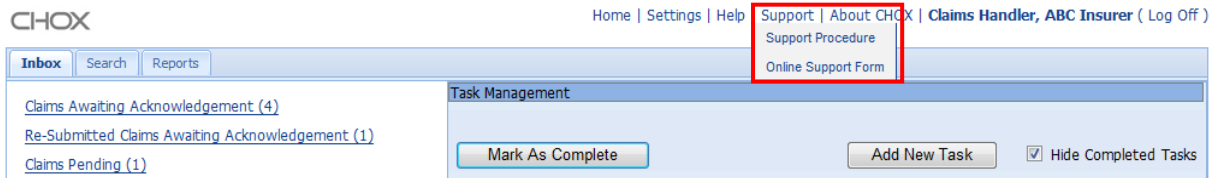

Figure 46

Clicking on the 'Online Support Form' option will launch the Online Support Form in a separate window as shown in figure 47 below. There are three fields which require an entry:

- **Supplier Reference** – This is the Credit Hire Organisation's claim reference number and the Supplier Reference as held in the system that the support request relates to.
- **Subject** – A short description of the support request.
- **Message** – A detailed message regarding the support request so that the CHOX support team can follow up the request in the most efficient and effective manner. Contact details should be included as part of this message.

A screenshot of the 'Online Support Form' window. It contains three input fields: 'Supplier Reference', 'Subject *', and 'Message *'. The 'Subject' and 'Message' fields are marked with an asterisk, indicating they are required. Below the input fields is a 'Submit' button.

Figure 47

12 Administration

The administration function is only available to users who have the right privileges and are registered in the system as Insurer Managers/Supervisors type roles. This role based security allows only those users that require administrative rights access to password information, control users within the Organisation and their respective privileges as well as management of the business rules held within CHOX.

The CHOX administration function can be accessed by clicking on the 'Admin' tab. Clicking on the 'Admin' tab will display the 'Admin Panel' as shown in Figure 48 below.

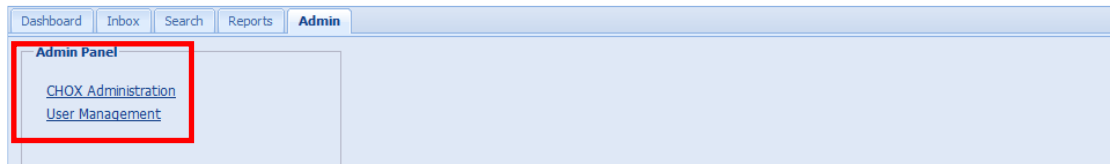

Figure 48

The Insurer Manager is presented with two menu options, 'CHOX Administration' or 'User Management'.

The 'CHOX Administration' section allows the Insurer Manager to manage the business rules and the mapping of these to Credit Hire Organisations and also the control of Hire Net and Repair Net ceilings for specific vehicle classes. The 'User Management' section allows the Insurer Manager to add new users, assign roles to users and modify user details. Both the 'CHOX Administration' and 'User Management' sections of the 'Admin Panel' are described in more detail below.

12.1 Administration: CHOX Administration Section

Clicking on the 'CHOX Administration' hyperlink, will display a number of further tab options in the right hand window pane as shown in figure 49 below.

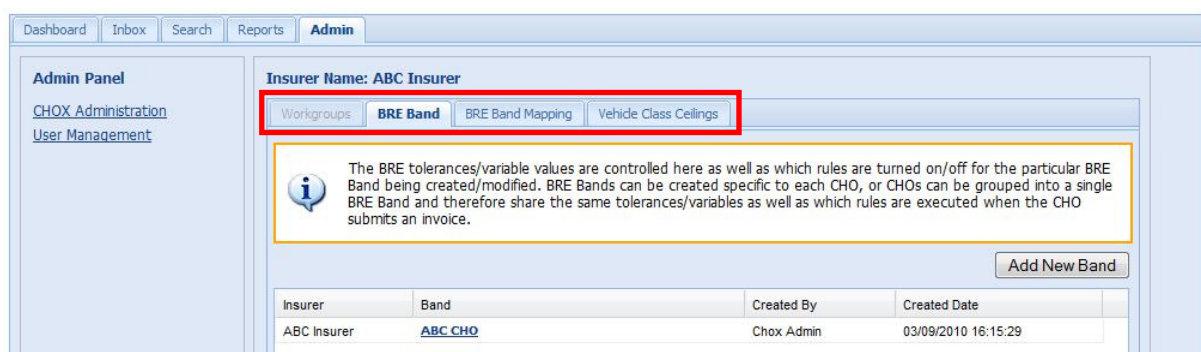

Figure 49

12.1.1 BRE Band Tab

The Business Rules Engine is a set of predefined rules that are automatically applied when an invoice is submitted into the system by a Credit Hire Organisation, the validation of the invoice will generate one of four results as described in section 8, which will in turn affect where the claim/invoice is routed to.

Tolerances against the majority of the rules are available which allow an Insurer to more effectively manage the Credit Hire Organisations who are submitted invoices into the system. The rules and tolerances are fully customisable per Credit Hire Organisation or a set of bands can be created where the Insurer can assign Credit Hire Organisation's to a band.

