1 iDAS CHOX Credit Hire Organisation and Insurer Responsibilities

This section details the roles and responsibilities for all parties regarding the use of iDAS CHOX regarding the credit hire and/or credit repair process.

1.1 Claim and Invoice Data

It is the Credit Hire Organisation's responsibility to upload claim and invoice data into iDAS CHOX. This will either be from a direct feed from internal systems via a Web Service or via an XML upload feed into the iDAS CHOX web browser front end.

It is the Credit Hire Organisation's responsibility to ensure that the data being uploaded into iDAS CHOX is of an accurate, complete and consistent nature.

1.2 Claim Acknowledgement

The Insurer will review all incoming '1st claim notifications' and assess against details held on internal systems as to whether to acknowledge or reject a claim.

1.3 Claims Handling Payment (Delegated Authority (DA) Scheme)

Claims Handling fee payments only apply to Credit Hire Organisations that have subscribed to the Delegated Authority VAT savings scheme and thus a contract has been drawn and signed between Credit Hire Organisation and Insurer.

It is the responsibility of the Credit Hire Organisation to raise a separate invoice internally specifically for the Claims Handling fee. The Credit Hire Organisation is able to raise a Claims Handling invoice when and only when the claim has been accepted by the Insurer within iDAS CHOX.

It is the responsibility of the Insurer to make the required payments for the Claims Handling fee.

1.4 Monitoring of Hire

It is the Credit Hire Organisation's duty to monitor the progress of a hire/repair. Information obtained from the hire/repair monitoring process is to be entered into iDAS CHOX against the claim in question.

1.5 Invoice Approval

It is the responsibility of the Insurer to review claims following the invoice validation process in iDAS CHOX and are required to make a decision on whether to clear the claim for payment or reject the claim in question given the information supplied; supporting notes are to be provided by the Insurer.

1.6 Invoice Amendment

It is the Credit Hire Organisation's responsibility to make modifications to a claim/invoice where fundamental data errors have occurred. The Credit Hire Organisation is also required to supply additional information to a claim via the means of iDAS CHOX upon request by the Insurer.

1.7 Invoice Payment

It is the responsibility of the Insurer to monitor payments required for invoices using iDAS CHOX once a claim has been cleared for payment. The payment will be logged on the Insurer's internal payments system however a requirement to update iDAS CHOX of this payment is in order.

The Credit Hire Organisation is required to monitor iDAS CHOX for all claims where an Insurer has logged a payment for the invoice, all such claims will require a manual invoice to be raised on the Credit Hire Organisation's internal invoicing system and then sent to the Insurer.

When the Credit Hire Organisation has received payment they are required to update the claim's status in iDAS CHOX.

2 Getting Started

2.1 System Requirements

iDAS CHOX can be accessed online and is supported by the following web browsers only:

- Internet Explorer 6 or higher
- Mozilla Firefox 3 or higher
- Safari 3 or higher

2.2 Logging On

- Before you can begin using iDAS CHOX, you will need at hand your registered username and password as supplied by the iDAS CHOX support team. You will have been sent an e-mail detailing your username and password.
- Using your preferred web browser from the list above, enter the following URL into your browser's address bar: **https://www.idaschox.com**
- Enter your case sensitive username and password into the relevant fields as shown on figure 1 below.

This is a Sherwood Compliance Services Ltd proprietary system. No use is allowed without appropriate authorisation. Unauthorised use of this system will constitute a breach of Sherwood Compliance Services Ltd policy and prosecution under pertinent legislation will apply.

Figure 1

2.3 User Roles

There are two user roles for a Credit Hire Organisation within iDAS CHOX; each role is specific with appropriate read/write and access privileges. These roles are detailed below with a brief description of each role:

- **CHO Operative** – Access to all work queues and every day Credit Hire Organisation functionality.
- **CHO Admin** – Access to all of the CHO Operative's queues and functionality. In addition the CHO Admin role will have access to the administrative functionality within iDAS CHOX, offering the ability to create users and assign roles to users. The CHO Admin role also offers access to iDAS CHOX's reporting functionality.

3 Basics

3.1 iDAS CHOX at a Glance

On logging into iDAS CHOX you will be presented with the following screen layout:

Figure 2

3.2 Navigation

iDAS CHOX can be navigated using a mouse to click on menu items and arrows.

3.2.1 Control Toolbar

The 'Control Toolbar' is located in the top right-hand side of the iDAS CHOX screen as shown by the red box displayed in figure 3 below.

Figure 3

The 'Control Toolbar' allows a user access to the following controls:

3.2.1.1 Home

When the 'Home' shortcut link is clicked the user will be taken to the home screen within iDAS CHOX as shown in figure 3 above.

3.2.1.2 Settings

The settings link allows the user to view their registered information and change their password.

3.2.1.3 XML Uploads

When the 'XML Uploads' shortcut link is clicked the user will be taken to the XML upload screen where claim and invoice details can be uploaded into iDAS CHOX using the required XML file format.

3.2.1.4 Help

When the 'Help' shortcut link is clicked a new browser session will open which will contain the iDAS CHOX Credit Hire Organisation user guide.

3.2.1.5 Support

When the 'Support' shortcut link is clicked a drop down list will appear enabling the user to submit an online support request through the 'Online Support Form' option or select 'Support Procedure' to open the iDAS CHOX support procedure in a separate internet browser tab.

3.2.1.6 About CHOX

When the 'About CHOX' shortcut link is clicked a pop-up window will appear which will contain details relating to the iDAS CHOX product including versioning and ownership.

3.2.1.7 Log Off

When the 'Log Off' shortcut link is clicked you will be logged off from your current activity and returned to the iDAS CHOX log on screen as shown in figure 1.

3.2.2 Inbox

The 'Inbox' tab allows a user to see work queues that are relevant to them. The work queues allow a user to see how many items are outstanding in a particular queue at any given moment and therefore require action.

As shown in figure 4 below the work queues are displayed as internet style hypertext links. In order to access a particular work queue, click on the name of the work queue you wish to view.

Figure 4

3.2.3 Claims Overview Grid

Located below the work queue items as shown in figure 4 (indicated by the red box), is a small grid made up of a number of columns referred to as the 'Claims Overview Grid'. The 'Claims Overview Grid' displays all claims that relate to the work queue that is currently selected and therefore all items in the grid are of the same status. The 'Claims Overview Grid' displays a handpicked selection of columns that will allow you to uniquely identify a claim. In order to view the details of a particular claim or action a claim, click on the 'Supplier Reference' field (underlined with blue text, appearing as an internet style hypertext links) for the particular claim.

3.2.4 Search

To access the search facility, click on the 'Search' tab which is located next to the 'Inbox' tab as shown by the red box in figure 5 below:

Figure 5

Figure 5 above represents the extensive search functionality that is available in iDAS CHOX. A search can range from a search on a single field to a search across multiple fields.

- To widen search results, search using only one field.
- To minimise search results, search using multiple fields.