The 'BRE Band' tab is the second tab in the 'CHOX Administration' section and will display the current BRE Bands set up (if any) in a table as shown in figure 50.

Insurer	Band	Created By	Created Date
ABC Insurer	ABC CHO	Chox Admin	03/09/2010 16:15:29

Figure 50

The user has the ability to add a new BRE Band by clicking on the 'Add New Band' button or edit an existing BRE Band by clicking on the hyperlink in the 'Band' column of the table.

12.1.1.2 Adding a new BRE Band

To get started on adding a new BRE Band, the user must click on the 'Add New Band' button as located in right hand corner of the 'BRE Band' tab.

This will bring up the following form, which must be completed by the Insurer Manager. This form contains the name of the BRE Band, the tolerance values for the business rules and the ability to switch on/off each of the rules available in CHOX.

Figure 51

Mandatory fields

The BRE Band tab needs to be completed in full in order to save the new BRE Band. Entries are required against each of the fields indicated by a red asterisk (*) next to the text label of the relevant field.

Grey text boxes are non-editable and are populated automatically using values entered against the corresponding white editable field. The editable field for the tolerance in question will be displayed above any of the non-editable corresponding fields. For example the editable field of 'Take Mobile Vehicle To Garage Variable (Days)' as shown in figure 52 below will be displayed above any other field labelled in the same way and these fields that follow will be greyed out as shown in figure 53 below.

Figure 52

Figure 53

Some fields are non-editable and are greyed out because they represent the total tolerance allowed for a specific rule based on the addition of the all the tolerances that contribute to the business rule in question.

Additional Invoice Validations Section

Located at the bottom of the 'BRE Band' tab is the 'Additional Invoice Validations' section, this section displays all of the business rules performed as part of the validation exercise when a Credit Hire Organisation uploads an invoice, along with a tick box against each rule in order to control whether the rule is on or off. Each rule has a description underneath of what validation check is performed and should only be selected (tick box checked) if it is desired that this check is carried out when an invoice is uploaded.

Saving Changes

Once all of the boxes have been populated, the user can save the new BRE Band by clicking on the 'Save Changes' button located at both the top and bottom of the screen. The user can also choose to discard any changes by clicking on the 'Cancel' button at any time.

When saving changes, a pop-up window will be displayed as shown in figure 54 below, click on the 'OK' button to confirm saved changes, or click 'Cancel' to go back to the BRE Band creation page.

Figure 54

12.1.2 BRE Band Mapping Tab

Once a BRE Band has been created, a Credit Hire Organisation needs to be assigned to the newly created BRE Band through the interface shown in figure 55 below, please note that more than one Credit Hire Organisation can be assigned to one BRE Band.

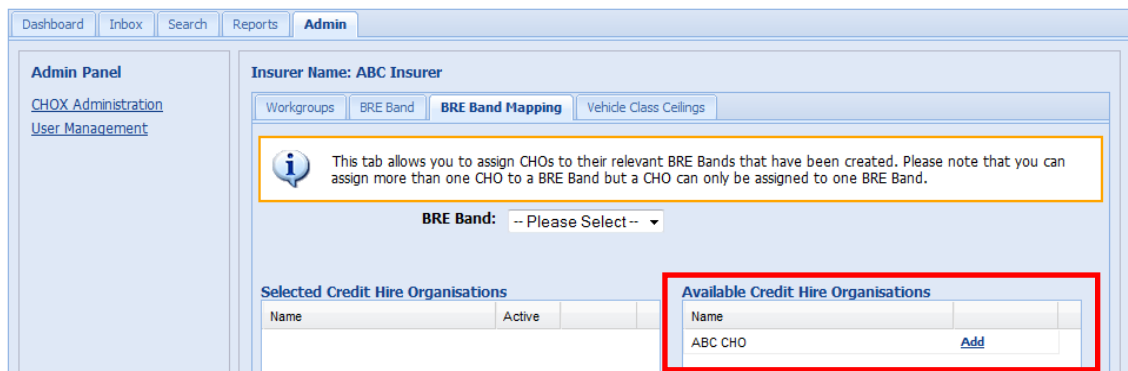

Figure 55

The 'BRE Band Mapping' tab has three main sections:

'BRE Band' drop down menu – This drop down menu contains a list of all of the BRE Bands that have been set up in the system. The user must select the BRE Band which they would like to assign to the relevant Credit Hire Organisation as shown in figure 56 below.

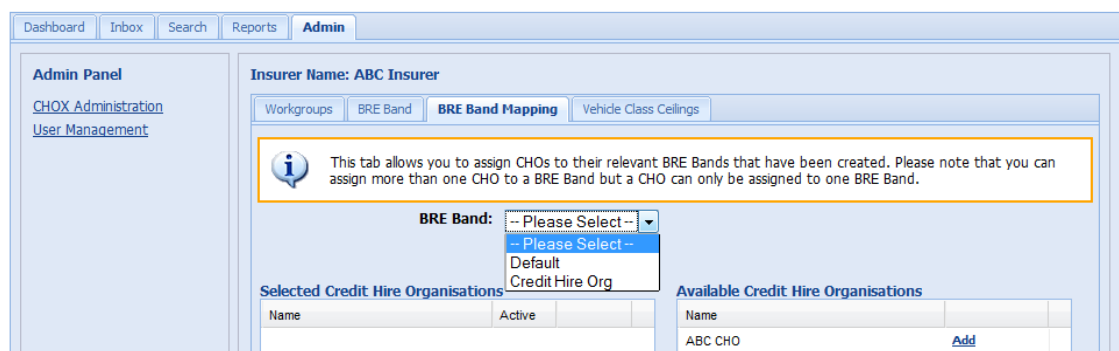

Figure 56

Available Credit Hire Organisations – This is a list of all the Credit Hire Organisations that do not have a BRE Band assigned against them, without an assignment, a Credit Hire Organisation will not be able to upload a claim/invoice into the system. A Credit Hire Organisation cannot belong to more than one BRE Band and will not be available in this list if already allocated a BRE Band.

If the BRE Band selected is the correct one for the Credit Hire Organisation in question, click on the 'Add' hyperlink located next to the relevant Credit Hire Organisation name as indicated by the red box in figure 57 below to assign the Credit Hire Organisation to the selected BRE Band.

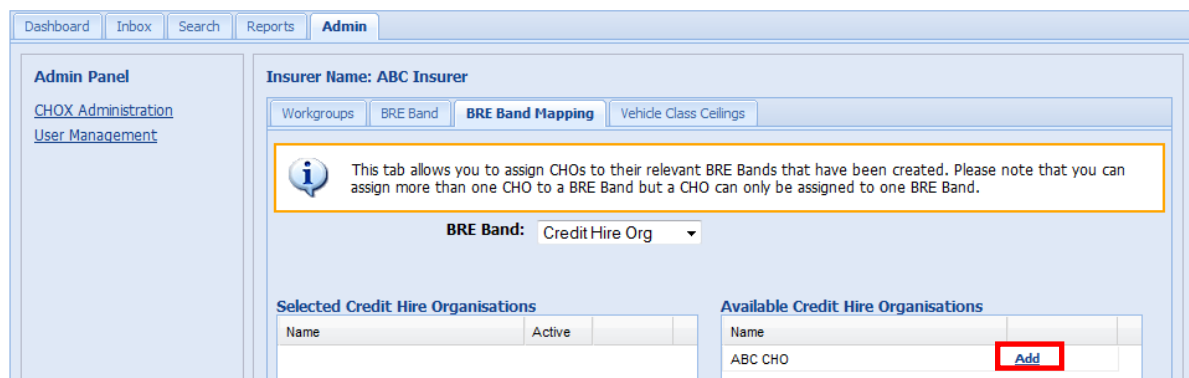

Figure 57

The Credit Hire Organisation is moved from the 'Available Credit Hire Organisations' table to the 'Selected Credit Hire Organisations' table as shown in figure 58 below.

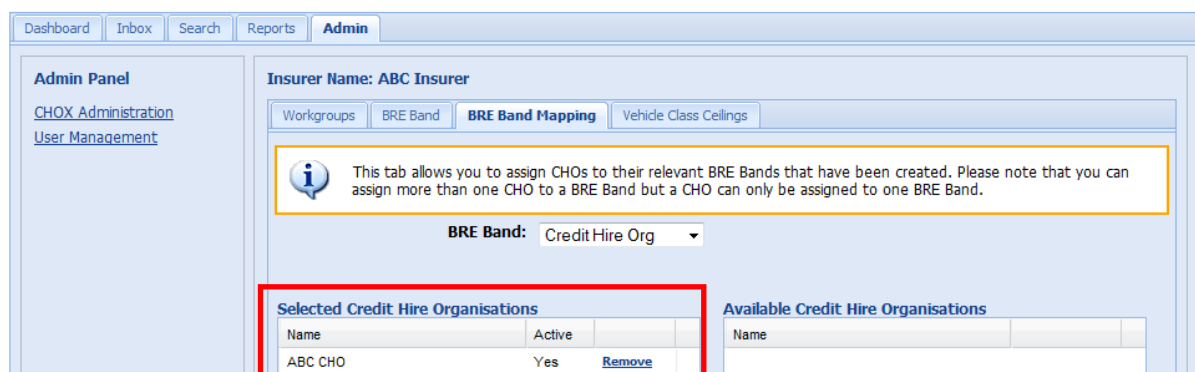

Figure 58

Selected Credit Hire Organisations - This table shows a list of all the Credit Hire Organisations that have already been assigned to the BRE Band that appears in the 'BRE Band' drop down menu. The assignment of the Credit Hire Organisation to this BRE Band can be removed by clicking on the 'Remove' hyperlink, moving the Credit Hire Organisation name back into the 'Available Credit Hire Organisations' table as shown in figure 59 below.