Detailed below is a list of the searchable fields with a brief explanation on the results that would be returned if a search was conducted on each:

- **Supplier Reference** - Unique reference for the Credit Hire Organisation (as stored on internal systems) in order to identify a claim. Will display only one result in the 'Claim Overview Grid'.
- **Claim Number** - Unique reference for the Insurer (as stored on Insurer's internal systems) in order to identify a claim. Will display only one result in the 'Claim Overview Grid'.
- **Invoice Number** – This number refers to the Credit Hire Organisation's internal invoicing number. This search could return a specific claim relating to an invoice payment for a credit hire and/or credit repair or return a specific claim relating to a Claims Handling invoice in the case of Credit Hire Organisations under the Delegated Authority scheme.
- **Show Open Claims Only** – When this box is checked/ticked, the search will exclude all claims that have been closed or have been resolved.
- **Supplier VRN** – This search is for the customer/supplier/non-fault party's vehicle registration number. It is possible for more than one claim to exist against a single VRN.
- **Insurer VRN** – This search is for the third party/at-fault party/insurer's vehicle registration number. It is possible for more than one claim to exist against a single VRN.
- **Claim Upload Date From & To** – Date range to include all claims between selected dates where the claim was uploaded into iDAS CHOX for the '1st Claim Notification' stage of the claim lifecycle.
- **Invoice Upload Date From & To** - Date range to include all claims between selected dates where the invoice was uploaded into iDAS CHOX.
- **Hire Date From & To** – Date range to include all claims between selected dates where the hire start of the replacement vehicle commenced.
- **Hire Monitoring Review Required Date From & To** – Date range to include all claims between selected dates where the Credit Hire Organisation set the claim for review for the purposes of hire monitoring.

- **Insurer Name** – Refers to the Insurer who the at-fault party is insured by and therefore the Insurer who is liable for the invoice payment for the credit hire and/or credit repair. Results will display all claims that relate to the specified Insurer.
- **Status** – Search will return results for all claims in iDAS CHOX of the specified status.
- **Insurer's Workgroup** – 'Insurer's Workgroup' (general classification of business, a subdivision within an Insurance company) is specific to an Insurer and therefore this search should be used in conjunction with the 'Insurer Name' search parameter. The search will return results for all claims in iDAS CHOX for the specified Workgroup for the specified Insurer.
- **Insurer's Claim Owner** – If the Insurer uses the claim ownership model this search option allows a Credit Hire organisation to view all claims assigned to a specific claim owner, the list of claim owners available will be determined based on the 'Insurer's Workgroup' and/or the 'Insurer Name' selected.

To use the iDAS CHOX search facility select the relevant search criteria in the form of the supplied drop down menus, date calendar pop-ups or by typing search strings into the relevant field(s). For text entry searches, the inclusion of a '%' symbol anywhere in the entry will act as a wild card character (representing any group of characters or numbers), for example a search on the 'Supplier Reference' field with '%CH%' would return all claims which have 'CH' in the 'Supplier Reference' and any group of characters either side of the 'CH'. An example search entry is shown in figure 6 below:

The screenshot shows the iDAS CHOX search interface. The 'Search' tab is active. The following criteria are entered:

- Supplier Reference: CHOX%
- Claim Number: (empty)
- Invoice Number: (empty)
- Show Open Claims Only: (checkbox unchecked)
- Supplier VRN: (empty)
- Insurer VRN: (empty)
- Claim Upload Date From: 01/11/2009
- Claim Upload Date To: 12/11/2009
- Invoice Upload Date From: (empty)
- Invoice Upload Date To: (empty)
- Hire Date From: (empty)
- Hire Date To: (empty)
- Hire Monitoring Review Required Date From: (empty)
- Hire Monitoring Review Required Date To: (empty)
- Insurer Name: --- ALL ---
- Status: --- ALL ---
- Insurer's Workgroup: --- ALL ---
- Insurer's Claim Owner: --- ALL ---

Buttons for 'Search' and 'Reset' are visible. Below the search criteria, the 'Claims' section shows a table header with columns: Supplier Ref, Insurer's VRN, Insurer's Policy, Claim No, Status, Workgroup, CHO, Insur, Last Modified, Review Date, Invoice Amount, Owner, View. The footer indicates 'Page: 1 of 1' and 'No claim to display'.

Figure 6

Once the search criteria has been entered click on the 'Search' button. Results from the above search criteria are shown in figure 7 below:

The screenshot shows the iDAS CHOX search results. The 'Search' tab is active. The search criteria are the same as in Figure 6. The 'Claims' section shows a table with the following data:

Supplier Ref	Insurer's VRN	Insurer's Policy	Claim No	Status	Workgroup	CHO	Insur	Last Modified	Review Date	Invoice Amount	Owner	View
CHOXM4	RSNY	PL1233	CHOXM4	InvoiceEscalatedToHandler	W1	Drive	Roya	03/11/2009 15		£205.71	Claims	No
CHOXM3	RSNY	PL1233	CHOXM3	InvoiceEscalatedToHandler	W1	Drive	Roya	03/11/2009 15		£205.71	Claims	No
CHOXM2	RSNY	PL1233	CHOXM2	InvoicePaymentLogged	W1	Drive	Roya	05/11/2009 14		£205.71	Claims	No
CHOXM1	RSNY	PL1233	CHOXM1	InvoicePaymentLogged	W1	Drive	Roya	05/11/2009 14		£205.71	Claims	No
CHOXM5	RSNY	PL1233	CHOXM5	InvoicePaymentLogged	W1	Drive	Roya	05/11/2009 14		£205.71	Claims	No

The footer indicates 'Page: 1 of 1' and 'Displaying claims 1 - 5 of 5'.

Figure 7

3.2.5 Tabs

Upon selecting to view the claim details for a particular claim by clicking on the 'Supplier Reference' number in the 'Claim Overview Grid', the tab view as shown by the red box in figure 8 below is displayed:

Figure 8

Tabs allow a user to browse through segmented sections of a claims underlying detail allowing more efficient and effective navigation through the extensive set of data held against a claim in iDAS CHOX.

3.2.5.1 Expanding/Collapsing Tab Details

By default the information displayed within a tab is collapsed in that the tab section header is shown without the underlying detail as shown in figure 9 below. In order to view detail under each of the tab section headers click on the tab section header in question. The red box in figure 9 below represents the 'Customer Details' section header.

Figure 9

When you have clicked on a tab section header all underlying details will expand under the tab section header as shown by the red box in figure 10 below. Clicking on the tab section header section again will collapse the underlying details returning the user to the view as shown in figure 9 above.

Figure 10

3.2.5.2 Data Read/Write Views and Saving Data

Depending on the status of the claim the details contained within a tab will either be in a read only format or in an editable format. Read only tab details will be displayed as shown in figure 11 below, with data for a particular field being displayed next to the field label with no option to modify.

Figure 11

Editable tab details on the other hand will have pre-populated fields in an editable field format as shown in figure 12 below.

Figure 12

The editing of fields will require you to make the changes permanent within iDAS CHOX by clicking on the 'Save Changes' button as shown in figure 13 below.

Figure 13

3.2.5.3 Tab Availability

iDAS CHOX offers access to tabs depending on the status of the claim and therefore what can and cannot be viewed. If a tab has blue writing as the tab name then the tab can be navigated to, however if the tab has grey writing as the tab name then the tab cannot be navigated. Based on figure 14 below, 'Claim Details' tab, 'Hire Monitoring' tab, 'Claim Cycle' tab, 'Attachments' tab and 'Notes' tab can all be navigated to, but the 'Invoice Details' and 'History' tabs cannot be navigated to.

Figure 14

3.2.5.4 Tabs Explained

An explanation on the content displayed on each tab is offered below.

3.2.5.4.1 Claim Details Tab

The 'Claim Details' tab contains information relating to the general claim details, non-fault party's details, at-fault party's details, witness details, vehicle damage details, incident details, injury details, injury solicitor details and engineer report details.