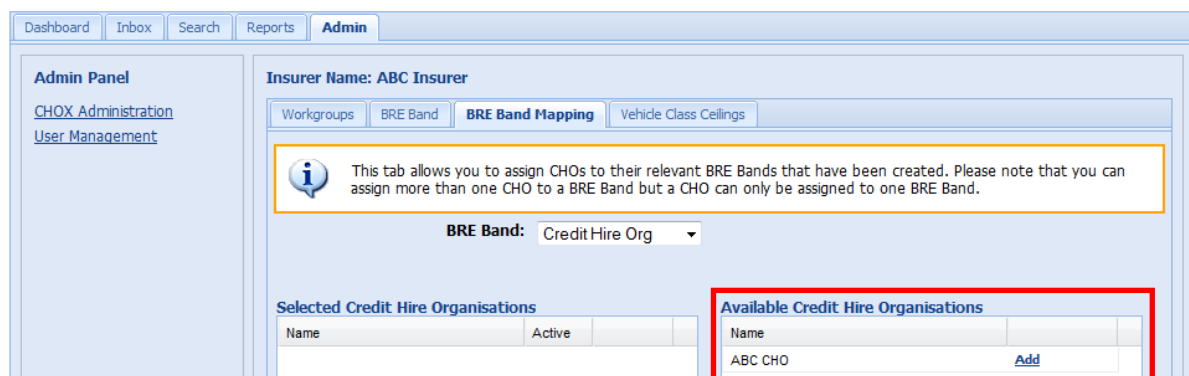

Figure 59

12.1.3 Vehicle Class Ceilings Tab

The 'Vehicle Class Ceilings' tab allows an Insurer to assign and control ceiling values against both the Hire and Repair fields for each of the different vehicle classes. The 'Vehicle Class Ceilings' tab is displayed below in figure 60.

Dashboard | Inbox | Search | Reports | **Admin**

Admin Panel
[CHOX Administration](#)
[User Management](#)

Insurer Name: ABC Insurer

Workgroups | BRE Band | BRE Band Mapping | **Vehicle Class Ceilings**

Vehicle Class Ceiling

The maximum ceiling limits for both the Hire Net and Repair Net for the specific vehicle classes is managed here. If a CHO submits an invoice where the Hire Net or Repair Net value(s) exceed the values held in the below table for the specific vehicle class in question, (non-fault vehicle's vehicle class) then the rule will fail.

Vehicle Class: -- Please Select --
Hire Net Ceiling: 0.00
Repair Net Ceiling: 0.00

[Add New Vehicle Class](#)

Vehicle Class	Hire Net Ceiling	Repair Net Ceiling
---------------	------------------	--------------------

Figure 60

The required vehicle class information needs to be inputted in the fields as indicated by the red box in figure 60 above. Below is a brief description on each of these fields:

Vehicle Class – This is a list of all the vehicle classes available within CHOX. Selecting a vehicle class from the list will mean that the 'Hire Net Ceiling' and 'Repair Net Ceiling' values entered will be attributed to the selected vehicle class.

Hire Net Ceiling – The maximum Hire Net value allowed for an invoice with the selected vehicle class (vehicle class of non-fault party).

Repair Net Ceiling – The maximum Repair Net allowed for an invoice with the selected vehicle class (vehicle class of non-fault party).

Once these fields have been populated, click on the 'Add New Vehicle Class' button. The vehicle class entry along with the values entered will be displayed in the 'Vehicle Class Ceiling' table as shown in figure 61 below.

Dashboard | Inbox | Search | Reports | **Admin**

Admin Panel
[CHOX Administration](#)
[User Management](#)

Insurer Name: ABC Insurer

Workgroups | BRE Band | BRE Band Mapping | **Vehicle Class Ceilings**

Vehicle Class Ceiling

The maximum ceiling limits for both the Hire Net and Repair Net for the specific vehicle classes is managed here. If a CHO submits an invoice where the Hire Net or Repair Net value(s) exceed the values held in the below table for the specific vehicle class in question, (non-fault vehicle's vehicle class) then the rule will fail.

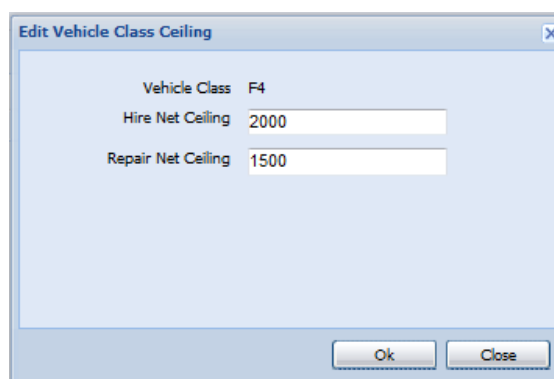

Vehicle Class: -- Please Select --
Hire Net Ceiling: 0.00
Repair Net Ceiling: 0.00

[Add New Vehicle Class](#)

Vehicle Class	Hire Net Ceiling	Repair Net Ceiling	
F1	1000	1200	Remove

Figure 61

Vehicle class values can be edited by clicking on the vehicle class name hyperlink located under the 'Vehicle Class' column, the following pop-up window will appear:

The 'Edit Vehicle Class Ceiling' window displays the following fields:

- Vehicle Class: F4
- Hire Net Ceiling: 2000
- Repair Net Ceiling: 1500

Buttons: Ok, Close

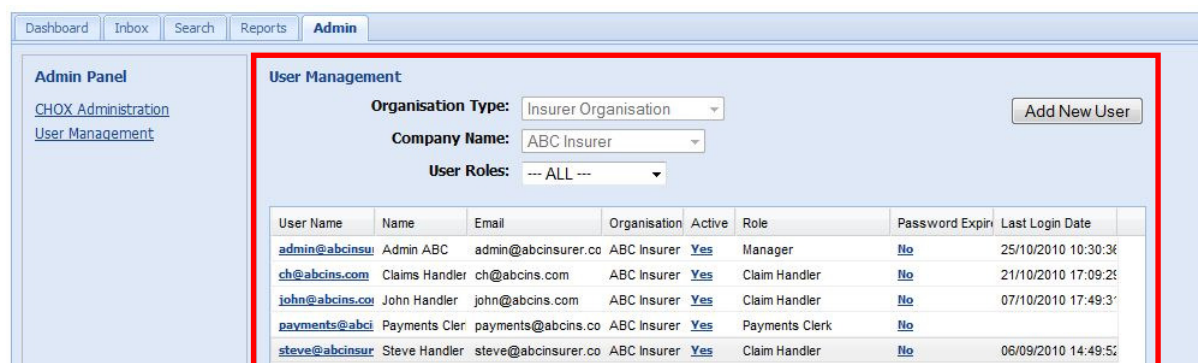

Figure 62

Edit the current values, clicking on the 'Ok' button to save the changes and clicking on the 'Cancel' button to discard changes made.

A vehicle class ceiling can be removed by clicking on the 'Remove' hyperlink next to the relevant vehicle class that is to be removed.

12.2 Administration: User Management Section

Clicking on 'User Management' hyperlink from the 'Admin Panel' section, will display a list of all registered CHOX users within your Organisation as displayed below in Figure 63.

The 'User Management' screen includes the following elements:

- Organisation Type:** Insurer Organisation
- Company Name:** ABC Insurer
- User Roles:** --- ALL ---
- Add New User** button
- User Table:**

User Name	Name	Email	Organisation	Active	Role	Password Expiry	Last Login Date
admin@abcinsur	Admin ABC	admin@abcinsurer.co	ABC Insurer	Yes	Manager	No	25/10/2010 10:30:36
ch@abcins.com	Claims Handler	ch@abcins.com	ABC Insurer	Yes	Claim Handler	No	21/10/2010 17:09:25
john@abcins.co	John Handler	john@abcins.com	ABC Insurer	Yes	Claim Handler	No	07/10/2010 17:49:37
payments@abci	Payments Cler	payments@abcins.co	ABC Insurer	Yes	Payments Clerk	No	
steve@abcinsur	Steve Handler	steve@abcinsurer.co	ABC Insurer	Yes	Claim Handler	No	06/09/2010 14:49:52

Figure 63

This 'User Management' table allows you to view details about each of the registered users, with the ability to modify these settings or include additional details. Below details what each of the columns represent and other functions available on this screen:

- **User Name** – This is the user's Username and is to be used when logging into CHOX. The User Name also acts as a hyperlink that will take you to the specific user's details screen.
- **Name** – The full name of the user (first and last names).
- **Email** – This is the user's email address and is used when sending out any communications by the CHOX Support Team.
- **Organisation** – This is automatically pre-populated to be the name of the Organisation to which the user is registered against.
- **Active** – This is an active status setting, which can be modified on a per user basis. If you do not want a particular user to have the ability to log into CHOX, you can click on the 'Yes' hyperlink highlighted in blue on the user's corresponding line, changing the hyperlink to 'No',

in effect making the user inactive on the CHOX system. Clicking on the 'No' hyperlink will reverse the process and make the user active on the system. Each time you click on this hyperlink, a warning box will be displayed, requiring you to accept or cancel the request as shown in figure 64 below.

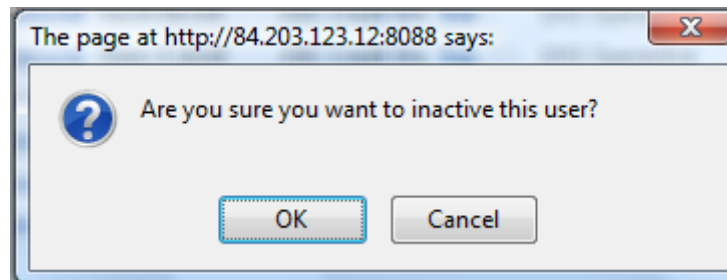

Figure 64

- **Role** – Displays which role(s) the user has been assigned. The role assigned will affect which work queues are visible, which tabs are visible as well as dictating the read/write access the user has throughout the claim lifecycle.
- **Last Login Date** – This represents the date the user last logged into CHOX.
- **Has Password Expired?** – The Insurer Manager role has the ability to force a user to change their password when they next log in to the system. Clicking on the 'No' hyperlink in the 'Has Password Expired?' column will change the hyperlink to 'Yes', next time the user logs into the system they will be forced to change their password. Before the password can be set to expired, the system asks you to confirm that you wish to perform this action. This can be seen below in Figure 65.

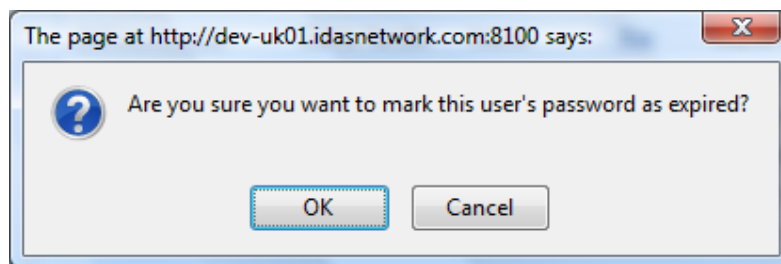

Figure 65

Clicking on the 'Yes' hyperlink will reverse the process and set the value of the hyperlink to 'No'.