3.2.5.4.2 Hire Monitoring Tab

The 'Hire Monitoring' tab contains information relating to the monitoring of the hire/repair. During the length of time the customer has the vehicle on hire, it is the Credit Hire Organisation's duty to monitor the progress of the repair/hire, any update/modification that is deemed important/vital/required by the Insurer is noted on this tab as and when the update occurs. The user has the ability to ensure that the update is reviewed/seen by the Insurer if required. The 'Hire Monitoring' tab can be viewed and updated from the moment the claim is uploaded into the system up until the status of the claim changes to 'AwaitingInvoiceData', indicating the vehicle has been off-hired and therefore no further updates can take place.

3.2.5.4.3 Invoice Details Tab

The 'Invoice Details' tab contains a breakdown of the items that make up the total invoice cost including details regarding the vehicle on hire, the length of hire, extras added to the vehicle for the hire, engineer report details, repair costs and any other additional costs that have been incorporated as part of the hire.

3.2.5.4.4 Attachments Tab

The 'Attachments' tab allows a user to attach files to a claim in various file formats such as PDF documents, Microsoft Word documents and common image file formats. Photos, associated documents and payment packs can be attached to a claim using the 'Attachments' tab.

3.2.5.4.5 History Tab

The 'History' tab contains details regarding the results of the Business Rules Engine validation when an invoice has been uploaded into iDAS CHOX and any messages as a result of this process are stored. The items detailed on the 'History' tab are displayed in chronological order with the oldest history items being displayed first as shown in figure 15 below:

Claim Details	Hire Monitoring	Invoice Details	Attachments	History	Claim Cycle	Notes
Created On	Created By	Message Text				
19/11/2009 11:22:11	CHO Operative	BRE Rule Failed – Repair Gross calculation is incorrect.				
19/11/2009 11:22:11	CHO Operative	BRE Rule Failed – Repair VAT calculation is incorrect.				
19/11/2009 11:22:11	CHO Operative	BRE Rule Failed – Hire VAT calculation is incorrect.				
19/11/2009 11:22:11	CHO Operative	BRE Rule Failed – Hire Gross calculation is incorrect.				

Figure 15

3.2.5.4.6 Claim Cycle

The 'Claim Cycle' tab contains details of the status changes of a particular claim. A new entry is added to the list every time the status is changed, including who changed the status of the claim, the new status of the claim and the date/time the status changed. The list is automatically displayed in chronological order with the newest/current status appearing at the bottom as shown in figure 16 below.

Claim Details	Hire Monitoring	Invoice Details	Attachments	History	Claim Cycle	Notes
Modified Date	Modified By	Status				
18/08/2009 14:46:02	Admin Credit hire	ClaimUnacknowledgedUnrouted				
18/08/2009 14:55:55	Admin Insurer	ClaimUnacknowledgedRouted				
18/08/2009 14:56:03	Admin Insurer	AwaitingCarHireInfo				
18/08/2009 14:58:48	Operative CHO	AwaitingInvoiceData				
18/08/2009 15:00:48	Operative CHO	InvoiceDataCalculationIncorrect				

Figure 16

3.2.5.4.7 Notes Tab

The 'Notes' tab is an empty data field which can be used to add queries and comments by both Insurers and Credit Hire Organisations. This opens up invaluable dialogue in resolving claims and disputes swiftly and efficiently. All notes can be viewed at any stage of the iDAS CHOX process by navigating to the 'Notes' tab within a claim. Notes can either be of a private nature and therefore only seen by internal Credit Hire Organisation users or of a public nature and therefore seen by all users who can access the claim, including the insurance organisation who the claim is against. Follow the below steps in order to add a note to a claim:

- View the claim details of the claim in question and navigate to the 'Notes' tab, a screen shot of the 'Notes' tab is shown below in figure 17.

Created	Created By	Message
20/11/2009 16:15:13	CHO Operative . (Credit Hire Org)	Public Test
20/11/2009 16:15:22	CHO Operative . (Credit Hire Org)	Private Test

Figure 17

- To add a query or a note, click into the 'Add a new note' field and type the message.
- Select whether the note should be of a private or public nature using the radio buttons as shown in figure 17.
- Click on the 'Add Note' button.
- All notes that have been entered against a claim by either the Credit Hire Organisation or Insurer will appear on the 'Notes' tab, all notes for each claim are archived by date and are not amendable.
- Private notes are distinguished between public notes by the use of a blue highlight as shown in figure 17.

3.2.6 Claim Summary Pane

When viewing the claim details of a particular claim, you will be presented with the 'Claim Summary' pane as shown in figure 18. The 'Claim Summary' pane contains information that is regarded as essential to a user and therefore is displayed at all times regardless of the tab you navigate to.

Third Party Insurer: Insurer	Credit-hire Organisation: Credit Hire Org	Created By: CHO Operative . (Credit Hire Org)
Supplier Reference: CHOX124	Insurer Claim Number: Claim123456	Created On: 06 Nov 2009 14:29
Customer: Mr James Jackson	Current Status: InvoicePaymentLogged	Policy Holder Contact Date: 01 Jan 2008 24:00
Percentage Liability Accepted: 100%	Indemnity: £0.00	Workgroup: Workgroup1
Claim Owner: Joe Bloggs		

Figure 18

3.2.7 Action Pane

For certain status, an action window pane will be displayed which will require certain action in order to move the claim to the next status/lifecycle step. The action pane will be located beneath the 'Claim Summary' pane when viewing the claim detail as discussed above. The action pane in order to accept or reject an Insurer's decision to reject a claim/invoice is shown below in figure 19 as an example.

Rejected Claim - Action Required

 Please review the Insurer's notes against rejection reasoning and decide whether to accept or reject the Insurer's rejection decision. Please include supporting notes on the decision made using the 'Notes' tab.

Please specify how you wish to proceed

Figure 19

4 Data Upload

Please see Appendix B for details on installing the iDAS CHOX macro for the generation of the XML file that is required for loading data manually into iDAS CHOX.

If you are using the fully-integrated iDAS CHOX system via Web Services, the data upload is automatic.

If you are not using the fully-integrated iDAS CHOX system, you can manually upload data using the 'XML Uploads' control menu option.

4.1 Claim and Invoice Uploads

The upload of claims and invoices is carried out using the same screen as shown in figure 20. There is no requirement to specify whether the XML upload is of a '1st claim notification' or 'invoicing' nature, this is something iDAS CHOX handles automatically.

In order to upload an XML file please follow these steps:

- Click on the 'XML Uploads' link located on the control toolbar at the top of the screen as shown by the red box in figure 20 below.

Figure 20

- Click on the 'Browse...' button as shown in figure 21 below.

Figure 21

- Navigate to the location of where the XML file is stored on your PC/network and click 'Open'.
- Click on the 'Upload Claims' button to upload the XML file.
- The 'Claim Upload Summary' screen will be displayed once the XML has uploaded successfully (details below).

4.1.1 Claim Upload Summary

Upon uploading '1st claim notifications' into iDAS CHOX, you will be presented with the 'Claim Upload Summary' screen detailing the status of each of the claims attempting to be uploaded along with appropriate messages displayed following a claim upload failure as shown with Supplier Reference CHOX0076 in figure 22 below.

Please carefully review the information provided below, as it contains important information regarding the claims you have uploaded.

 If the XML file that you have supplied contains errors, please correct any errors in accordance with the information given beneath the specific claim.

[Proceed to CHOX Inbox](#)

[Re-Upload XML file](#)

Created Date	01/10/09 10:50:51.000	Created By	Operative CHO	
Status	Partially Uploaded	Total Claims	4	
Description	3 out of 4 claims have been uploaded			
Messages				
	Supplier Reference	Claim Status	Process Status	Remark
[1]	CHOX0075	ClaimUnacknowledgedUnrouted	Uploaded	New Claim
[2]	CHOX0076	N/A	Failed	New Claim
• No 'Customer's Vehicle Registration' information supplied for 'Customer Detail'. Please re-submit with this information.				
[3]	CHOX0077	ClaimUnacknowledgedUnrouted	Uploaded	New Claim
[4]	CHOX0078	ClaimUnacknowledgedUnrouted	Uploaded	New Claim

Figure 22

Below details the necessary actions to take in order to handle the relevant process status displayed:

- **Uploaded** – No action required, the claim status should read 'ClaimUnacknowledgedUnrouted'
- **Updated** – The claim already exists in the system but on re-upload of the XML file, iDAS CHOX looks to see if certain data fields have been updated/modified, if there are updated data fields the iDAS CHOX database is updated accordingly.
- **Failed** – There are three reasons why the claim details could not be uploaded into iDAS CHOX:
 - Mandatory data field missing
 - Incorrect data type for a particular data field
 - Incorrect data format for a particular data field

Please review the line below the failed Supplier Reference for details on why the claim upload has failed. The message will detail which of the three failure reasons above apply and to which field(s). No records for a claim that has failed the upload will exist on the system. There are three options for the re-submission of a claim that has failed on upload:

- Make a note of the Supplier Reference for all the claims that have failed the upload. Make the necessary amendments as per the upload remarks on the original bordereau file containing all the other claims (mixture of claim upload successful and claim upload failures) and create a new XML file for upload into iDAS CHOX and upload the new XML file into iDAS CHOX.
- Make a note of the Supplier Reference for all the claims that have failed the upload. Open the bordereau file on which the XML was based and remove the lines for claims that have failed and paste these onto a fresh bordereau template, create an XML file based on the new bordereau. Upload the new XML file into iDAS CHOX.
- Make a note of the Supplier Reference for all the claims that have failed the upload. Before the next upload of 'new' '1st claim notifications' is done, open the bordereau file on which the XML (with the claim failure(s)) was based and remove the lines for claims that have failed and paste these onto the 'new' '1st claim notification' bordereau, making the necessary changes. Create an XML file based on the 'new' bordereau and upload the new XML file into iDAS CHOX.

4.1.2 Invoice Upload

Once the hire has been completed, the Credit Hire Organisation will be required to upload an invoice to support the amount requested for payment to the Insurer.

To upload an invoice, you should follow the steps outlined in section 4.1. Once the upload is complete, the 'Claim Upload Summary' screen will be displayed detailing the status of each of the claims/invoices attempting to be uploaded as shown in figure 23 below.

Please carefully review the information provided below, as it contains important information regarding the claims you have uploaded.

If the XML file that you have supplied contains errors, please correct any errors in accordance with the information given beneath the specific claim.

- BRE Rule Failed – Hire Gross calculation is incorrect.
- BRE Rule Failed – Hire VAT calculation is incorrect.
- BRE Rule Failed – Repair VAT calculation is incorrect.
- BRE Rule Failed – Repair Gross calculation is incorrect.

Figure 23

There are two possible upload statuses as listed in the Process Status column, either Uploaded or Failed. The Remark column will contain any additional notes, for instance if the Process Status is Failed then the Remark column will detail why the upload failed.

Below details information on each of the two distinct Process Statuses and if appropriate what action to take.

- **Failed** – The invoice has not been uploaded to the system. The row will be highlighted in red to indicate that the invoice has not been accepted, the 'Remark' column will contain details on why the invoice upload has failed. Please review the 'Remark' column for details on why the invoice upload has failed. No records for a claim that has failed the upload will exist on the system. There are three options for the re-submission of an invoice (that has failed on upload) as described in section 4.1.1 above. Common upload failure reasons are if the invoice has already been uploaded into the system, the status of the claim in the system is not at the required state to upload an invoice (an invoice can only be uploaded once the claim has processed through the required cycle and the status of the claim is 'AwaitingInvoiceData'), mandatory data fields missing and incorrect data types/formats.
- **Uploaded** – The claim/invoice data has been uploaded and saved to the system. The 'Claim Status' field will be one of four statuses when a claim/invoice has been successfully uploaded. Information on these statuses is covered in more detail throughout this document but a brief description is offered below:
 - InvoiceEscalated – Line highlighted in orange. 'New Invoice' in 'Remark' column, claim will appear in Insurer's work queue for review. One or more of the rules as held in the Business Rules Engine have failed and the claim/invoice flagged to the Insurer's motor engineers for review.
 - InvoiceEscalatedToHandler – Line highlighted in black. 'New Invoice' in 'Remark' column, claim will appear in Insurer's work queue for review. One or more of the rules as held in the

Business Rules Engine have failed and the claim/invoice flagged to the Insurer's claims handlers for review.

- InvoiceApprovedByBRE – Line highlighted in green. 'New Invoice' in 'Remark' column, claim will appear in Insurer's work queue to be cleared for payment. All of the rules as held in the Business Rules Engine passed.
- InvoiceDataCalculationIncorrect – Line highlighted in red. Details of why the claim/invoice has been given this status will appear below the relevant Supplier Reference on the 'Claim Upload Summary' screen. Claim will appear in the Credit Hire Organisation's work queue for action, with details on what action is required contained on the 'History' tab.

5 Inbox

As discussed previously, your inbox will display all work queues that are relevant to your role in the system. What follows is a list of the work queues as well as a description of which each contains as well as the steps required to remove/process the claims from the queues by way of action.

5.1 Rejected Claims

The 'Rejected Claims' work queue contains a list of claims that have been reviewed by the Insurer following the '1st claim notification' upload but rejected as a valid claim from the Insurer's perspective.

- There are two action routes for 'Rejected Claims':
 - Accept Claim Rejection
 - Contest Claim Rejection
- View the claim details of the claim in question and review the 'Notes' tab section to view any notes or queries added by the Insurer.
- If you are contesting the Insurer's decision to reject the claim then follow these steps:
 - Review the claim details as held on the 'Claim Details' and make any necessary amendments taking into consideration the notes of the Insurer, save changes.
 - Include any additional notes as required, if changes have been made to the claim details it would be recommended to include details of these changes for the benefit of the Insurer.
 - Re-submit the claim by clicking on the 'Contest This Claim' button.
- If you are accepting the Insurer's decision to reject the claim then follow these steps, please note that this will end the life of the claim in iDAS CHOX:
 - Make a note as to the reason why you are accepting the claim rejection using the 'Notes' tab.
 - Accept the claim rejection decision by clicking on the 'Accept Rejection Decision' button.