- **User Roles (Drop Down Box)** – By clicking on the downward arrow in the drop down box, the Insurer Manager can filter the list of registered users by their role, with the default view being all roles.
- **Add New User (Button)** – The 'Add New User' button should be used when there is a requirement to add a new user, more details on this can be found in section 12.2.1 Adding a New User.

12.2.1 Adding a New User

To add a new user, click on the 'Add New user' button, the 'User Detail' tab will appear as shown in figure 66 below.

The screenshot shows the 'User Detail' tab in the 'Admin Panel'. The form is titled 'User Name: Create New User'. It has tabs for 'User Detail', 'Change Password', 'User Roles', and 'Workgroups'. The 'Organisation Type' is 'Insurer Organisation Users'. The form includes the following fields:

- User Name *
- Email *
- First Name *
- Last Name *
- Password *
- Re-enter Password *

Below the fields, there is a note: 'N.B. Passwords are case sensitive. Must be at least 6 characters. Must contain at least one lower case letter, one upper case letter, and one number.' There is also an 'Active' checkbox. At the bottom are 'Save Changes' and 'Cancel' buttons.

Figure 66

12.2.1.1 User Management: User Detail Tab

In order to set up new users, the Insurer Manager is required to fill in the above form with information about the individual being registered. Any field that has a red asterisk (*) next to it indicates a mandatory field and therefore cannot be left blank. Below is a brief explanation of each field that appears on this form:

- **Organisation Type** – This will always be pre-defined as Insurer Organisation Users.
- **Username** - This will be the username that the user will use for logging into the CHOX.
- **Email** – This is the user's email address.
- **First Name** – The first name of the user that is being registered.
- **Last Name** – The surname of the user that is being registered.
- **Password** – This is the password the user will use to log onto CHOX. Passwords are case sensitive, must be at least 6 characters, must contain at least one lower case letter, one upper case letter, and one number. If the password does not meet this criteria, you will be prompted to re-enter the password.
- **Re-enter password** – This must be the same password that is entered into the Password box above. This is a security check to ensure that the password chosen is the desired one.
- **Active (Tick Box)** – The 'Active' tick box can be either checked or left unchecked. By checking the box, you make this user's account live enabling the user instant access to the CHOX system. If the 'Active' tick box is left unchecked then the user will not be able to log in to the system using these credentials.
- **Save Changes (Button)** – The 'Save Changes' button should be clicked once all of the mandatory fields have been completed. If the user setup is successful you will be notified of such. If for any reason there has been an error, a useful error message will be displayed indicating what changes need to be made in order to create the user.
- **Cancel (Button)** – The cancel button will abandon any changes made and will take you back to the 'User Management' overview screen.

12.2.1.2 User Management: Change Password Tab

Once a new user has been added and the 'Save Changes' button has been pressed (see 12.2.1 Adding a New User for more information) the user tabs will be active, as shown in Figure 67 overleaf:

The screenshot shows the 'User Detail' tab for user 'ch312 (Claims Handler3)'. The 'Change Password' tab is highlighted with a red box. The user details are as follows:

Field	Value
Organisation Type	Insurer Organisation Users
Company Name	ABC Insurer
User Name *	ch312
Email *	ch3@abcinsurer.com
First Name *	Claims
Last Name *	Handler3
Active	☒

Buttons: Save Changes, Cancel

Figure 67

Clicking on the 'Change Password' tab will bring up the following screen, as shown below in Figure 68:

The screenshot shows the 'Change Password' tab for user 'ch312 (Claims Handler3)'. A message box states: "N.B. Passwords are case sensitive. Must be at least 6 characters. Must contain at least one lower case letter, one upper case letter, and one number." Below this are two input fields: Password * and Re-enter Password *. A 'Save Password' button is at the bottom.

Figure 68

- **Password** – This is the password the user will use to log onto CHOX. Passwords are case sensitive, must be at least 6 characters, must contain at least one lower case letter, one upper case letter, and one number. If the password does not meet this criteria, you will be prompted to re-enter the password.
- **Re-enter password** – This must be the same password that is entered into the Password box above. This is a security check to ensure that the password chosen is the desired one.

12.2.1.3 User Management: User Roles Tab

Clicking on the 'User Roles' tab will bring up the following screen, as shown below in figure 69.

The screenshot shows the 'User Roles' tab for user 'ch312 (Claims Handler3)'. A message box states: "Assign one or more user roles against this user by using the 'Add New Role' button below. The assignment of roles will dictate which work queues the user will see as well as the user's access/permission rights." Below this is a dropdown menu with "-- Please Select --" and an "Add New Role" button. At the bottom is a table with columns: Role, Created By, Created Date.

Figure 69

Below is a brief explanation of the 'User Role' tab:

- **Add New Role Drop Down Menu** – This has a list of the roles available for this user.

- **Add New Role (Button)** – Once the role has been chosen from the drop down menu, the Insurer Manager must click on the 'Add New Role' button to add the User to that role group. This will then be seen in the table underneath, as shown in figure 70 overleaf.