5.2 Claims Awaiting Hire Monitoring Information

The 'Claims Awaiting Hire Monitoring Information' queue contains a list of claims where the hire is in progress or even completed. All claims in this queue will require entries made on the 'Hire Monitoring' tab in order to enable the upload of invoice details against a claim. These entries could be sporadic during the hire duration as certain information/details will arise at differing points in time, the 'Hire Monitoring' tab in effect acts as an online log. In order to update the tab perform the following:

- View the claim details of the claim in question and navigate to the 'Hire Monitoring' tab, a screen shot of this tab is shown below in figure 24:

The screenshot displays the 'Hire Monitoring' tab in the iDAS CHOX system. The left panel contains fields for 'Next Review Date' (09/11/2009), 'Original ECD' (03/01/2008), 'Name Of Repairer' (Jim & John), 'Repair Book In Date' (06/11/2009), 'Inspection Booked Date' (06/11/2009), 'Inspection Date' (07/11/2008), 'Is Total Loss?' (checkbox), 'Repair Completion Date', 'Name of IME', 'Labour Rate (Per Hour)', 'Labour Hours', 'Total Labour Cost', and 'Labour Information' (dropdown). The right panel, titled 'New/Revised ECD', includes a 'New ECD' dropdown, a 'Reason for Delay' dropdown (set to '--- SELECT ---'), and a 'Supporting Note' text area. Below these is a 'Save Changes' button and an 'Update Insurer' checkbox. At the bottom, a table lists ECD entries:

	ECD Date	Reason	Supporting Note
1	20/11/2009	First ECD	No delays, first ECD provided by the garage or if no ECI

Figure 24

- The Credit Hire Organisation has the ability to update the Insurer of a hire monitoring update by ticking on either one of the 'Update Insurer' checkboxes. An automated notification will be sent to the relevant claims handler/claims handling team.
- There are a number of mandatory fields that need to be entered in the 'Hire Monitoring' tab (required before invoice details can be uploaded against the claim in question). If an 'Original ECD' was provided at the '1st claim notification' upload stage, then that is one of the mandatory checks complete. However if an 'Original ECD' was not supplied, then you must add an ECD with the reason for delay and any supporting information using the fields as shown by the red box in figure 24 above. If there has been no delay during the duration of the hire, then the ECD should reflect the 'Repair Completion Date', selecting 'First ECD' from the drop down menu for 'Reason for Delay'.
- Labour information must be added to a claim before an invoice can be uploaded. The Credit Hire Organisation must supply labour hours and/or labour cost for the repair. If neither can be provided, the Credit Hire Organisation must select a reason from the 'Labour Information Non-Provision Reason' drop down box.
- If any of the above mandatory information is not added, the claim will not progress and the following error message will be displayed in the 'Hire Monitoring – Action Required' action panel.

Figure 25

- The following fields are optional with a brief description of the entry expected, save changes each time using the 'Save Changes' button.
 - **Next Review Date** – The date the claim should be reviewed again for hire monitoring purposes. The Credit Hire Organisation can view which claims require review by using the 'Search' tab and selecting the relevant review dates.
 - **Name of Repairer** – The name of the garage which is carrying out the repairs on the customer's vehicle.
 - **Repair Book In Date** – The date the customer's vehicle entered the garage for repair.
 - **Inspection Booked Date** – The date the Engineer's inspection was booked.
 - **Inspection Date** – The date the Engineer's inspection took place.
 - **Is Total Loss?** – Check to see if the customer's vehicle is a total loss or not following the output from the Engineer's inspection.
 - **Repair Completion Date** – The date all repairs were completed on the non-fault customer's vehicle.
 - **Name of IME** – The name of the Independent Motor Engineer who conducted the inspection.
 - **Labour Rate(Per Hour)** – The labour rate is a value entered for how much is being charged for every hour spent on the repair to a vehicle.
- Once the required details have been entered and saved on the 'Hire Monitoring' tab, click on the 'Proceed' button that is located on the 'Hire Monitoring - Action Required' window pane, this in effect is telling the system that the hire vehicle has been off-hired. It is then possible to upload an invoice for this claim.

5.3 Awaiting Invoice Data

The 'Awaiting Invoice Data' queue shows all claims where the replacement hire vehicle has been off-hired and the Credit Hire Organisation is therefore ready to upload an invoice against the claim(s). All claims in this queue will have the status 'AwaitingInvoiceData'.

In order to progress a claim at this status, an invoice for the claim in question needs to be uploaded into iDAS CHOX. Section 4.0 contains details on how to upload invoices into iDAS CHOX, please refer to section 4.0 for more information.

5.4 Incorrect Invoice Data Calculations

The 'Incorrect Invoice Data Calculation' work queue contains a list of all invoices that have been rejected due to a fundamental error in the data calculations. An example error is an incorrect VAT calculation on one of the monetary fields. In order to rectify such an error, follow these steps:

- Select each claim in turn from the queue and view the claim details.
- Navigate to the 'History' tab and review the Business Rules Engine's error message(s) in order to investigate the reason behind why the invoice is being rejected. A list of the possible messages and a brief description on each is detailed below:
 - Message: "The Admin Fee billed is incorrect."
Description: The admin fee billed exceeds the allowable limit of either £40 when the Credit Hire Organisation is not managing the repair and £60 when the Credit Hire Organisation is managing the repair. Adjust the admin fee amount to reflect the service provided.
 - Message: "The number of Hire Days billed does not reconcile with the Hire Start and Hire End dates provided."
Description: The number of hire days billed does not match the dates provided in regards to the hire start date and the hire end date and thus the total duration between these two dates. Adjust either the hire start and hire end dates or the number of hire days billed to ensure reconciliation. If the number of hire days is adjusted then ensure that the cost information on the invoice reflects the correct number of hire days.
 - Message: "Hire VAT calculation is incorrect."
Description: The Hire VAT should reflect the VAT charge (check on current VAT rate on invoice upload) on the Hire Net amount.
 - Message: "Hire Gross calculation is incorrect."
Description: The Hire Gross amount is calculated by adding the Hire VAT field to the Hire Net field.
 - Message: "Repair VAT calculation is incorrect."
Description: The Repair VAT should reflect the VAT charge (check on current VAT rate on invoice upload) on the Repair Net amount.
 - Message: "Repair Gross calculation is incorrect."
Description: The Repair Gross amount is calculated by adding the Repair VAT field to the Repair Net field.
 - Message: "Total Net calculation is incorrect."
Description: The Total Net amount is calculated by adding the Storage Recovery Net, Engineer Fee Net, Repair Net and Hire Net fields together.
 - Message: "Total VAT calculation is incorrect."
Description: The Total VAT should reflect the VAT charge (check on current VAT rate on invoice upload) on the Total Net amount.
 - Message: "Total Gross calculation is incorrect."
Description: The Total Gross amount is calculated by adding the Total VAT field to the Total Net field.
 - Message: "Total to Pay calculation is incorrect."

Description: The Total to Pay amount is calculated by using the Total Gross amount and adding the fields Discount (minus figure) and Penalty Charge.

- Message: “The sum of Claims Handling Invoice Amount and Less Claims Handling Fee does not equate to 0.”

Description: The Claims Handling Invoice Amount and the Deduction For Claims Handling Fee amounts when added together should balance and therefore equal 0(zero).

- Message: “Entries against Claims Handling Invoice Amount and Less Claims Handling Fee are not 0.”

Description: This message will appear when a Credit Hire Organisation who is not participating in the Delegated Authority scheme include entries on the invoice for the fields of Claims Handling Invoice Amount and Less Claims Handling Fee.

- Message: “Discount calculation is incorrect.”

Description: The Discount amount is calculated by applying the current VAT rate (on invoice upload) to the Claims Handling Invoice Amount field.

- Navigate to the ‘Invoice Details’ tab and amend the invoice details in order to reflect the necessary changes based on the incorrect data calculations as communicated on the ‘History’ tab, save changes.
- Navigate to the ‘Notes’ tab and add any additional notes as required.
- Click on the ‘Re-submit Claim/Invoice’ button which is located on the ‘Claim Data - Action Required’ window pane in order to re-submit the invoice.

5.5 Contested Invoices Referred To CHO

The ‘Contested Invoices Referred To CHO’ work queue contains a list of all claims that have been reviewed by the Insurer and a decision has been made to escalate the claim back to the Credit Hire Organisation. Follow the below actions in order to advance the status of the claim:

- Select each claim in turn from the queue and view the claim details.
- Navigate to the ‘Notes’ tab and review the Insurer’s notes/comments for rejecting the claim.
- A decision needs to be made at this stage on whether to accept or contest the decision made by the Insurer to reject the claim.
- Acceptance of the decision made to reject the claim by the Insurer will require the following steps, please note that this will end the life of the claim in iDAS CHOX:
 - Navigate to the ‘Notes’ tab and add any additional notes as required.
 - On the ‘Contested Invoice - Action Required’ window pane, click on the ‘Accept Rejection Decision’ button.
- To contest the decision made by the Insurer to reject the claim will require the following actions:
 - The attachment of a payment pack at this stage will significantly enhance the chances of getting the claim approved. The hard copy payment pack will need to be scanned into a PDF format in order for the soft copy to be uploaded into iDAS CHOX. To attach a payment pack to a claim please follow these steps:
 - Navigate to the ‘Attachments’ tab as shown in figure 26 below:

File Name	Category	Description	Created Date	
50189596_1616157repairdocs.pdf	Payment Pack	Repair docs	16/07/2009 15:22:44	Delete

Figure 26

- Click on the 'Browse....' button.
- Navigate to the location of where the payment pack is stored and click 'Open'.
- Select the 'Payment Pack' from the drop down menu for the 'Category' field.
- Enter a description in the 'Description' field, offering a brief description of the file being uploaded
- Click on the 'Add File' button to attach the PDF file.
- N.B. The following file types are supported in iDAS CHOX; .doc, .docx, .jpeg, .jpg, .pdf, .txt, .xls, .xlsx, .xml
- If applicable and based on the notes provided by the Insurer, review the claim details, including invoicing details and make any necessary amendments and save changes.
- Navigate to the 'Notes' tab and add any additional notes as required, the reason you are contesting the claim/invoice rejection is useful in order for the Insurer to process and investigate efficiently.
- On the 'Contested Invoice - Action Required' window pane, click on the 'Reject Decision and Resubmit' in order to resubmit the claim into the Business Rules Engine.

5.6 Penalty Charges To Be Applied

The 'Penalty Charges To Be Applied' queue contains all invoices where payment has not been received within the agreed timeframe. The day counter that is used is based on the number of days since the invoice was uploaded into CHOX.

The Credit Hire Organisation has the ability to go into each of these claims and add additional costs to the invoice in line with their penalty charge policy (figure 27) below by entering the penalty charge amount and clicking the 'Apply' button. If the claim has not been removed from the 'Penalty Charges To Be Applied' queue, the Credit Hire Organisation can change the penalty amount by going back into the claim and putting in a new value and clicking the 'Apply' button.

A new total amount to pay is automatically calculated, taking into account the amount entered for the penalty charge.

The Credit Hire Organisation can remove the claim from the 'Penalty Charges to be Applied' queue by checking the 'Remove From Queue' tick box and clicking on the 'Apply' button. This claim will no longer be in the 'Penalty Charges to be Applied' work queue. If and when a penalty charge has been added, the claim should be removed from the 'Penalty Charges To Be Applied' queue by following the above instruction.

Apply Penalty Charge

Payment for this invoice is overdue. The number of days since the invoice was created is 33. A penalty charge may be applicable to this invoice.

Total Amount to Pay **£708.91**

Penalty Amount : £

Total Amount to Pay After Penalty Charge **£708.91**

☐ Remove From Queue

Figure 27

5.7 Payments to be Received

The 'Payments to be Received' queue shows claims that have the status of 'InvoicePaymentLogged'. This is a status set by the Insurer and indicates that they have posted/made payment for an invoice. Once the Credit Hire Organisation has received the payment, it is their responsibility to go into each claim and click on the 'Payment Received' button (figure 28) to log that payment has been received.

Figure 28

iDAS CHOX has a bulk update facility in order to update multiple claims simultaneously to the status 'Payment Received', therefore not having to open each claim individually and clicking on the 'Payment Received' button. Follow the steps below in order to bulk update claims when payment has been received from the Insurer:

- Select the claims where payment has been received and therefore need updating by checking the tick box next to each claim or alternatively select all claims by checking the tick box as shown in figure 29 below:

Supplier Ref	Insurer's VRN	Insurer's Policy No	Claim No	Status	Workgroup	CHO	Insurer	Last Modified	Review Date	Invoice Amount	Owner	Viewing
☒ CHOX124	R5NYV	PL1233	Claim123456	InvoicePaymentLogged	Workgroup1	Cred	Insurer	10/11/2009 10	09/11/2009	£205.71	Joe Blo	No
☒ CHOX126	R5NYV	PL1233	CHOX126	InvoicePaymentLogged	Workgroup1	Cred	Insurer	09/11/2009 16		£205.71	Joe Blo	No

Figure 29

- Click on the 'More actions' drop down option, selecting 'Update Claim(s) To Payment Received' as shown in figure 30 below.

Supplier Ref	Insurer's VRN	Insurer's Policy No	Claim No	Status	Workgroup	CHO	Insurer	Last Modified	Review Date	Invoice Amount	Owner	Viewing

Figure 30

6 Report Extracts

There are a number of opportunities for information to be exported out of iDAS CHOX and into a Microsoft Excel spreadsheet.

6.1 Inbox Report Extracts

It is possible to export details of all the claims that appear in the 'Claims Overview Grid' for your inbox. To run this export, you must:

- Navigate to the work queue that you wish to run a Microsoft Excel report extract for.
- Click on the 'Export To Excel' button located at the bottom right hand corner of the 'Claims Overview Grid' as shown by the red box in figure 31 below.

Figure 31

- A pop-up screen will appear asking you whether you would like to save or open the file.
- To open the Microsoft Excel report click on the 'Open' button.
- To save the Microsoft Excel report follow these steps:
 - Click on the 'Save' button.
 - Choose a location of where to save the report and click on the 'Save' button.

6.2 Search Screen Extracts

If you need to export a more meaningful list of claims from the system, then the use of the 'Search' function is required:

- As discussed in section 3.2.4 perform the search criteria you desire.
- A list of claims that meet the search criteria will be displayed in the 'Claims Overview Grid'.
- The list of claims can then be exported by clicking on the 'Export To Excel' button located in the bottom right-hand corner of the 'Claims Overview Grid'.
- Perform the necessary steps to open or save the Microsoft Excel spreadsheet as detailed in section 6.1 above.

7 Help and Support

- Your home page includes a link to this user guide in the top right-hand corner of the screen labelled 'Help' as shown in figure 32 below.

Figure 32

- Your home page includes a link to the iDAS CHOX Support Procedure, including hours of operation, contact details and the support protocol and the iDAS CHOX Online Support Form. Hovering the mouse cursor over the 'Support' link as shown in figure 33 below will enable both of these options.

Figure 33

- Clicking on the 'Online Support Form' option will launch the Online Support Form in a separate window as shown in figure 34 below. There are three fields which require an entry:
 - Supplier Reference** – This is the Credit Hire Organisation's claim reference number and the Supplier Reference as held in the system that the support request relates to.
 - Subject** – A short description of the support request.
 - Message** – A detailed message regarding the support request so that the iDAS CHOX support team can follow up the request in the most efficient and effective manner. Contact details should be included as part of this message.

The screenshot shows the 'Online Support Form' interface. It has three input fields: 'Supplier Reference', 'Subject', and 'Message'. The 'Subject' and 'Message' fields are marked with an asterisk (*). Below the input fields is a 'Submit' button.