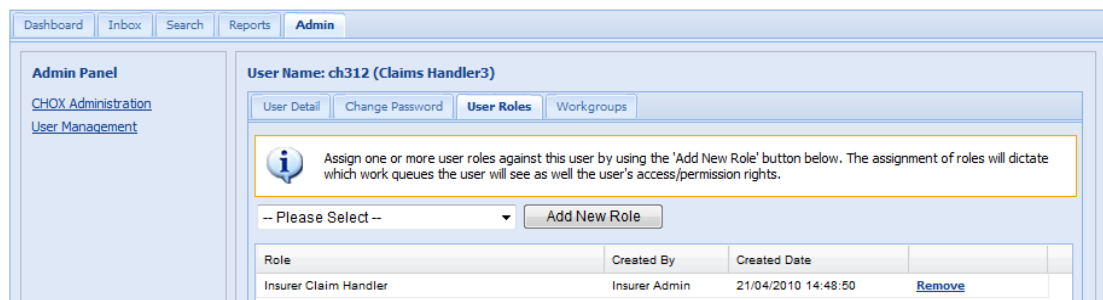

Figure 70

User Roles table/grid descriptions:

- **Role** – The 'Role' column shows what roles are assigned to the user.
- **Created By** – This is the Insurer Manager who has assigned the role to the user.
- **Created Date** – The time and date that this role was assigned to the user.
- **Remove** – The 'Remove' text is a hyperlink that enables the Insurer Manager the ability to remove a role that has been assigned to a user. When this hyperlink is clicked, you will be asked to confirm whether you wish to remove the role assignment for the user in question as shown in figure 71 below.

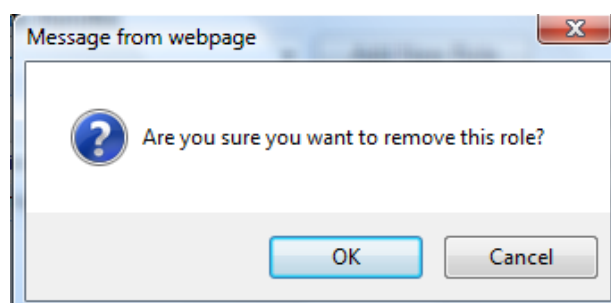

Figure 71

12.2.1.4 User Management: Editing an Existing User

Once a user has been created, you can click on the user's email hyperlink underneath the column headed 'Email' on the 'User Management' overview screen (figure 72 below) and change certain details relating to the individual user as described in the section 12.2.1.1.

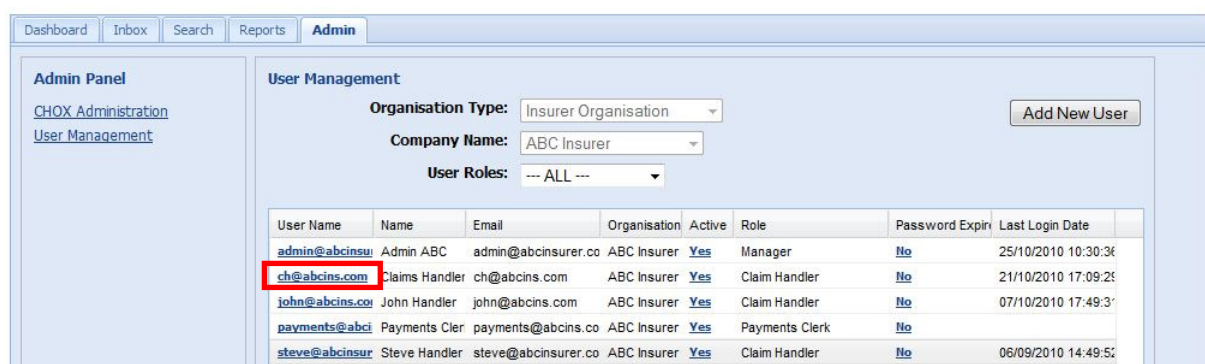

Figure 72

Appendix A – Claim Status Explained

A claim will always have a specific status throughout its life in CHOX. The behaviour of the claim and thus the behaviour of the user experience are directly affected by the status of the claim.

There are two areas in the system that allows you to see the status of a claim at any given point in time. The first is on the 'Claims Overview Grid' as shown by the red box in figure 73 below.

Claims

[Export Claim To Excel](#)

Figure 74

There are a number of statuses for a claim, below is a list of all possible statuses with a brief description of each.

- **AwaitingCarHireInfo** – It is the Credit Hire Organisation's duty when the status is 'AwaitingCarHireInfo' to update the required fields on the 'Hire Monitoring' tab throughout the duration of the hire. Invoice details cannot be uploaded against a claim until the required fields have entries against them.
- **AwaitingInvoiceData** – This status indicates that the Credit Hire Organisation has entered the required fields on the 'Hire Monitoring' tab and thus the Credit Hire Organisation can upload invoice details against the claim, indicating that the hire vehicle has been off-hired.
- **AwaitingInvoicePayment** – This status indicates that the Insurer has made the decision to approve the claim/invoice for payment. The Insurer has an action to make a payment against the claim using the Insurer's internal payment system; once this payment has been made the Insurer is required to update the status in CHOX. The Insurer should enter notes against the claim for the Credit Hire Organisation's benefit regarding any important payment information.
- **AwaitingLiabilityResolution** – This status indicates that the Insurer has cleared the claim for payment and approved the claim on a quantum basis, however liability is yet to be agreed, the claim will sit in the status, effectively acting as a holding queue until the point liability is agreed/resolved/repudiated between the Credit Hire Organisation and Insurer.
- **ClaimClosed** – This status indicates that the Credit Hire Organisation has removed the claim from CHOX; this is the end of the claim's life in the system.