Figure 34

- For further support on the use of iDAS CHOX, please contact iDAS CHOX Support via the e-mail below:

choxsupport@sherwoodcompliance.co.uk

Appendix A – Claim Status Explained

A claim will always have a specific status throughout its life in iDAS CHOX. The behaviour of the claim and thus the behaviour of the user experience are directly affected by the status of the claim.

There are two areas in the system that allow you to see the status of a claim at any given point in time. The first is on the 'Claims Overview Grid' as shown by the red box in figure 35 below.

Figure 36

There are a number of statuses for a claim, below is a list of all possible statuses with a brief description of each.

- **AwaitingCarHireInfo** – It is the Credit Hire Organisation's duty when the status is 'AwaitingCarHireInfo' to update the required fields on the 'Hire Monitoring' tab throughout the duration of the hire. Invoice details cannot be uploaded against a claim until the required fields have entries against them.
- **AwaitingInvoiceData** – This status indicates that the Credit Hire Organisation has entered the required fields on the 'Hire Monitoring' tab and thus the Credit Hire Organisation can upload invoice details against the claim, indicating that the hire vehicle has been off-hired.
- **AwaitingInvoicePayment** – This status indicates that the Insurer has made the decision to approve the claim/invoice for payment. The Insurer has an action to make a payment against the claim using the Insurer's internal payment system; once this payment has been made the Insurer is required to update the status in iDAS CHOX. The Insurer should enter notes against the claim for the Credit Hire Organisation's benefit regarding any important payment information.
- **ClaimClosed** – This status indicates that the Credit Hire Organisation has removed the claim from iDAS CHOX; this is the end of the claim's life in the system.
- **ClaimPending** – This status indicates that the Insurer is awaiting further information in order to make a decision on whether to acknowledge or reject the claim, in most instances the Insurer is awaiting further information from their policyholder, the at-fault driver.
- **ClaimReferredToEngineer** – This status indicates that the claim has been sent to the Insurer's motor engineers to review the claim/invoice details and make appropriate recommendations/actions. The motor engineer will make any notes on the 'Notes' tab for the

purposes of the Credit Hire Organisation and/or the claims handler or for when the Insurer is reviewing the claim at the invoicing stage of the claim lifecycle.

- **ClaimReferredToFNOL** – If the at-fault driver has not registered the claim with their Insurer, the claim is referred to the first notification of loss (FNOL) team to register the claim. Once the claim has been registered the claim is sent to the relevant claims handling team/claims handler for review.
- **ClaimRejected** – This status requires action by the Credit Hire Organisation as to the Insurer's decision to reject the claim in question. The Credit Hire Organisation will need to either accept the Insurer's decision to reject the claim or contest the Insurer's decision to reject the claim. Supporting notes should be added regardless of the decision reached. The Credit Hire Organisation has the ability to amend the details held on the 'Claim Details' tab before contesting the Insurer's decision, notes should be added to the claim to inform the Insurer of any changes made.
- **ClaimRejectionAccepted** – This status indicates the end of the life of the claim in question as the Credit Hire Organisation has accepted the Insurer's decision to reject the claim, no further action is required by either the Insurer or the Credit Hire Organisation, and relevant notes should be added by the Credit Hire Organisation.
- **ClaimRejectionContested** – This status indicates that the Credit Hire Organisation has contested the Insurer's decision to reject the claim. The Insurer will have an action to review the contested claim and any supporting notes that may have been added and make a decision again on whether to acknowledge or reject the claim providing supporting notes/comments where applicable.
- **ClaimUnacknowledgedUnassigned** – This status only applies to those Insurers that are using claim ownership. Once a claim has been routed to the correct workgroup, it needs to be assigned to a claims handler. The Insurer will allocate a claim to the relevant claim owner, changing the status to ClaimUnacknowledgedRouted.
- **ClaimUnacknowledgedUnrouted** – This status refers to all new claims that have been uploaded into iDAS CHOX at the '1st claim notification' stage and are yet to be routed to the relevant claims handling team within the Insurer.
- **ClaimUnacknowledgedRouted** – This status refers to claims that have been routed to the relevant claims handling team/claims handler within the Insurer. The Insurer has an action at this stage to review the claim details against details registered on internal systems and make a decision on whether to acknowledge or reject the claim, adding any notes as required and/or details regarding the claim acceptance/rejection, specifically details regarding liability and indemnity.
- **ClaimUpdatedByEngineer** – This status indicates that an Insurer's motor engineer has reviewed the claim details, added any relevant notes and sent the claim to the relevant claims handler(s) to follow up/action the claim.
- **ContestedInvoiceReferredToCHO** – This status indicates that the Insurer has escalated the claim to the Credit Hire Organisation with supporting notes on why this decision has been made. The Credit Hire Organisation is required to review any Insurer notes, and make a decision on whether to accept the claim/invoice rejection or contest the claim/invoice rejection. If the Credit Hire Organisation makes the decision to accept the claim/invoice rejection then supporting notes should be made. If the Credit Hire Organisation makes the decision to contest the claim/invoice rejection then the Credit Hire Organisation needs to make any necessary changes to the claim/invoice details and/or attach a payment pack/file if required and/or add a note to the claim and then re-submit the claim into the Business Rules Engine.
- **ContestedInvoiceReferredToInsurer** – This status indicates that the Credit Hire Organisation has received a claim previously in the state of 'ContestedInvoiceReferredToCHO' made any necessary amendments and re-submitted the claim and now it is back with the Insurer for review. The Insurer will review the re-submitted claim as well as the historic notes from the previous submission(s), and if applicable Credit Hire Organisation's notes and/or the attached payment pack/file will be reviewed. The Insurer is required to make a decision on whether to approve the invoice or escalate the claim/invoice back to the Credit Hire Organisation.
- **InvoiceApprovedByBRE** – This indicates that all of the details regarding the invoice and the claim pass through the Business Rules Engine **and** there are no flags on the claim prompting the Insurer to manually review the claim. The Insurer is still required to approve the invoice for payment or to

reject the claim/invoice back to the Credit Hire Organisation. The Credit Hire Organisation is not required and cannot make any changes to the claim during this status.

- **InvoiceDataCalculationIncorrect**- This status indicates that the Credit Hire Organisation has made fundamental calculation errors in the invoice data uploaded. The Credit Hire Organisation will be presented with details via the 'Remark' column on the XML upload screen and on the 'History' tab. The Credit Hire Organisation will need to make the necessary amendments to the 'Invoice Details' tab and re-submit the claim.
- **InvoiceEscalated** – This status indicates that there are certain details within the submitted claim/invoice that the Insurer's motor engineers would like to review before making a decision on whether to approve or reject the claim/invoice for payment. The Credit Hire Organisation is not required and cannot make any changes to the claim during this status.
- **InvoiceEscalatedToHandler** - This status indicates that there are certain details within the submitted claim/invoice that the Insurer's claims handlers would like to review before making a decision on whether to approve or reject the claim/invoice for payment. The Credit Hire Organisation is not required and cannot make any changes to the claim during this status.
- **InvoicePaymentLogged** – This status indicates that the Insurer has made a payment against the claim on the Insurer's internal payments system. The Credit Hire Organisation should review any notes against the claim for any relevant payment information. The Credit Hire Organisation is required to raise physical invoices for claims of this status for the amounts held on iDAS CHOX.
- **InvoiceRejectionAccepted** - This status indicates the end of the life of the claim in question as the Credit Hire Organisation has accepted the Insurer's decision to reject the claim/invoice, no further action is required by either the Insurer or the Credit Hire Organisation, and relevant notes should be added by the Credit Hire Organisation.
- **InvoiceReferredToClaimsHandler** – This status indicates that an Insurer's motor engineer has reviewed the claim/invoice details, added any relevant notes and sent the claim to the relevant claims handler(s) to follow up/action the claim/invoice.
- **InvoiceReferredToEngineer** – This status indicates that the claim has been sent to the Insurer's motor engineers by an Insurer's claims handler to review the claim/invoice details and make appropriate recommendations/actions.
- **PaymentReceived** – Once the payment has been received by the Credit Hire Organisation from the Insurer, there is a requirement for the status of the claim in question in iDAS CHOX to be updated to reflect this. This allows both the Insurer and the Credit Hire Organisation to see that the claim does not have an outstanding payment and the case is settled, indicating the end of the life of the claim in question; no further action is required within iDAS CHOX by either the Insurer or the Credit Hire Organisation.