- **ClaimPending** – This status indicates that the Insurer is awaiting further information in order to make a decision on whether to acknowledge or reject the claim, in most instances the Insurer is awaiting further information from their policyholder, the at-fault driver.
- **ClaimRejected** – This status requires action by the Credit Hire Organisation as to the Insurer's decision to reject the claim in question. The Credit Hire Organisation will need to either accept the Insurer's decision to reject the claim or contest the Insurer's decision to reject the claim. Supporting notes should be added regardless of the decision reached. The Credit Hire Organisation has the ability to amend the details held on the 'Claim Details' tab before contesting the Insurer's decision, notes should be added to the claim to inform the Insurer of any changes made.
- **ClaimRejectionAccepted** – This status indicates the end of the life of the claim in question as the Credit Hire Organisation has accepted the Insurer's decision to reject the claim, no further action is required by either the Insurer or the Credit Hire Organisation, and relevant notes should be added by the Credit Hire Organisation.
- **ClaimRejectionContested** – This status indicates that the Credit Hire Organisation has contested the Insurer's decision to reject the claim. The Insurer will have an action to review the contested claim and any supporting notes that may have been added and make a decision again on whether to acknowledge or reject the claim providing supporting notes/comments where applicable.
- **ClaimUnacknowledgedRouted** – This status refers to claims that have been routed to the relevant claims handler within the Insurer. The Insurer has an action at this stage to review the claim details against details registered on internal systems and make a decision on whether to acknowledge or reject the claim, adding any notes as required and/or details regarding the claim acceptance/rejection, specifically details regarding liability and indemnity.
- **ContestedInvoiceReferredToCHO** – This status indicates that the Insurer has escalated the claim to the Credit Hire Organisation with supporting notes on why this decision has been made. The Credit Hire Organisation is required to review any Insurer notes, and make a decision on whether to accept the claim/invoice rejection or contest the claim/invoice rejection. If the Credit Hire Organisation makes the decision to accept the claim/invoice rejection then supporting notes should be made. If the Credit Hire Organisation makes the decision to contest the claim/invoice rejection then the Credit Hire Organisation needs to make any necessary changes to the claim/invoice details and/or attach a payment pack/file if required and/or add a note to the claim and then re-submit the claim into the Business Rules Engine.
- **ContestedInvoiceReferredToInsurer** – This status indicates that the Credit Hire Organisation has received a claim previously in the state of 'ContestedInvoiceReferredToCHO' made any necessary amendments and re-submitted the claim into the Business Rules Engine and now it is back with the Insurer for review. The Insurer will review any new notes from the Business Rules Engine as well as the historic notes from previous Business Rule Engine tests, and if applicable Credit Hire Organisation's notes and/or the attached payment pack/file will be reviewed. The Insurer is required to make a decision on whether to approve the invoice or escalate the claim/invoice back to the Credit Hire Organisation.
- **InvoiceApprovedByBRE** – This indicates that all of the details regarding the invoice and the claim pass through the Business Rules Engine and there are no flags on the claim prompting the Insurer to manually review the claim. The Insurer is still required to approve the invoice for payment or to reject the claim/invoice back to the Credit Hire Organisation.
- **InvoiceDataCalculationIncorrect** - This status indicates that the Credit Hire Organisation has made fundamental calculation errors in the invoice data uploaded. The Credit Hire Organisation will be presented with details via the 'Remark' column on the XML upload screen and on the 'History' tab. The Credit Hire Organisation will need to make the necessary amendments to the 'Invoice Details' tab and re-submit the claim.
- **InvoiceEscalatedToHandler** - This status indicates that there are certain details within the submitted claim/invoice that the Insurer's claims handlers would like to review before making a decision on whether to approve or reject the claim/invoice for payment. The Credit Hire Organisation is not required and cannot make any changes to the claim during this status.

- ***InvoicePaymentLogged*** – This status indicates that the Insurer has made a payment against the claim on the Insurer’s internal payments system. The Credit Hire Organisation should review any notes against the claim for any relevant payment information. The Credit Hire Organisation is required to raise physical invoices for claims of this status for the amounts held on CHOX.
- ***InvoiceRejectionAccepted*** - This status indicates the end of the life of the claim in question as the Credit Hire Organisation has accepted the Insurer’s decision to reject the claim/invoice, no further action is required by either the Insurer or the Credit Hire Organisation, and relevant notes should be added by the Credit Hire Organisation.
- ***PaymentReceived*** – Once the payment has been received by the Credit Hire Organisation from the Insurer, there is a requirement for the status of the claim in question in CHOX to be updated to reflect this. This allows both the Insurer and the Credit Hire Organisation to see that the claim does not have an outstanding payment and the case is settled, indicating the end of the life of the claim in question; no further action is required within CHOX by either the Insurer or the Credit Hire Organisation.