Appendix B – Installing iDAS CHOX Macro In Microsoft Excel

B.i iDAS CHOX Microsoft Excel Add-In

This section describes the steps necessary to setup the iDAS CHOX Microsoft Excel Add-In which can be used to create XML in the correct format for Credit Hire Organisations to import data into the system.

The installation of Add-Ins for Microsoft Excel 2003 and 2007 are different, below are step by step instructions on how to install the iDAS CHOX Add-In for each of these versions, if any problems are encountered during the setup please contact iDAS CHOX support.

B.i.i Installing the Add-In (Microsoft Excel 2003)

To install the Excel Add-In please ensure you have the latest version of the iDAS CHOX XML macro and then follow the steps below:

- Save the 'iDAS_CHOX.xla' file to your PC/network. The file can be saved in any location desired, but the default location for Microsoft Excel Add-Ins is 'C:\Documents and Settings\[User name]\Application Data\Microsoft\AddIns' so the suggestion is to save it in this location.
- Open Excel and select 'Add-Ins...' from the 'Tools' menu.
- On the opening 'Add-Ins' dialogue window, click the 'Browse...' button.
- Navigate to the location of the iDAS_CHOX.xla file and select it.
- When prompted, click 'Yes' to copy 'iDAS_CHOX.xla to the Add-Ins folder for [User name]?'
- Ensure that 'iDAS CHOX' is listed under 'Add-Ins available' and its checkbox is checked.
- Click 'OK' to close the 'Add-Ins' dialogue window.

B.i.ii To Add A New Toolbar (Microsoft Excel 2003)

The best way to use the Add-In is to add a toolbar button that will run the code when clicked. You may either add a button to an existing toolbar or create a new toolbar to hold the button.

- In Excel, right-click anywhere in the toolbar area, and on the pop-up menu left click on the 'Customize...' option.
- On the 'Customize' dialogue screen that opens, make sure the 'Toolbars' tab is selected and click the 'New...' button.
- Give your new toolbar a meaningful name (for example 'Macro Buttons'), click 'Ok' then click 'Close' to close the 'Customize' screen.
- Your new toolbar will appear on the screen. Left click and drag the tool bar to the top and position your new toolbar as desired.

B.i.iii To Add A New Toolbar Button (Microsoft Excel 2003)

- In Excel, right-click anywhere in the toolbar area and on the pop-up menu select the 'Customize...' option.
- On the 'Customize' dialogue window that opens, make sure the 'Commands' tab is selected, scroll down the 'Categories:' list and select 'Macros' by left clicking on the word.
- In the 'Commands:' pane left-click and drag 'Custom Button' and drop it where you wish the new button to be created. It is suggested that you add this to your newly created tool bar, however it can be added to any of the existing tool bars if desired.
- With the new button still selected, click the 'Modify Selection' button beneath the 'Categories' list and a new pop-up menu will be displayed.
- Give the button a meaningful name (for example 'iDAS CHOX XML') by typing in the 'Name' box. You may also change the image on the button by using 'Change Button Image'. Alternatively you may change the button to show its name rather than an image by selecting the 'Text Only (Always)' option.
- Finally, to associate the button with the code in the Add-In select 'Assign Macro...' and the 'Assign Macro' window will be displayed.
- Due to the code being held in the Add-In it won't be listed for selection, so type CHOX in the 'Macro Name' box and then click the 'Ok' button, and then 'Close' to close the 'Customize' screen.

B.i.iv Installing the Add-In (Microsoft Excel 2007)

To install the Excel Add-In please ensure you have the latest version of the iDAS CHOX XML macro and then follow the steps below:

- Save the 'iDAS_CHOX.xla' file to your PC/network. The file can be saved in any location desired, but the default location for Microsoft Excel Add-Ins is 'C:\Documents and Settings\[User name]\Application Data\Microsoft\AddIns' so the suggestion is to save it in this location.
- Open Microsoft Excel 2007 and follow the steps below:
 - Left click on the Window Icon located in the top left hand corner of Microsoft Excel 2007 as shown in figure 37 below.
 - From the drop down menu left click on the 'Excel Options' button located in the bottom right hand corner, to the left of the 'Exit Excel' button as shown in figure 37 below.

Figure 37

- Clicking on the Excel Options button, the Excel Options screen will appear. The following steps should be taken:
 - Left click on Add-Ins, the Add-Ins menu window will now appear as shown in figure 38 below.
 - Navigate to the bottom of the screen and find the 'Manage' drop down menu.
- Left click on the downward arrow and left click on 'Excel Add ins' to select this from the list.
- Left click on the 'Go...' button.

Figure 38

- The Add Ins popup browser will now be displayed as shown in figure 39 below. The Add-Ins popup browser is where the user can select which Add-Ins they wish to add to their version of Excel. The iDAS CHOX macro will not be present on this list. To find the Macro, carry out the following steps:
 - Click on the 'Browse..' button

Figure 39

- The browse window will appear. Navigate to where the iDAS_CHO.xla file is stored on your PC/network. Please note that once the macro is added, it should not be moved from its current stored location.
- Left click on the file once to select it.
- Then click on the 'Open' button.
- This will add the macro to the Add-Ins list and will automatically select it, by putting a tick in the check box next to it as shown in figure 40 below.

Figure 40

- Click on the 'OK' button to save the iDAS CHOX macro to the selected Add-In.

B.i.v To Add A New Toolbar Button (Microsoft Excel 2007)

The iDAS CHOX XML macro has now been added to the list of Add-Ins, a macro button now needs to be added to the Microsoft Excel toolbar which acts as a shortcut for running the macro. To install this shortcut button, follow the following steps:

- Left click on the Window Icon located in the top left hand corner of Microsoft Excel 2007.
- From the drop down menu left click on the 'Excel Options' button located in the bottom right hand corner, to the left of the 'Exit Excel' button.
- From the Excel Options screen, left click on 'Customize' from the left hand menu and this will open the Customize screen in the right hand panel of the window as shown in figure 41 below.
- From the 'Choose commands from:' drop down box, select 'Macros'

Figure 41

- This will bring up a list of available macros in the window below. As figure 42 below shows, there is only the CHOX macro available in the list.
- Left click on the macro name 'CHOX'.
- Click on the 'Add >>' button to add the macro.

Figure 42

- The default button icon (organisational tree icon) is assigned to the macro. The shortcut button icon can be modified by following the below steps:
 - Left clicking on the 'Modify...' button.
 - A list of available shortcut buttons is displayed in the 'Modify Button' window as shown in figure 43 below.

Figure 43

- Select the desired shortcut button by left clicking on the relevant icon.
- Left click on the 'OK' button.
- You will be returned to the Customize screen, click on the 'OK' button.
- The shortcut button will now appear in the control panel in Microsoft Excel and is ready for use.
